C1. Mat-Su Transportation Fair – August 2012

# Mat-Su Transportation Fair

**Make tracks to the transportation fair to learn about the many transportation projects under way in the Mat-Su Borough!**

**Thursday, August 9, 2012**

**Save the date!**

**4 - 8 pm**

**Menard Sports Center  
1001 S. Mack Drive, Wasilla**

The Alaska Department of Transportation & Public Facilities, Cities of Palmer, Wasilla, and Houston, the Alaska Railroad Corporation, Knik Arm Bridge and Toll Authority, and the Mat-Su Borough have teamed up to bring you the latest on Valley roads, airports, rails and trails at this one-stop information destination.

*Bring the family for children's activities, food and fun!*

**Stop by anytime to find out more about:\***

- ◆ Alaska Railroad Projects
- ◆ Bogard Road Extension
- ◆ Fairview Loop Rehabilitation
- ◆ Glenn Hwy Reconstruction: Parks Hwy to Old Glenn Hwy
- ◆ Highway Safety Corridors Status Update
- ◆ Houston Comprehensive Plan
- ◆ Mat-Su Community Transit (MASCOT)
- ◆ MSB Planning Efforts
- ◆ Palmer-Wasilla Highway Eastern Terminus
- ◆ Parks Hwy Connectors: Museum Drive and Machen Road Extensions
- ◆ Parks Highway Alternative Corridor
- ◆ Parks Hwy Milepost 44-52, Wasilla to Houston
- ◆ Port Mackenzie Rail Extension
- ◆ Seward Meridian Phase II
- ◆ South Big Lake Road Realignment
- ◆ South Mack Drive Extension (Clapp Road)
- ◆ Statewide Transportation Bond Projects
- ◆ Valley Movers
- ◆ vRide Vanpools
- ◆ Wasilla Main Street Couplet

**And many more projects...**

**\*Tentative list of projects**

**To include your project, please contact the event organizer.**

**For more information about the transportation fair, contact event organizer:**

Anne Brooks, Brooks & Associates, 301 W. Northern Lights Boulevard, Suite 440, Anchorage, AK 99503

Tel: (907) 272-1877, Fax: (907) 743-6087, E-mail: a.brooks@brooks-alaska.com

# **KNIK-GOOSE BAY ROAD RECONSTRUCTION SCOPE (FROM STIP)**

- **“Project consists of widening Knik-Goose Bay Road to a divided 4-lane facility from Centaur Avenue to Vine Road, a distance of 6.44 miles. Scope includes separated bike/ped facilities, appropriate safety engineering strategies such as rumble strips and reducing/combining access points that are determined to be most effective at reducing crashes along the road. Project can be constructed in multiple phases to fit funding.”**

---

## **WHAT IS A RECONSTRUCTION PROJECT?**

**A reconstruction project is a major highway improvement that completely rebuilds an existing roadway or constructs a roadway on new alignment, to the contemporary design requirements of the *AASHTO A Policy on the Geometric Design of Highways and Streets 2001*, and the *Alaska Preconstruction Manual*.**

## ***WHAT YOU HAVE ASKED SO FAR:***

- ◇ **Are you addressing roadway noise?**
- ◇ **Will the flooding at Foothills Blvd be fixed?**
- ◇ **Will there be a median?**
- ◇ **How many lanes will be added?**
- ◇ **Will my property be affected?**
- ◇ **Would a median make the road safer?**
- ◇ **Are traffic signals a part of this project?**
- ◇ **What's happening on Fern Street?**
- ◇ **Will the project fix the congestion problem?**
- ◇ **Can I keep my driveway?**
- ◇ **Will turning vehicles continue to clog the roadway?**
- ◇ **Can we expect fewer crashes?**
- ◇ **What is the best solution for the head-on crash problem?**

# Where do I find the project I'm interested in?

**GROUP, TABLE #**

**Airports**

### Top 3 concerns about Knik Goose Bay Road:

1. Vehicles being rear-ended while making a left turn to side Street
2. There are no passing lanes.
3. As a two-lane road, it is much too congested.

### Top 3 things to change about Knik Goose Bay Road:

1. Widen the road to a 4-lane divided highway.
2. Add turn lanes.
3. Slow the speed limit to 45 mph. before stop lights.  
It is impossible to stop for a light at speed of 55 mph.

Thank you!

C2. Open House #1 Summary – December 4, 2012

# PUBLIC SCOPING OPEN HOUSE MEETING SUMMARY

---

<b>PROJECT:</b>	Knik-Goose Bay Road: Centaur Avenue to Vine Road MP 0.3-6.8
<b>PROJECT NO.:</b>	State: 52464/STP-0525 (16)
<b>PURPOSE:</b>	Public Scoping Open House Meeting
<b>DATE:</b>	Thursday, December 6, 2012
<b>TIME:</b>	4:30 p.m. to 7:30 p.m.
<b>LOCATION:</b>	Goose Bay Elementary School, 6400 Hollywood Road, Wasilla AK
<b>MEETING ATTENDANCE:</b>	86 individuals signed in
<b>ATTENDEES/STAFF:</b>	<p><b>ADOT&amp;PF:</b> Gerry Welsh, P.E., Project Manager; Angela Hunt, Environmental Analyst III; Garrett Paul, EIT; Mahendran Thivakaran, P.E.; Doug Morton, Designer; Ken Morton, Designer; Breanna Mahoney, Environmental Analyst; Matt Dietrick, Environmental Analyst; Al Burton, ROW Specialist; Allen Kemplen, AICP, Mat-Su Area Planner.</p> <p><b>CRW Engineering Group:</b> Van Le, Planner/Public Involvement Coordinator</p>
<b>MEETING REPORTER:</b>	Van Le/Jessica Smith

## MEETING SUMMARY

### Meeting Outreach Methods:

- 11/10/12: Post card mailer sent to 2426 individuals, elected officials, regulatory and government agencies;
- 11/26/12 and 11/28/2012: Display ad in *Anchorage Daily News*, regional news publication;
- 11/25/12, 11/27/12, 11/28/12, 11/30/12: Display ad in *Mat-Su Valley Frontiersman*; and
- 11/28/12 and 12/5/12: Constant Contact e-newsletter notice to the Knik-Goose Bay Road subscribers list.

The public scoping meeting was advertised to start at 4:30 p.m. on Thursday, December 6, 2012. Several attendees arrived early and spoke with the Project Team about the preliminary conceptual alternatives. The meeting was Open House style, without a formal presentation. Three stations were set up that included graphic boards displayed on easels. Several graphics were temporarily fastened to the gymnasium wall. At one corner of the gymnasium near a project station, tables were set up so attendees could sit and talk with the project team or write comments. Attendees were greeted as they entered the Goose Bay Elementary Gymnasium and were asked to sign-in. Attendees were briefed on the Open House format, the location of the proposed alternatives graphics including maps, and an introduction to the project team to answer their questions. ADOT&PF Right-of-Way staff was also available to answer specific questions about the possible right-of-way impacts of the proposed alternatives.

A project coordination table was set up for the ADOT & PF Fairview Loop Road/Knik-Goose Bay Road Intersection Project. The project manager from ADOT & PF, Jim Amundsen and the project consultant team of HDL/Brooks and Associates were available to answer questions. Several residents attended the Open House with specific questions about the Fairview Loop/KGB Road Intersection Project and were directed to the Fairview Loop/KGB Road Intersection Project Team.

As attendees arrived and signed in, they were informally surveyed about how they knew about the Open House. Many residents mentioned they received the postcard mailer at their residence; some lived outside the project mailing boundary and saw the display ad in the *Mat-Su Frontiersman*; one person mentioned they saw the e-newsletter notice linked to a Facebook page for the Knik-Fairview area.

The general sentiment of the attendees appeared to be that the project was needed. When asked, many of the residents at the Open House supported the proposed concepts as presented, including the 4-lane divided and 6-lane divided roadway as being the most appropriate solutions to solve the problems identified in the scope of the project. Several attendees preferred a solution that would include a middle turn lane. The majority of attendees that the project team spoke with appreciated being notified of the project, of the opportunity to attend the Open House and to be able to submit handwritten or have the option to submit electronic comments through the project website. Attendees were generally thankful of the project team's help in explaining the concept alternatives with the assistance of maps and graphics.

The demographic makeup of the Open House attendees included 63 percent males and 37 percent females. Of those who chose to indicate their Race on the sign in sheet, approximately 93 percent were reportedly White.

In addition to the residents, business owners and users of KGB Road, elected officials such as the Mayor of the City of Wasilla, the Matanuska-Susitna Borough Mayor, City and Borough elected officials, staff representatives from the Mat-Su Borough and the City of Wasilla; and State legislators and legislative aides were in attendance.

The Open House meeting ended approximately 10 minutes past the advertised end time of 7:30 p.m. Several residents were still engaged in conversation with the project team and stayed late to have their questions and concerns addressed.

## PUBLIC SCOPING OPEN HOUSE WRITTEN COMMENTS

The comments below were received at the Open House held on December 6, 2012 and have been summarized to remove typos and personal information and grouped according to type of comment. 14 written comment forms were received at the Open House. Actual written comment forms received are available in Attachment G. Responses to all comments by ADOT & PF will be available in the final Comments & Coordination section and associated appendices of the Knik-Goose Bay Road Reconstruction Project Environmental Document.

### SAFETY

- Agree with the concept of a divided highway with a median, for safety reasons.
- I would rather pay extra to make sure the road system is safe for me and my family.
- The plan for KGB/Donovan Drive intersection (Mile 5) looks good. Anything less would not solve the current safety issue at that intersection.

### PURPOSE AND NEED FOR PROJECT

- Thank you for answering our questions at the Open House. Nice presentation of information.
- This planned highway will stop growth in the business sector, loss of jobs.
- I am so excited about this project. As a homeowner in Settler's Bay, I have seen how much this area has grown in just the last 5 years and I anticipate it will continue growing, especially KABATA (*Knik-Arm Bridge*), Goose Bay Prison and Pt. McKenzie.

