Project Fact Sheet

Big Lake Road MP 0-3.6 and Church Road Pavement Preservation

State Project No. 0511009/CFHWY00906

Big Lake Road MP 0-3.6

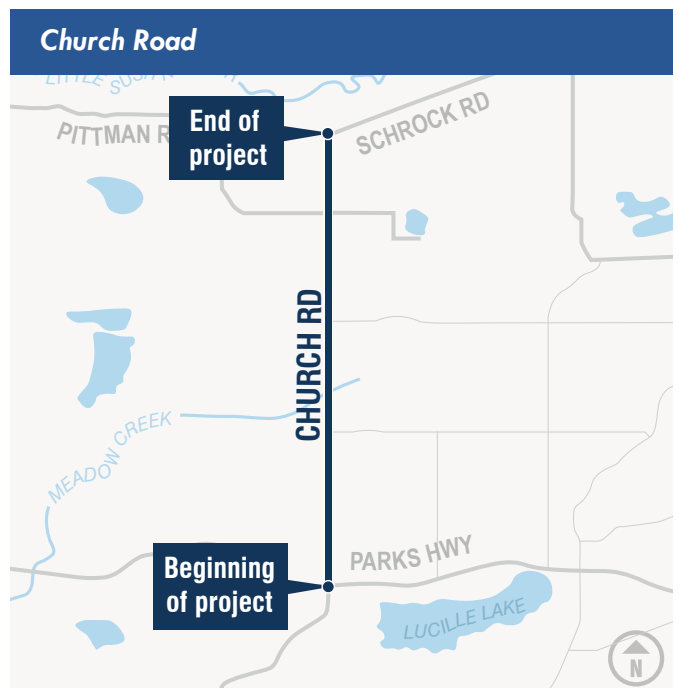

PROJECT DESCRIPTION

The State of Alaska Department of Transportation and Public Facilities (DOT&PF) plans to resurface Big Lake Road from the Parks Highway through the roundabout at North Shore Drive, milepost (MP) 0 to 3.6, and Church Road from the Parks Highway to West Schrock Road.

Work would include, as necessary:

- Roadway and pathway pavement resurfacing
- Drainage improvements
- Improvements to roadside hardware, including guardrail, signs, lighting, and traffic data
- Striping
- Structural dig-outs
- Utility relocations
- Vegetation clearing and grubbing
- ADA curb ramps

CURRENT STATUS

Environmental analysis is in progress and expected to be complete in fall 2023. The construction schedule is dependent on many factors, including funding availability. Early public outreach received several requests to advance construction to 2024. DOT&PF understands the urgency to resurface these roadways and are working to expedite project development for construction in 2024. Conservatively, final construction is scheduled for 2025.