### PROJECT SCOPE

- Expand the project to at least Settler's Bay (largest subdivision in Mat-Su) if not farther to accommodate for the Valley, especially Knik-Fairview area's growth.
- By making that road more navigable, you will increase the people who want to live out here. I fully support this project and hope it can start sooner than 2017.

- Recommend consideration to continue past Settler’s Bay to the planned high school which will be operational by the time construction is hoped to be started on the road.

#### ACCESS

- Need access at Mile 3, north side of KGB east of Stan’s Appliances, next to proposed intersection over Rice on proposed highway design. Need more north-south roads and east-west connector roads. Should be 5-lane expandable to 7 if proposed design includes frontage roads.
- Need for existing driveways to be maintained.
- Need access to KGB if only right turn access for Birch Harbor Drive.

#### SIGNALIZATION

- Suggest a traffic signal at S. Mack Drive.

#### TRAFFIC CONGESTION

- By 2017 traffic will already be too heavy for improvements. Hurry!
- An extension of Binnacle to a 4-way stop at the 3 Bears Store would ease the load on Binnacle which is substantial.
- There is a large amount of traffic even now traveling that route which will only continue to grow before this project can possibly be completed.

#### CONCEPTUAL ALTERNATIVES/PRELIMINARY DESIGN SOLUTIONS

- 6-lane divided highway would be great but continue it to Vine Road. The number of saved lives cannot have a price tag too high!!
- There needs to be a 5-lane road from Palmer-Wasilla and KGB intersection to Fairview Loop Road Intersection. From Fairview Loop out to KGB can be a 4-lane divided road.
- Need Outrigger to become a 4-way stop with Vine.
- Fully support a six-lane DIVIDED highway.
- This Plan is unworkable for several reasons:
  - First, the divided road begins at Centaur in the middle of the City of Wasilla which is in the planned couplet (North-South) – that is NOT workable. The couplet has been planned and has met Wasilla approval.
  - 2. A divided highway causes a high speed corridor through the City – this is no way to allow cities to grow, thrive and expand.
  - 3. From your proposed start point- Centaur Ave through City of Wasilla has a commercially-zoned area that is growing. Wasilla is growing faster than any community in the state. It is the hub of the Mat-Su and requires areas to grow. Commercially dividing highways do NOT fit the bill.
  - 4. The City of Wasilla runs on and thrives on a 2% sales tax with a balanced Budget- if Wasilla again is cut off at the knees, as it was by ADOT east of the City on the Parks

Highway and attempts west with divided highways and now south down the KGB road is untenable and devastating to growth and the economy. Questions ADOT has not addressed nor is capable of understanding economic impact!

- 5. Wasilla will find itself in years to come suffering under the ill thought plan- finding itself as a very busy mere crossroads with crumbling infrastructure being forced to raise sales tax by large margins and imposing property tax which we have put into the scrap bin of history and should stay there. The prospect of city residents burdened with high property tax and increasing sales tax. This is poorly planned, ill devised-is not well thought out concerning the positive development. This is a NO GO design.
- As explained by ADOT staff- I would support the proposed 6-lane divided concept.
- 5-lanes to the end of Wasilla City Limits (Mack Drive), divided 4-lane to Alix Drive (home of new Knik High School and Junior High!). Better do it now rather than to come back a couple of years later.

## **NOISE**

- Although we are located past the planned end (Vine Road) we have had significant noise on our property overlooking mile 8 of KGB since the last construction was done 8 years ago and hope that appropriate sound fences/barriers will be planned when the road does eventually pass our home.

## **PROJECT WEBSITE/E-MAILED COMMENTS**

The following comments were submitted via the project website [www.knikgoosebayroad.com](http://www.knikgoosebayroad.com) or e-mailed to the project team. Comments have been summarized where necessary to group like comments and to remove typos or personal information. Comments from 18 individuals were received between November 29, 2012 and December 19, 2012. Electronic Comments received by the Project Team are available in Attachment H. Responses to comments by ADOT & PF will be available in the near future.

## **SAFETY**

- Depending on the time of day, and the time of year, a driver making a left turn out of Mack drive onto KGB towards Wasilla is looking directly into the sun. Please be aware of this situation.
- There may be other intersections along KGB where the sun is an issue. Sadly, we lost one of our neighborhood children about 10-plus years ago.
- The road frequently has deep snow, is icy, and has oversize vehicles using it and at these times the turn lanes become very dangerous.

## **PROJECT SCOPE**

- Where does the project end? From the environmental report and other documents it looks like it ends just past Vine Road. Is it a correct assumption that the new construction will have no effect on this property as it is located past Vine Road?

- I understand the lack of collector roads along KGB road complicates this project. Local roads like Mack Drive dump directly into one of the busiest roads in the state.
- One serious suggestion: we believe the road expansion should be extended to the Settler's Bay Road. We would willing to publically testify or send additional correspondence if it would help.
- I am deeply concerned and troubled that the DOT is so incredibly inept and slow at designing and constructing roads. I feel that the timeline set forth in the Knik Road project, I believe, should have started five years ago-why has it taken so long?
- Why DOES it take so long? Why does the public input need to be included the whole step of the way? Without the education that the "engineers" have, and with two public meetings, I am extremely confident that I could build this road, MUCH less expensive than the state could.
- The road they build near the hospital-the one that cost over 50 million dollars that nobody uses-why was that built first? Do you realize that the traffic count for Knik Road at Mile 2 is 25 times that of the road they build near the hospital? Makes me wonder who owns property down there.
- I guess my whole rant here is to ask "WHY THE HELL DOES IT TAKE SO LONG TO BUILD A ROAD?" AND, "WHY DO YOU WAIT SO LONG TO BUILD IT"? I would suggest you drive down Knik-Goose Bay Road ANY day between 2 PM and 8 PM and tell me if it is going to make it 5 more years before it is almost to the point of gridlock. Incredible. So wasteful, and so inept-that is the DOT. And do not you dare blame it on the Senate and House-they have asked that this be built over 10 years ago.

#### **PURPOSE AND NEED FOR PROJECT**

- Want to express my appreciation for the Open House at Goose Bay Elementary held on December 6. The Project Team did a good job of answering questions and explaining the various diagrams and charts. Have been a resident of the area for more than 20 years and in current location for nearly two years.
- Appreciate the update and will look forward to more as the project continues in its development.
- Thank you for the opportunity to comment (*through the website*).
- Thank you for the opportunity to participate, and thank you for last night's open house. I am a homeowner off Mack Drive at mile 4 since 1982.
- Thanks for the informative open house for the KGB Road expansion. It not only provided a lot of info but the DOT staff there where well informed and easy to talk to.
- I am glad to see that there is a plan in the works, but 5 years is a long time to wait, especially for this dangerous road.

#### **ROADWAY LIGHTING/ILLUMINATION**

- Have not seen plans to add street lights along KGB in the road construction planning. Are street lights going to be added? They are so badly needed.
- Attended the open house and concerned about lighting on KGB. Lighting is necessary for safety along KGB. This not only allows drivers to see oncoming Moose, but also other vehicles. Several moose were almost hit due to poor visibility at night. KGB is very dark and hard to see objects near

the road at night. Aware that some people do not want lights because of the “rural” feel, but lights will not even be noticed off the main road. Lighting should be a priority to promote safety along KGB until the road expansion project begins.

## **TRAFFIC CONGESTION**

- Please also take into account how the increased traffic of the new schools at Mile 10 of Knik-Goose Bay Road will impact the design and safety of the road.
- Lived off KGB for approx. 5 years, just south of Settler’s Bay. Dramatic increase in traffic in that time. Worst is from Palmer-Wasilla to Fairview loop. Traffic pattern around new 3 Bears store is excellent. In the last two years there is dramatic increase in traffic to the South of Settler’s Bay, assuming from the prison and the port which also needs to be considered.
- Lived in area past Settler’s Bay for 8 years and traffic has increased; and not just up to Vine, but beyond. It sometimes takes 5-8 minutes waiting at the Commodore/KGB intersection to get onto the road. There is a tremendous amount of traffic entering the road not only from Commodore but also from the Victoria Estates subdivision and beyond.
- It seems that when it comes to road construction, it's definitely true: build it and they will come. The more you increase the capacity of KGB road, the faster that area will develop. Thinking about that led me to thinking about where all the new traffic on KGB road will be coming from? If past and current patterns hold, about 30% will be commuting from Anchorage, which means that they'll be accessing KGB Rd from the Palmer-Wasilla Highway extension.
- Have you studied the left-turn movement at rush hour from the Palmer-Wasilla Highway extension onto KGB Rd lately? It appears to me that traffic nearly fills the entire 2-lane left turn pocket NOW, which means that the proposed 2-lane left turn pocket onto KGB from the Palmer-Wasilla Hwy Extension will be grossly inadequate when KGB is expanded. Suggest that you look at the left-turn pockets off the Palmer-Wasilla Hwy and the right-turn capacity from KGB onto the Palmer-Wasilla Hwy Extension.

## **SIGNS AND SIGNALIZATION**

- Consider including the traffic signals indicated on the concept/aerial photos as “future “with this project. This is a dangerous road. It’s one of the 3(?) roads statewide that are classified traffic safety corridors. Please don't wait for the statistics to justify the obvious.
- Traffic signals are really important to me; and I know they are very expensive. My preference would be to construct only 2 thru lanes each way, add the signals, and widen the median strip for future expansion for 3 thru lanes each way.
- If the budget allows, "Prepare to Stop" electrically powered signs (e.g. Glenn Highway@ Airport Heights in Anchorage) could be added if traffic signals are installed now.
- How about putting up some stop lights in the interim?
- Is a stoplight at KBG and Mack Drive planned?

- The plan calls for many signalized intersections along KGB Rd. Haven't engineers long ago proven that properly designed roundabouts have lower accident rates and higher capacity than signalized intersections? If so, why then is DOT continuing to propose signalized intersections?

#### **SPEED LIMITS**

- The Palmer-Wasilla Hwy extension speed limit is 45 mph. The speed limit for the reconstructed KGB should be 50 mph, not 55 mph. Given the long-term history of accidents on this road, I am surprised that KGB is still at 55 mph. Since the opening of the palmer Wasilla highway extension, I have been amused that the speed limit on this obviously safer road is 10 mph lower than the current KGB road.

#### **CONCEPTUAL ALTERNATIVES/PRELIMINARY DESIGN SOLUTIONS**

- My view of the Conceptual Plan presented at the open house is shaped by observations of other transportation projects which have occurred in the Palmer-Wasilla area over this 20 year time period:
  - 1. I support the divided highway concept over the 4 lane/two-way left turn lane concept. I believe the divided highway will provide a greater degree of safety than the use of the two-way left turn lane.
  - 2. The Conceptual Plan shows signal locations at approximately 1/2 mile intervals along the route. Given the current traffic loads during peak periods, these signals would add to congestion which seems to defeat the purpose of the proposed improvements. I asked about the possibility of roundabouts. His response was that it would slow traffic. Wouldn't signals slow traffic as well? I suggested that signals be used as sparingly as possible, confined to four-way intersections and intersections with major arterials such as Vine Road. Then allow right-in right-out access for three-way intersections with provisions for U-turns at signals.
  - 3. The Bike Path / Pedestrian Walkway is located on the northerly side of the highway. As this highway bisects an area of residential subdivisions, a divided highway would cut off access to the pathway for those who reside on the southerly side of the road. The only safe access to the pathway for these residents would be at the signal locations. If all proposed signals were installed, this could mean 1/4 mile walks along the roadway shoulders to the signal location for these residents. Thus I'd recommend the consideration of partial pathways on the southerly side of the road, at appropriate locations, with pedestrian overpasses or underpasses constructed to provide access to the northerly pathway.
- A modified cross section of the recently constructed Palmer-Wasilla Highway extension should be the template for this road. Medians make roads safer. It's a no-brainer.
- The road cross section included 3 thru lanes, one occasional, discontinuous left hand turning lane, and one occasional discontinuous right hand turning lane. Consider 2 thru lanes, and the turning lanes mentioned above. If the traffic volume (projected or current) indicates a drop in the level of service, it would be preferable to take the money saved by constructing only 2 thru lanes (instead of 3) and install synchronized traffic signals NOW with this project in the interest of safety.

- It's long past the time for KGB to be a divided road.
- Please consider only the plans with a division between the in and out bound lanes. A turn lane is helpful when roads are clear and visibility is good, but at other times can actually be more dangerous.
- Does "divided roadway" mean it will have some type of vegetation island separating the two sides or is this just a turning lane?
- Why aren't you proposing roundabouts? It would seem that the ideal place for introducing roundabouts is along a route in which there will be many in a row. Yes, you will get public pushback. The public will always pushback against the unfamiliar. Sooner or later, DOT will need to face this. If not now, when? And, why not now? In my opinion, the roundabout near Mat-Su Regional Hospital was very poorly designed: the radius is too tight for the volume of traffic, the amount of friction, and the number of exits off of it.

#### **ACCESS**

- Currently there is very little commercial business which will require extra turn offs, but that is clearly changing. Need to take all of that into consideration. Look ahead, not just behind.
- Some business owners along the road may object to a divided highway prohibiting easy access to businesses "on the other side of the road".
- Concerned about ingress and egress at mile 2.2 and see there is a traffic signal planned for the intersection of Endeavor St. Coordination with the project is needed to insure proper access is maintained.

#### **NON-MOTORIZED FACILITIES**

- The plans show an attempt to keep the walking/jogging trail. One of the problems with KGB has always been the misuse of recreational vehicles, snow machines, 4-wheelers etc. Where did you plan for them? Running path?

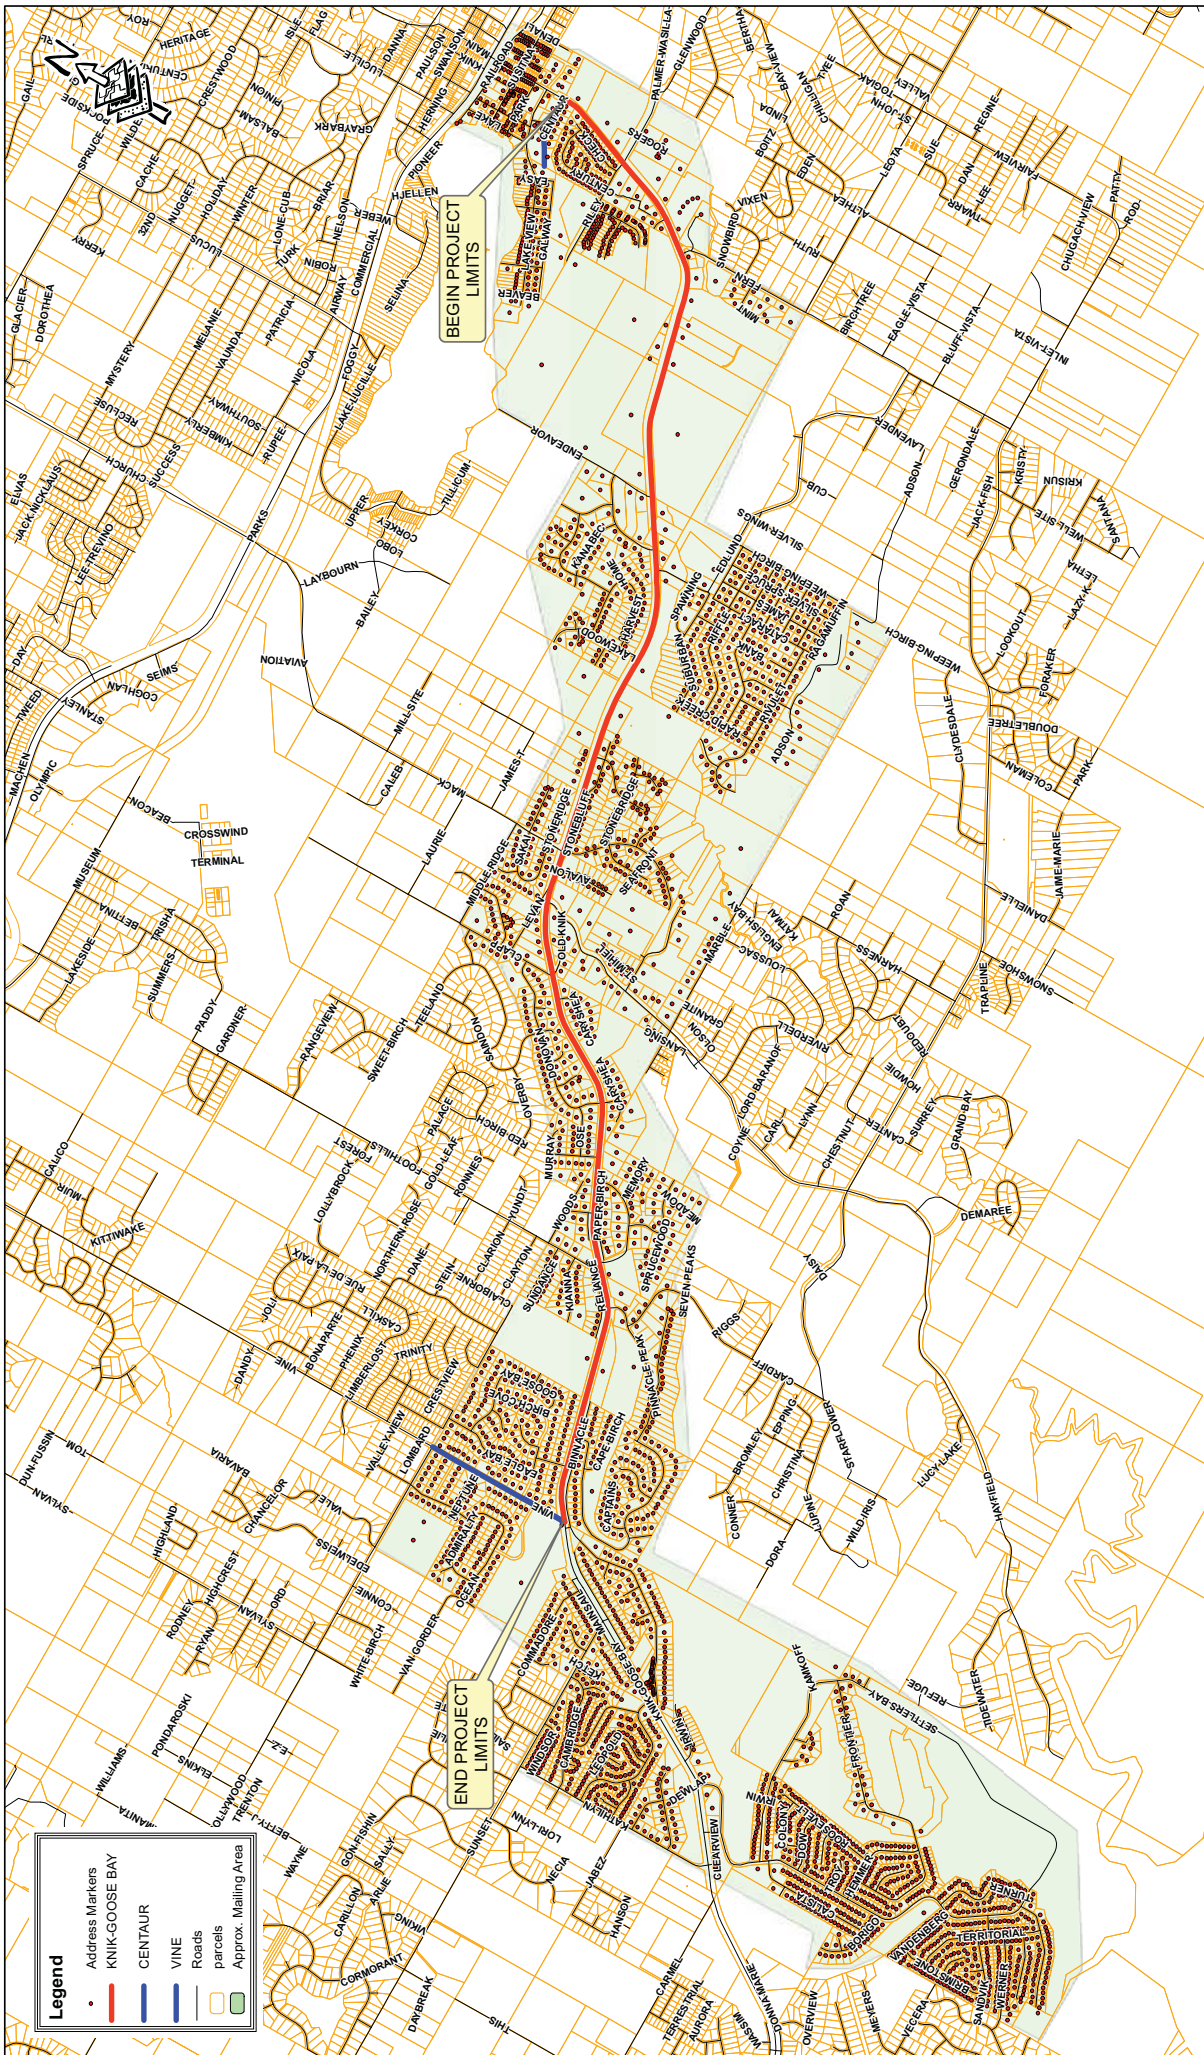

#### **RIGHT-OF-WAY**

- Preliminary plans (*on project website*) show red lines (*right-of-way*) drawn in front of tracts on Knik-Goose Bay Road. Right-of-way lines do not look symmetrical. Are they the existing or the new right-of-way? Will land be acquired for right-of-way? Other properties appear to already be contacted and have been notified. Will property owners receive notice soon and have information about our property?

# Transportation & Public Facilities

KNIK-GOOSE BAY ROAD RECONSTRUCTION MP 0.3 to 6.8 Centaur Ave. to Vine Rd.

KNIK GOOSE BAY ROAD

## Join us at the OPEN HOUSE!

Stop by the Open House anytime from 4:30 p.m. to 7:30 p.m. to find out about the Knik Goose Bay Road project, meet the Project Team, ask questions and provide feedback.

## When & Where

**Thursday, December 6, 2012**

**4:30 p.m. to 7:30 p.m.**

Goose Bay Elementary Gymnasium  
6400 Hollywood Rd., Wasilla AK

We want your input!

**Please contact us if you have questions:**

Construction is not expected to occur before 2017. There is plenty of time to plan, design, and work together.

Hi, just a reminder that you're receiving this email because you have expressed an interest in the Alaska Department of Transportation & Public Facilities' Knik-Goose Bay Road Reconstruction Project. Don't forget to add vle@crweng.com to your address book so we'll be sure to land in your inbox!

You may [unsubscribe](#) if you no longer wish to receive our emails.

**November 2012**

## Join us at the Open House!

The Alaska Department of Transportation and Public Facilities invites you to an Open House Meeting to view information and to provide input on the Knik-Goose Bay Road (KGB) Reconstruction Project. The purpose of this

proposed project is to improve mobility for people and freight and to enhance access management along KGB Road between Centaur Avenue and Vine Road.

Stop by the Open House or provide written comments to the contacts below by January 4, 2013.

### When & Where

**Thursday, December 6, 2012**  
4:30 p.m. to 7:30 p.m.

**Goose Bay Elementary School Gymnasium**  
6400 Hollywood Road  
Wasilla, Alaska

[Join Our Mailing List!](#)

Stay informed as the Knik-Goose Bay Road Reconstruction project progresses.

Keep your friends & neighbors informed!

## REMINDER: The Open House is on Thursday!

The Alaska Department of Transportation and Public Facilities invites you to an Open House Meeting to view information and to provide input on the Knik-Goose Bay Road (KGB) Reconstruction Project. The purpose of this

proposed project is to improve mobility for people and freight and to enhance access management along KGB Road between Centaur Avenue and Vine Road.

Stop by the Open House or provide written comments to the contacts below by January 4, 2013.

### When & Where

**Thursday, December 6, 2012**  
**4:30 p.m. to 7:30 p.m.**

**Goose Bay Elementary School Gymnasium**  
**6400 Hollywood Road**  
**Wasilla, Alaska**

[Join Our Mailing List!](#)

Stay informed as the Knik-Goose Bay Road Reconstruction project progresses.

Keep your friends & neighbors informed!

## December 12, 2012 Project Update #3

### Project Website has been updated!

New information including the project FACT sheet and other graphics displayed at the Open House are now available on the website: [www.knikgoosebayroad.com](http://www.knikgoosebayroad.com)

Thank you for showing an interest in the *Knik-Goose Bay Road Reconstruction Project* by attending our *Open House* on December 6, 2012. It is our hope that the information provided there was informative and highlighted the need for this project.

Your attendance, comments and input are very important to the project development process. Comments can be submitted directly through the website or by e-mailing the contacts below.

As you may know, the purpose of this project is to improve safety and capacity along Knik-Goose Bay Road between Centaur Avenue and Vine Road. As we move forward, expect to see website updates and more public outreach.

[Join Our Mailing List!](#)

Stay informed as the Knik-Goose Bay Road Reconstruction project progresses.

Inform your family, friends & neighbors about this important project!

# FACT SHEET

[www.knikgoosebayroad.com](http://www.knikgoosebayroad.com)

## PROJECT DESCRIPTION

December 6, 2012 - Open House #1

Project consists of widening Knik-Goose Bay Road to a divided facility from Centaur Avenue (near the Parks Highway) to Vine Road, a distance of 6.44 miles. Scope includes separated bicycle/pedestrian facilities, appropriate safety engineering strategies, and reducing/combining access points to most effectively reduce crashes. Project can be constructed in multiple phases to fit funding.

## PROJECT DETAILS

### Existing Information:

- Posted Speed: 35-55 MPH
- Traffic Average Daily Traffic (ADT):
  - 2010 – Varies between 10,000 & 18,400
  - 2035 – Varies between 19,500 & 35,900
- Right-of-Way: Varies to 200'
- Traffic Safety Corridor Designation
  - Palmer Wasilla Hwy to Pt. Mackenzie Rd
  - 33 fatal crashes (36 Deaths), 1977-2009

### Lane Configurations Considered:

- 4-Lanes, Two-Way Left Turn Lane
- 4-Lanes, 30' Median
- 6-Lanes, 30' Median
- 4 & 6-Lanes, 30' Median

### Project Schedule:

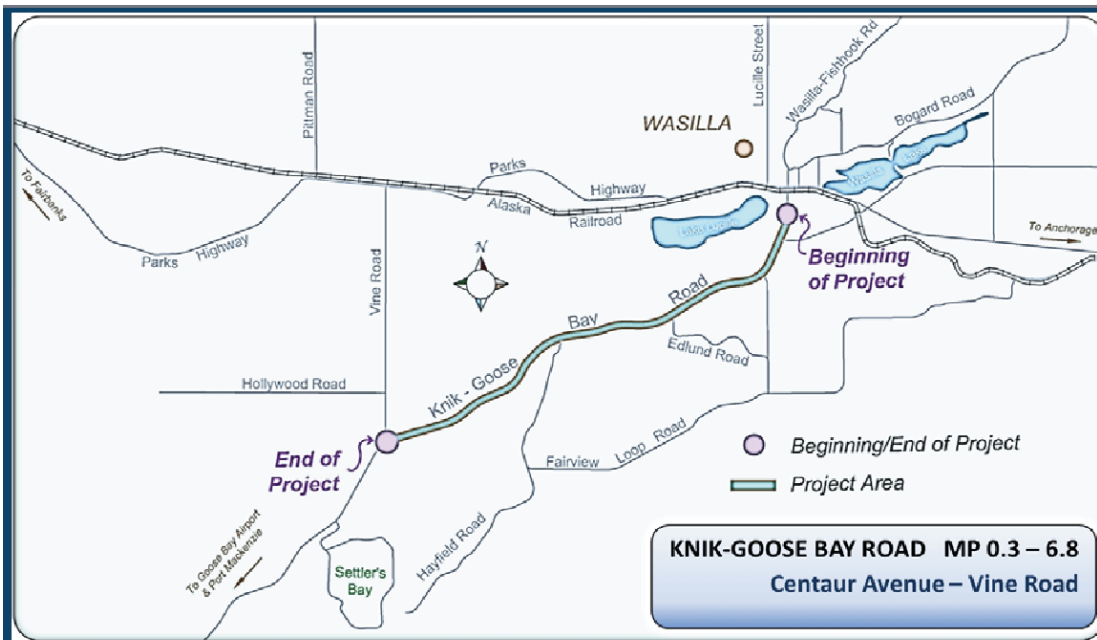

- We are just getting started
- Environmental Document Phase
- Construction not anticipated before 2017

### Project Parameters:

- Reconstruction (4R) project (20 YR Design Life)
- Functionally Classified as *Principal Arterial*
- Improve Safety, Reduce Crashes, Reduce Costs
- Improve Capacity, Reduce Delay, Reduce Costs
- Be Consistent with State and Local Plans
- Retain separated pathway

### Stay Informed:

- Submit comments and get project updates at [www.knikgoosebayroad.com](http://www.knikgoosebayroad.com)
- Sign up for e-newsletters/notifications at [comments@crweng.com](mailto:comments@crweng.com)

- 1 This plan is unworkable for several reasons.
- ① First, the divided Begins @ Centaur in the middle of the City of Wasilla which is in the planned Corridor (North-South) - that is not workable. The Corridor has been planned and has met Wasilla approval.
- ② A divided highway carries a high-speed corridor through the City - This is no way to allow cities to grow, thrive, and expand.
- ③ From your proposed start point - Centaur Ave the City of Wasilla has a Commercially zoned area is growing. Wasilla is growing faster than any community in the state - It is the hub of the Mat-Su (Covr)

and requires areas to grow Commercially -  
Divided highways do NOT fit  
the bill

- ④ The City of Waiilla runs on and thrives on a 2% sales tax - with a Balanced Budget - if Waiilla again is cut off at the knee, as it was by ADOT east of the City on the Parks Hwy and attempts west with divided highways and now south down the KGB road is untenable and devastating to growth and the Economy's ADOT has not addressed what is Capable of understanding Economic impact!

⑤ Wanilla will find itself in years to come suffering under the ill thought plan - finding itself as a very busy main crossroads with crumbling infrastructure being forced to raising sales tax by large margins and imposing property tax - which we have put into the scrap bin of history and should stay there - The prospect of city residents burden with high property tax and increasing sales tax - this is poorly planned - ill devised - is not well thought out concerning true positive development - This is a NO GO design -

Need Outrigger to become a 4 way  
Stop with Vines

Need access to KGB if only  
right turn access for Birch Harbor  
Dr!

Also an extension of Binnacle  
to a 4 way stop at 3 Bears would  
ease the load on Binnacle  
which is substantial.

6 lane divided highway would be great but continue it to Vine — there is a large amount of traffic even now traveling that route — which will only continue to grow before this project can possibly be completed. The # of saved lives cannot have a price tag too high!

Long overdue. Please make 6 lanes. The  
Prison at Pt. Mac will create huge traffic.  
It will have a capacity of 1200 inmates.  
Visitors, plus increased population moving to  
the area will impact traffic.

I am so excited about this project. As a homeowner in Settler's Bay, I have seen how much this area has grown in just the last 5 years, and I anticipate it will continue growing, especially with KABATA, Goose Bay Prison & Pt. McKenzie. I am in full support of a six lane DIVIDED highway. I would rather pay extra to make sure the road system is safe for me & my family. I also think it would ~~be~~ make sense to expand the project to at least Settler's Bay (largest subdivision in ~~the~~ Matsui) if not farther to accommodate for the valley - especially Knik/Fairview area's growth.

By making that road more navigable, you will increase the people who want to live out here. I fully support this project & hope it can start sooner than 2017.

As explained by Doug - I would support the  
proposed 6-lane divided concept -  
Recommend consideration to continue past  
Settlers' Bay to the planned High School -  
which will be operational by the time  
construction is hoped to be started on the road!  
Although we are past the planned end  
(mile) we have had significant noise on our  
property - overlooking mile 8 KGB since the  
last construction was done 8? years ago  
& hope that appropriate sound fences/barriers  
will be planned when the road does  
eventually pass our home -

Good Job!

Mile 5.0

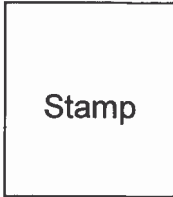

The plan ~~shows~~ for Knik/  
Donovan Dr. intersection  
looks good. Anything less  
would not solve the current  
safety issue @ that  
intersection.

Public Comments	Responses
<p><b>From:</b> <a href="mailto:suprmark12@hotmail.com">suprmark12@hotmail.com</a>, [mailto:<a href="mailto:suprmark12@hotmail.com">suprmark12@hotmail.com</a>] <b>On Behalf Of</b> Mark Button  <b>Sent:</b> Thursday, November 29, 2012 8:33 AM  <b>To:</b> Welsh, Gerald F (DOT)  <b>Subject:</b> KNIK ROAD PROJECT</p> <p>Hi Gerry,</p> <p>I am deeply concerned and troubled that the DOT is so incredibly inept and slow at designing &amp; constructing roads. I feel that the timeline set forth in the Knik Road project, I believe, should have started five years ago---why has it taken so long?</p> <p>Why DOES it take so long? Why does the public input need to be included the whole step of the way? Without the education that the "engineers" have, and with two public meetings, I am extremely confident that I could build this road, MUCH less expensive then the state could.</p> <p>The road they build near the hospital---the one that cost over 50 million dollars that nobody uses---why was that built first? Do you realize that the traffic count for Knik Road at Mile 2 is 25 times that of the road they build near the hospital?</p> <p>Makes me wonder who owns property down there.</p> <p>I guess my whole rant here is to ask "WHY THE HELL DOES IT TAKE SO LONG TO BUILD A ROAD?" AND, "WHY DO YOU WAIT SO LONG TO BUILD IT"? I would suggest you drive down Knik Goose Bay Road ANY day between 2 PM and 8 PM and tell me if it is going to make it 5 more years before it is almost to the point of gridlock.</p> <p>Incredible. So wasteful, and so inept--that is the DOT. And do not you dare blame it on the senate and house---they have asked that this be built over 10 years ago.</p> <p>Mark Button</p> <p><a href="mailto:bbkassoc@mtaonline.net">bbkassoc@mtaonline.net</a> Office  <a href="mailto:suprmark@mtaonline.net">suprmark@mtaonline.net</a></p>	<p>Thu 11/29/2012 11:27 AM</p> <p>Mr. Button:</p> <p>Thank you for your interest in this project and for your questions about our process.</p> <p>For an explanation of how project timelines evolve, I ask that you contact our MatSu Area Planner, Allen Kemplen, who is well-versed in our overall process --how the Department's program is developed and how projects are nominated, scored, prioritized and funded. Alan can also address questions about the history of projects on KGB and other MatSu Valley transportation facilities. He can explain the requirements for public input and the constraints on our plan development process you find so frustrating.</p> <p>I have discussed your message with Allen; he is happy to discuss these and other matters with you. I have cc'd Allen this reply, so you have his email address. Allen's phone number is 269-0513.</p> <p>I hope you can attend our project open house December 6<sup>th</sup> at Goose Bay Elementary School's gymnasium from 4:30 to 7:30 PM.</p> <p>Sincerely,  Gerry Welsh  269-0550</p>

KGB road [reconstructmck@mtaonline.net](mailto:reconstructmck@mtaonline.net)  
[mck@mtaonline.net](mailto:mck@mtaonline.net)

1. Thank you for the opportunity to participate, and thank you for last night's open house. I am a homeowner in Cheryl subdivision, Sakai Rd, off Mack drive at mile 4. I have lived on Sakai rd. since 1982.
2. Please consider including the traffic signals indicated on the concept/ aerial photos as "future "with this project. This is a dangerous road. It's one of the 3(?) roads statewide that are classified traffic safety corridors. Please don't wait for the statistics to justify the obvious.
3. A modified cross section of the recently constructed palmer Wasilla highway extension should be the template for this road. Medians make roads safer. It's a no brainer. The palmer Wasilla Hwy extension speed limit is 45 mph. the speed limit for the reconstructed KGB should be 50, not 55. Given the long term history of accidents on this road, I am surprised that KGB is still at 55 MPH. since the opening of the palmer Wasilla highway extension, I have been amused that the speed limit on this obviously safer road is 10 MPH lower than the current KGB road. Go figure....
4. I think I remember that the road cross section included 3 thru lanes, one occasional, discontinuous left hand turning lane, and one occasional discontinuous right hand turning lane. Please consider 2 thru lanes, and the turning lanes mentioned above. if the traffic volume (projected or current) indicates a drop in the level of service, it would be my preference to take the \$\$ saved by constructing only 2 thru lanes (instead of 3) and install synchronized traffic signals NOW with this project in the interest of safety. Traffic signals are really important to me; and I know they are very expensive. My preference would be to construct only 2 thru lanes each way, add the signals, and widen the median strip for future expansion for 3 thru lanes each way.
5. Depending on the time of day, and the time of year, a driver making a left turn out of Mack drive onto KGB towards Wasilla is looking directly into the sun. Please be aware of this situation. Signals are important to me. There may be other intersections along KGB where the sun is an issue. Sadly, we lost one of our neighborhood children about 10 plus/ years ago.
6. If the budget allows, "prepare to stop" electrically powered signs (Glenn highway@ airport heights) could be added if traffic signals are installed now.
7. I understand the lack of collector roads along KGB road complicates this project. Local roads like MACK dump directly into one of the busiest roads in the state.
8. Its long past the time for KGB to be a divided road. However, some business owners along the road may object to a divided highway prohibiting easy access to businesses "on the other side of the road". Traffic signals would help.

Thanks for the opportunity. ....John McKiernan....

<p>Tammy Jarriel  <a href="mailto:tjarriel@aol.com">tjarriel@aol.com</a>                      2012-11-24 08:46 PM</p> <p>I haven't seen any plans to add street lights along KGB in the road construction planning. Are street lights going to be added? They are so badly needed.</p>	
<p>Read Dunn  <a href="mailto:readdunn@gmail.com">readdunn@gmail.com</a>                      2012-12-11 04:40 PM</p> <p>We have lived off KGB for approx. 5 years, just south of Settlers Bay. Dramatic increase in traffic in that time. Worst is from Palmer Wasilla to Fairview loop. Traffic pattern around new 3 Bears store is excellent. In the last two years there is dramatic increase in traffic to the South of Settlers Bay. I assume from the prison and the port, this needs to also be considered. Currently there is very little commercial which means extra turn offs, but that is clearly changing. Need to take all of that into consideration. Look ahead, not just behind.</p> <p>Scott Nations <a href="mailto:snations.ak@gmail.com">snations.ak@gmail.com</a>                      Comments re: Proposed reconstruction of Knik Goose Bay Road                      Wed 12/12/2012 1:54 PM</p> <p>I want to thank you for allowing me to comment on this important project. I also would like to express my appreciation for the Open House at Goose Bay Elementary held on December 6. The Project Team did a good job of answering questions and explaining the various diagrams and charts.</p> <p>I have been a resident of the area for more than 20 years and have lived at Harvest Loop, off Lakewood Drive for nearly two years. My view of the Conceptual Plan presented at the open house is shaped by my observations of other transportation projects which have occurred in the Palmer-Wasilla area over this 20 year time period.</p> <p>Comments</p>	
<p>1. I support the divided highway concept over the 4 lane/two-way left turn lane concept. I believe the divided highway will provide a greater degree of safety than the use of the two-way left turn lane.</p> <p>2. The Conceptual Plan shows signal locations at approximately 1/2 mile intervals along the route. Given the current traffic loads during peak periods, these signals would add to congestion which seems to defeat the purpose of the proposed improvements. I asked a representative at the open house about the possibility of roundabouts. His response was that it would slow traffic. Wouldn't signals slow traffic as well? I suggest that signals be used as sparingly as possible, confined to four-way intersections and intersections with major arterials such as Vine Road. Then allow right-in right-out access for three-way intersections with provisions for U-turns at signals.</p> <p>3. The Bike Path / Pedestrian Walkway is located on the northerly side of the highway. As this highway bisects an area of residential subdivisions, a divided highway would cut off access to the pathway for those who reside on the southerly side of the road. The only safe access to the pathway for these residents would be at the signal locations. If all proposed signals were</p>	

Public Comments	Responses
<p>installed, this could mean 1/4 mile walks along the roadway shoulders to the signal location for these residents. Thus I'd recommend the consideration of partial pathways on the southerly side of the road, at appropriate locations, with pedestrian overpasses or underpasses constructed to provide access to the northerly pathway.</p> <p>Again, I thank you for the opportunity to comment. Scott Nations</p>	
<p>Rick James <a href="mailto:birder88@hotmail.com">birder88@hotmail.com</a> p.o box 870521 wasilla alaska 99687 Wed 12/12/2012 2:29 PM</p> <p>Thank you Mr. Le, I was wondering where the project ended. From the environmental report and other documents it looks like it ends just past vine road. The reason I am wondering is that my mom owns property on outrigger drive just past the electrical substation on KGB. Her home sits just behind the condos there. If I am understanding this right the new construction will have no effect on her property. Her home address is 5261 outrigger drive.</p>	
<p>2012-12-13 09:44 AM</p> <p>Shawn Flanagan <a href="mailto:shawmflanagan1@hotmail.com">shawmflanagan1@hotmail.com</a> <a href="http://www.knikgoosebayroad.com/">http://www.knikgoosebayroad.com/</a></p> <p>After attending the open house, I would like to voice my concern over the lighting on KGB. I absolutely believe that lighting is necessary for safety along KGB. This not only allows drivers to see oncoming Moose, but also other vehicles. I have almost hit several moose due to poor visibility at night. KGB is very dark and hard to see objects near the road at night. I am aware some people do not want lights because of the "rural" feel, but the truth is, the lights will not even be noticed off the main road. This should be a priority to promote safety along KGB until the road expansion project begins.</p>	
<p>Wed 12/12/2012 6:22 PM <a href="mailto:darkonia@gmail.com">darkonia@gmail.com</a></p> <p>Thank you Van. It was nice meeting you at the Knik School. I appreciate the update and will look forward to more as the project continues in its development. Hopefully we will bump into each other again somewhere down the line.</p> <p>Regards, Darcie (Galmon) MSB Assembly Member</p>	

Public Comments	Responses
<p>Thu 12/13/2012 9:31 AM KGB Road Open House</p> <p>Hi,</p> <p>Thanks for the informative open house for the KGB Road expansion. It not only provided a lot of info but the DOT staff there where well informed and easy to talk to.</p> <p>One serious suggestion: we believe the road expansion should be extended to the Settlers Bay Road. We live on Commodore Lane, just around the corner from the fire station on KGB. We built here 8 years ago and in that time we are amazed at how much the traffic has increased; and not just up to Vine, but beyond. It sometimes takes 5-8 minutes waiting at the Commodore/KGB intersection to get onto the road. There is a tremendous amount of traffic entering the road not only from Commodore but also from the Victoria Estates subdivision and beyond. We really believe that the road extension project needs to be extended to Settlers Bay. We would willing to publically testify or send additional correspondence if it would help.</p> <p>Thanks again for the great open house.</p> <p>Terry &amp; Joanie Nininger <a href="mailto:nininger@alaska.net">nininger@alaska.net</a></p>	
<p>Kim Elgee <a href="mailto:kimniwl@mtaonline.net">kimniwl@mtaonline.net</a> 2012-12-13 11:13 AM</p> <p>I see your preliminary plans and also see the red lines drawn in front of my tracts and other tracts going down Knik Goose Bay road. The Chart at the top saying these red lines are right of way. They look hand drawn and not symmetric. Will it be the new right of way? It does show the now one in green. They are Tracts G1 and G2 Tallerico where the new intersection is to go is on Endeavor Street. So will our two tracts and the other land going down Knik Goose Bay road be taken for the right of way? The church across the street from us has been contacted they say already and given some kind of notice and they are building a new addition on in spite of this. My opinion is the church will get more federal money for when they have to relocate when their new addition is appraised. Craig Thorn of First National Bank is a church member and elder of that church as well. Will we receive notice and be privy to information on our property's information as they state they have been. The red lines do have me concerned.</p> <p>Thank you, Kim Elgee</p>

**To:** Welsh, Gerald F (DOT)

**Subject:** Knik-Goosebay Rd project

Mr. Welsh,

Talking with you yesterday afternoon on the phone was fun, interesting and informative.

I've had a couple of thoughts since our conversation. . . .

It seems that when it comes to road construction, it's definitely true: build it and they will come. The more you increase the capacity of KGB road, the faster that area will develop. Thinking about that led me to thinking about where all the new traffic on KGB road will be coming from. If past and current patterns hold, about 30% will be commuting from Anchorage, which means that they'll be accessing KGB Rd from the Palmer-Wasilla Highway extension.

Have you studied the left-turn movement at rush hour from the Palmer-Wasilla Highway extension onto KGB Rd lately? It appears to me that traffic nearly fills the entire 2-lane left turn pocket NOW, which means that the proposed 2-lane left turn pocket onto KGB from the P-W Hwy Ext will be grossly inadequate when KGB is expanded. **I suggest that you look at the left-turn pockets off the P-W Hwy and the right-turn capacity from KGB onto the P-W Hwy Ext.**

Also, I noticed that the plan calls for many signalized intersections along KGB Rd. Haven't engineers long ago proven that properly designed roundabouts\* have lower accident rates and higher capacity than signalized intersections? If so, why then is DOT continuing to propose signalized intersections? **Why aren't you proposing roundabouts?** It would seem to me that the ideal place for introducing roundabouts is along a route in which there will be many in a row.

Yes, you will get public pushback. The public will always pushback against the unfamiliar. Sooner or later, DOT will need to face this. If not now, when? And, why not now?

\*In my opinion, the roundabout near Mat-Su Regional Hospital was very poorly designed: the radius is too tight for the volume of traffic, the amount of friction, and the number of exits off of it.

I'd be very interested in hearing your response to these suggestions.

Thank you,  
Anne

Cc: Thomas, Scott E (DOT) <[scott.thomas@alaska.gov](mailto:scott.thomas@alaska.gov)>; Van Le <[VLe@crweng.com](mailto:VLe@crweng.com)>

Ms. Kilkenny:

Thank you for your note.

Accurate predictions of growth patterns and rates for the areas served by KGB Road are of course important to our getting this project right. Currently, project analysis assumes future growth at a rate equal to historic (that of the past 20 years), about 2.7% per year. Ongoing modeling could adjust that up or down.

AM and PM peak hour turning movement counts at KGB intersections, including the PWH intersection, are part of our analysis. The growth rate is applied to current numbers to predict design year (20 years past construction) levels. Projections indicate a future need for three dedicated left-turn lanes from PWH onto KGB and three southbound departures for those same turning volumes. You'll see that configuration on the updated concept [here](#). Other appropriate turn lanes are indicated at other intersections based on the same analysis. Please note: analyses we currently show on the website are being updated to more closely reflect a design year consistent with the project schedule (2039).

Roundabouts, like signals, are established where analysis indicates both need and suitability. While increasingly recognized as an intersection control strategy that can fulfill multiple performance goals related to traffic operation and safety, roundabout use is very specific to particular traffic demands and types. Our Traffic and Safety section lists several intersections along KGB Road as "Long-term Signal/Roundabout *Candidates*," so some roundabouts may well be in KGB Road's future. Details of how, ultimately, intersections are managed depends upon future circumstances and the state of research and practice in Alaska. Roundabouts require considerably more right-of-way for their construction; acquisition of that right-of-way is not justifiable without determining need and suitability, and it's not yet possible to make that determination.

I am copying our Regional Traffic and Safety Engineer on this so he is aware of your thoughts on roundabouts on KGB (others have asked) and with the roundabout near the hospital.

Thank you for your interest in this project. If you have any other thoughts or questions, please don't hesitate to call or write.

Regards,

Gerry Welsh, PE

<p>Michelle Brazfield  <a href="mailto:Brazfield@mtaonline.net">Brazfield@mtaonline.net</a></p> <p>2012-12-18 11:01 AM</p> <p>Please consider only the plans with a division between the in and out bound lanes. A turn lane is helpful when roads are clear and visibility is good, but at other times can actually be more dangerous. The road frequently has deep snow, is icy, and has oversize vehicles using it and at these times the turn lanes become very dangerous. Please also take into account how the increased traffic of the new schools at mile 10 of Knik will impact the design and safety of the road. Thank you!</p> <p>Please sign us up for the Knik goose bay road construction e newsletter.</p>

C3. Knik-Fairview Community Council Meeting – May 1, 2013

KNIK-FAIRVIEW COMMUNITY COUNCIL GENERAL MEETING  
KNIK SAFETY BLDG. #62

RECEIVED  
JAN 29 2014  
CLERKS OFFICE

**MEMBER MEETING**

**7:00 PM**

**May 1, 2013**

**RECORD**

The meeting was called to order at 7:00pm by President Tilton.

Board Members Present: B. H. Tilton, Doug Hogdon, Bill Kendig, Kelly Griffin, Marcus Rehm, Patrick Cook and Bill Johnson. Quorum established for Board.

Quorum: Quorum established for members.

Pledge of Allegiance

Agenda Approved

Minutes of November 3, 2010 approved as presented. All other General Member meetings subsequent did not have a quorum.

While allowing members time to get signed in President Tilton discussed community revenue sharing monies that had been received and asked members consider requests for nominations for additional community projects for fiscal year 2013 monies.

The following are projects in progress or finished:

- Palmer Hay Flats Parking & Road repair(Completed with \$5,000 from Fiscal 2009 and \$5,000 from Fiscal 2010)
- Vi Reddington Bridge (In progress with \$10,000 from Fiscal 2009 and \$5,200 allocated from Fiscal 2009, \$15,200 allocated from Fiscal 2010. In addition, \$200,000 was allocated from the State fiscal 2011 budget)
- Machtetanz Elementary School for Iditarod Interpretive sign (Completed with \$2,450 from Fiscal 2011)
- Park on Horizon (\$10,100 allocated from Fiscal 2011 and \$13,450 allocated from Fiscal 2012)
- Iditarod Trail Harding (\$7,650 from Fiscal 2011 and \$13,450 from Fiscal 2012)

**UNFINISHED BUSINESS:**

- Board Elections: A slate of 5 was presented from the nominating committee. Opened the floor to additional nominations. Hearing and seeing none the slate was approved as presented. The slate included Kelley Griffin, Douglas Hodgdon, B. H. Tilton, Marcus Reum and William Kendig
- General Elections will be held in November
- President Tilton announced that there is a potential of 12,140 Council Members and that there is a \$5.00 charge to be voting member, so pass the word to all neighbors so a minimum quorum of 29 could be maintained at General Member meetings.

**PERSONS TO BE HEARD:**

1. MEA - transmission line routing - this project is in the study phase. It is not in engineering phase as of this meeting. A route has not been selected

- The Parks Highway route will be presented at the City of Wasilla Planning Commission Meeting scheduled for May 14th at the City of Wasilla at 7 pm.
- Dan Beardsly-Project Manager spoke regarding the reliability of the power and power where needed
- Looked at different Routes
  - Bogard existing doesn't provide redundancy
  - Palmer/Wasilla did not work out
  - South - master plan approved for the Ranch subdivision in the middle of the route
  - Railroad - lots of curves expensive construction - steep
  - Parks Highway - not conflicting with other dot project / most ownership commercial so no worries about trees/need less right of way
  
- Ran into snag with the City of Wasilla on the Park's Highway Route
  - MEA went out for more input
  - Looking back at Bogard
- Cottle/Fairview loop is not MEA preferred route but is the best route if not Parks Highway
- Parks Highway is preferred but City does not want "view shed" impacted on Parks Highway Route. Wants the lines put underground if that route used
  - Underground lines would not work due to high costs and water seepage in vaults
- May not able to perfect permitting process via the City
- One concern with Parks Back Lot route is that this route affects several homes owners.
- ROW is easier to obtain in commercial area.
- The Coop is ultimately responsible for the costs which will eventually be part of rate structure and we all pay.
- Check Website - rural health organization - cancer not caused by electrical currents in the manner MEA is constructing.

## Questions and Answers

When will decision be made and when is placement started? Don't know that answer yet.

Does the Wasilla City Council have authority just to deny permitting or do they have to follow objective criteria? Not sure what MEA legal council would recommend

**Motion/Second:** Resolution from the Knik Fairview Community Council to MEA that they not select anything along the Cottle route but look to the Parks Highway or Parks Highway Back Lot routes. Approved unanimous.

MEA will provide population figures for different proposed areas

Who is the main beneficiary? The main beneficiary would be Wasilla and the commercial area but all of the greater Wasilla area benefits from the Wasilla commercial area's services.

2. DOT – Jim Amundsen - project fact sheet
  - The project is being broken in four pieces
    - Realignment of light at Fairview loop and Knik  
Design contract has been let
    - ROW hayfield to Edlund buying row 100 parcels 2 1/2 years to get
    - Edlund to Fireweed start ROW
    - Hayfield to Top of World – ROW in Jan
    - Design phase for the East end of Fairview Loop to the Parks Highway
  - Discussion was held regarding widening road from Settlers Bay North
  
3. DOT - KGB out is federally funded - looking for preferred alternative.
  - This is not resurface it is a reconstruction project.
    - 20000 cars a day plus travel KGB
    - 2.7 percent is the historic growth rate
    - KGB is considered a Principal arterial road - provides certain level of services with less than a 60 second delay.
    - A good alternative - divided Multi lane highway 4 lanes
  
    - City of Wasilla suggested roundabouts - 8 about 1/2 mile spaces with intent of lowering speed of the road. Stop lights also slow traffic but that way stop and start. DOT thinks COW's concerns would require at least a one year delay in start time.
    - Wasilla City limits extend to Mack Road
    - State sees KGB as a road with high speed. Safely driven road. COW wants slow speed with the roundabouts.
    - Projects are:
      - Centaur to Vine then stops.
      - Then Vine just past Settlers Bay
      - Mile 12 Township of Knik - safety corridor - take advantage
    - For more information check website at [www.knikgoosebay.com](http://www.knikgoosebay.com)
  
4. Marty Metiva provided an update on the Vi Reddington Bridge
  - Progress going well.
  - Considering use of prefab bridge.
  - Should be in this Winter.
  - Goal is to be safe for mushers for year round use and for motorized vehicles up to a 4-Wheeler.
  
5. Knik Arm Bridge update - Michael Rovito - gave a brief update and explanation that the traffic study much talked about in the media was not inclusive of the Bridge as completed and needed to be amended to include that potential traffic.
  
6. Assemblyman Salmon explained the workshops upcoming for the Borough Budget.

## ADJOURNMENT

Attending Members left the meeting at 9:37pm.

## PROJECT INFORMATION

### *MATSU TRANSPORTATION FAIR – AUGUST 7, 2013*

## PROJECT DESCRIPTION (FROM STIP)

Project consists of widening Knik-Goose Bay Road to a divided facility from Centaur Avenue (near the Parks Highway) to Vine Road, a distance of 6.44 miles. Scope includes separated bicycle/pedestrian facilities, appropriate safety engineering strategies, and reducing/combining access points to most effectively reduce crashes. Project can be constructed in multiple phases to fit funding.

## PROJECT DETAILS

### Existing Information:

- Posted Speed: 35-55 MPH
- Average Daily Traffic (ADT):
  - ◇ 2010 – Varies between 10,000 & 18,400
  - ◇ 2039 – Varies between 21,800 & 41,600\*
- \*Based on 2.7% Historical Growth Rate
- Right-of-Way: Varies to 200'
- Traffic Safety Corridor Designation
  - ◇ Palmer Wasilla Hwy to Pt. Mackenzie Rd
  - ◇ 33 fatal crashes (36 Deaths), 1977-2009

### Project Parameters:

- Reconstruction (4R) Project (20 YR Design Life)
- Functionally Classified as *Principal Arterial*
- Improve Safety, Reduce Crashes, Reduce Costs
- Improve Capacity, Reduce Delay, Reduce Costs
- Retain Separated Pathway

### Lane Configurations Considered:

- 4-Lanes, Two-Way Left Turn Lane
- 4-Lanes, 30' Median
- 4-Lanes, 30' Median, Roundabouts
- 6-Lanes, 30' Median
- 4 & 6-Lanes, 30' Median

### Project Schedule:

- Alternative Development/Screening
- Environmental Document Phase
- Construction not anticipated before 2017

### Stay Informed:

- Submit comments and get project updates at [www.knikgoosebayroad.com](http://www.knikgoosebayroad.com)
- Sign up for e-newsletters/notifications at [comments@crweng.com](mailto:comments@crweng.com)

KNIK-GOOSE BAY ROAD RECONSTRUCTION MP 0.3 to 6.8 Centaur Ave. to Vine Rd.

## Your comments, please...

Thanks for visiting the 2013 Mat-Su Transportation Fair! Please use this comment sheet to share any issues, needs or local knowledge you believe will help us as we make improvements to Knik-Goose Bay Road. Thanks for your input!

I live @ Mile 5 KGB

I am very hopeful this reconstruction will occur, the sooner the better.

Knik GB is <sup>currently</sup> a dangerous w/  
the number of vehicles  
& the # of places where  
drivers turn.

Thank You

Fax this form to 907-561-2273 or fold and mail to address on the back of this sheet.

(To mail, fold in thirds. Place two pieces of tape along the top, 1" from each side, to seal for mailing. Affix first class postage.)

## Your comments, please...

Thanks for visiting the 2013 Mat-Su Transportation Fair! Please use this comment sheet to share any issues, needs or local knowledge you believe will help us as we make improvements to Knik-Goose Bay Road. Thanks for your input!

NO Round ABOUTS

*(Handwritten scribbles and lines)*

**Fax** this form to 907-561-2273 or fold and **mail** to address on the back of this sheet.

(To mail, fold in thirds. Place two pieces of tape along the top, 1" from each side, to seal for mailing. Affix first class postage.)

No Roundabouts.

Have experiences with Anchorage roundabouts  
and they would not work on KGB. 6-Lane

KGB would be much better

**Fax** this form to 907-561-2273 or fold and **mail** to address on the back of this sheet.

(To mail, fold in thirds. Place two pieces of tape along the top, 1" from each side, to seal for mailing. Affix first class postage.)

I vote against the round-about design -  
it does not fit the character of KGB Rd.

No Round about on  
KGB Rd in city or  
borough sections.

KATHY LUNNING  
WASILLA, AK

Like the 6 lane concept.

**Fax** this form to 907-561-2273 or fold and **mail** to address on the back of this sheet.

(To mail, fold in thirds. Place two pieces of tape along the top, 1" from each side, to seal for mailing. Affix first class postage.)

### Your comments, please...

Thanks for visiting the 2013 Mat-Su Transportation Fair! Please use this comment sheet to share any issues, needs or local knowledge you believe will help us as we make improvements to Knik-Goose Bay Road. Thanks for your input!

Re: Knik-Goosebay reconstruction to Vine.

I really like the idea of the 4 lane w/ roundabouts.

I can see that traffic would be slowed way down during peak commute times when most of the traffic is in one direction. Maybe they can put half as many roundabouts, only at the busier intersections. The speed limit really needs to be slowed down from the Parks to about Fairview Loop

A 4 lane with medians is my preference.

**Fax** this form to 907-561-2273 or fold and **mail** to address on the back of this sheet.

(To mail, fold in thirds. Place two pieces of tape along the top, 1" from each side, to seal for mailing. Affix first class postage.)

### Your comments, please...

Thanks for visiting the 2013 Mat-Su Transportation Fair! Please use this comment sheet to share any issues, needs or local knowledge you believe will help us as we make improvements to Knik-Goose Bay Road. Thanks for your input!

PLEASE DO THE 4 LANE / 6 LANE MODEL  
THE MOST IMPORTANT FACTOR IS THROUGHPUT  
PER HOUR.

THE ALTERNATIVE WILL SLOW RUSH HOUR TO  
20 MPH OR LESS FOR THE ENTIRE RUSH HOUR(S)

HAVE THE PRO'S DESIGN THIS - IE NO ROUND  
ABOUTS - SLOWING TRAFFIC IS INEFFICIENT

**Sent:** Thursday, August 08, 2013 10:24 AM  
**To:** Campbell, Robert A (DOT)  
**Subject:** Knik-Goosebay Road

Mr. Campbell,

I attended the Transportation Fair in Wasilla last night (7 Aug 2013) and wanted to comment on the Knik-Goosebay Road design and timeframe. However, I can't find a link under Central Projects on the DOT website. Could you provide the link please?

Just in case there is no link, I will make some comments on the Knik-Goosebay (KGB) Road project.

1. I love DOT's design plan for Knik-Goosebay Road *WITHOUT* the roundabouts! The divided highway is the way to go.
2. The timeframe for completion is unacceptable. One of the most dangerous roads in the Valley which is also experiencing dynamic population increases and commercial development. Needs priority upgrade.
3. In case KGB construction can't be done until 2019, how about some temporary measures like adding some left and right turn lanes at all the intersections on KGB from Wasilla to Settles Bay Road. Palmer-Wasilla Highway seems to get all the temp upgrades.... how about us?

Thanks for having the fair.

Fred Rostorfer

<b>MEETING REPORTER:</b>	Jessica Smith

## OPEN HOUSE #2 SUMMARY

The Alaska Department of Transportation & Public Facilities (DOT&PF) Knik Goose Bay Road Reconstruction Open House #2 was advertised from 4:00 p.m. – 7:00 p.m. on Wednesday, April 16, 2014 in the Wasilla Senior Center Dining Room. The open house also included a public scoping opportunity for an adjoining DOT&PF project, the Knik Goose Bay Vine Road to Settler's Bay project.

The meeting was Open House style, without a formal presentation. The two represented projects were stationed on either side of the dining room, as noted in the attached room set-up map. Several graphics were also temporarily fastened to the dining room wall. Tables and chairs were available for attendees to sit and talk with the project team or write comments to be submitted to the project team.

Attendees were greeted as they entered the Wasilla Senior Center Dining Room and were asked to sign-in. Attendees were briefed on the Open House format, the location of the separate project informational graphics and staff, and encouraged to direct any project-specific questions, comments or concerns to any member of staff identified with a name tag. Finally, a project fact sheet on each project was supplied to attendees. A total of 164 attendees signed in.

Project staff was stationed at each informational graphic to hear attendees' concerns and answer questions. Graphics included a project schedule, typical sections, an area connectivity map, level of service, and project area functional classification map. ADOT&PF Right-of-Way staff was also available to answer specific questions about the possible right-of-way impacts of the proposed alternatives.

The general sentiment of the attendees appeared to be that the project was needed. When asked, many attendees supported the preferred alternative as presented (4-lane divided with ROW purchase for a future 6-lane divided roadway). The majority of attendees that the project team spoke with appreciated being notified of the project, of the opportunity to attend the Open House and to be able to submit handwritten or have the option to submit electronic comments through the project website. Attendees were generally thankful of the project team's help in explaining the concept alternatives with the assistance of maps and graphics.

### **Open House Outreach Methods**

As attendees arrived and signed in, they were informally surveyed about how they knew about the open house. Many residents mentioned they received the postcard mailer at their residence; some lived outside the project mailing boundary and saw the display ad in the Mat-Su Frontiersman; one person mentioned seeing the variable message sign positioned by DOT&PF along KGB Road on their commute home.

The open house was advertised through postcards, display advertisements in various newspapers, on the project website, on newspaper websites, and in a project newsletter mailed the week before the event. Each outreach method is detailed below.

DATE(S)	OUTREACH METHOD
4/4/2014 – 4/16/2014	Announcement of Open House #2 on project website posted.
4/9/2014 – 4/16/2014	Notice of Open House #2 pm on the <i>Frontiersman</i> and <i>Anchorage Press</i> websites.
4/4/2014	Postcard announcement of open house sent to 2427 individuals, elected officials, regulatory and government agencies.
4/7/2014	Project newsletter sent to 2427 individuals, elected officials, regulatory and government agencies
4/9/2014 4/15/2014 4/16/2014	Display ad in <i>Anchorage Daily News</i> , a regional Anchorage news publication.
4/11/2014 4/13/2014 4/15/2014 4/16/2014	Display ad in the <i>Frontiersman</i> , a regional Mat-Su Borough news publication.
4/9/2014 4/15/2014 4/16/2014	E-mail notice of Open House #2 & follow-up reminders to the Knik-Goose Bay Road e-distribution list.
4/17/2014	Thank you to Open House #2 attendees and notice of event materials posted on the project website.

### Demographics

The ADOT&PF Title VI sign-in sheet included a volunteer gender and race demographic report option. Of the 164 reported attendees, 65 percent were reported Male and 34 percent reported Female. Of those who chose to indicate their identified race (ethnicity) on the sign-in sheet, approximately 96 percent identified as White, with the remaining 4% identifying a combination of Alaska Native, Native American, Black, and Other. It should be noted that not all attendees signed in and/or reported Race and Gender demographics. A Title VI Report was filed with the DOT&PF Civil Rights office and is found in Appendix D.

### OPEN HOUSE #1 SUBMITTED COMMENTS

The comments below were received at the Open House held on April 16, 2014 and have been summarized to remove typos and personal information and grouped according to type of comment. Ninety-five (95) written comment forms were received at the Open House. All comments received are available in the comment summary found in Attachment G. Responses to all comments by ADOT&PF will be available in the final Comments & Coordination section and associated appendices of the Knik-Goose Bay Road Reconstruction Project Environmental Document. The following summary of the Open House #2 comments includes the categorized comments and have been edited to remove all personal information and any obvious typographical errors.

### PURPOSE AND NEED FOR PROJECT

In general, the public supported the project and felt the need to construct the preferred alternative as soon as possible due to the current safety hazards Knik Goose Bay Road (KGB Road) presents. It was also noted that all of KGB Road needed attention to due current and future traffic demands, thus many

comments supported both the KGB Road: Centaurs to Vine Road, as well as the entire length of KGB Road and future upgrades to address safety, traffic, and access for future development.

**PREFERRED ALTERNATIVE**

The preferred alternative was well received by the majority of commenters. Commenters noted support for complete 6-lane build out, controlled access, and frontage roads for local access in one project to avoid future construction.

**SAFETY**

Safety concerns voiced a suggestion for a right turn lanes along KGB Road for access to local roads, as well as access onto KGB Road for safe merging. A noted area of majority accidents included the area between Mack Road and Vine Street due to the high number of residents between Fairview Loop and Vine Street.

**ROUNDAABOUTS**

There were noted comments both against and in support of roundabouts treatments along KGB Road. Generally, roundabouts as a corridor treatment along KGB Road was not supported.

**DOG MUSHING TRAILS**

A comment was received for accommodation of current and historical uses of the primitive surface trail for dog mushers and ATV users. It was suggested to take in to consideration that paved pedestrian trails were not appropriate for these activities.

**RIGHT-OF-WAY ACQUISITION**

**ACCESS**

A few comments were received regarding commercial heavy vehicle access to businesses along the corridor. The concern was that truck traffic may not be able to make the necessary U-turn for access to businesses without significant delays and major safety hazards. It was noted that trucks accessing the commercial driveway at Mile 1 KGB Road are typically 45 feet to 70 feet in length. A suggested solution included frontage roads to accommodate this truck traffic. There was one commenter noted support for a center turn lane, noting concerns for local road and private driveway access.

**SIGNALIZATION**

Suggestion of traffic signal removal at Fern Street and KGB Road to increase traffic flow. Signalization was also suggested at Clapp Road and KGB Road due to heavy school bus traffic, and to the east of Stans Appliances to accommodate future commercial development and shared access for adjacent parcels.

**MAINTAINENCE**

One comment asked for lane striping and marking that will not deteriorate during the winter season.

**ALTERNATIVE ROUTES**

Some commenters suggested continuing to develop alternative routes to bypass KGB Road.

**OTHER**

A few additional comments and suggestions included emergency boxes along the roadway, a “greenbelt” for noise reduction with the increase traffic volumes, general property acquisition, construction during heavy traffic hours, and appropriate access to community areas such as local churches and ballfields.

Some comments were directed to concerns outside of the project are limits. Although the comments are included in the attached summary, attendees were directed to the adjoining Knik Goose Bay Road Reconstruction: Vine Road to Settler’s Bay Project staff for more information. Concerns included noise, safety of the Settler’s Bay Village condominium structures from vehicular collisions, signalized intersections, and utility conflicts.

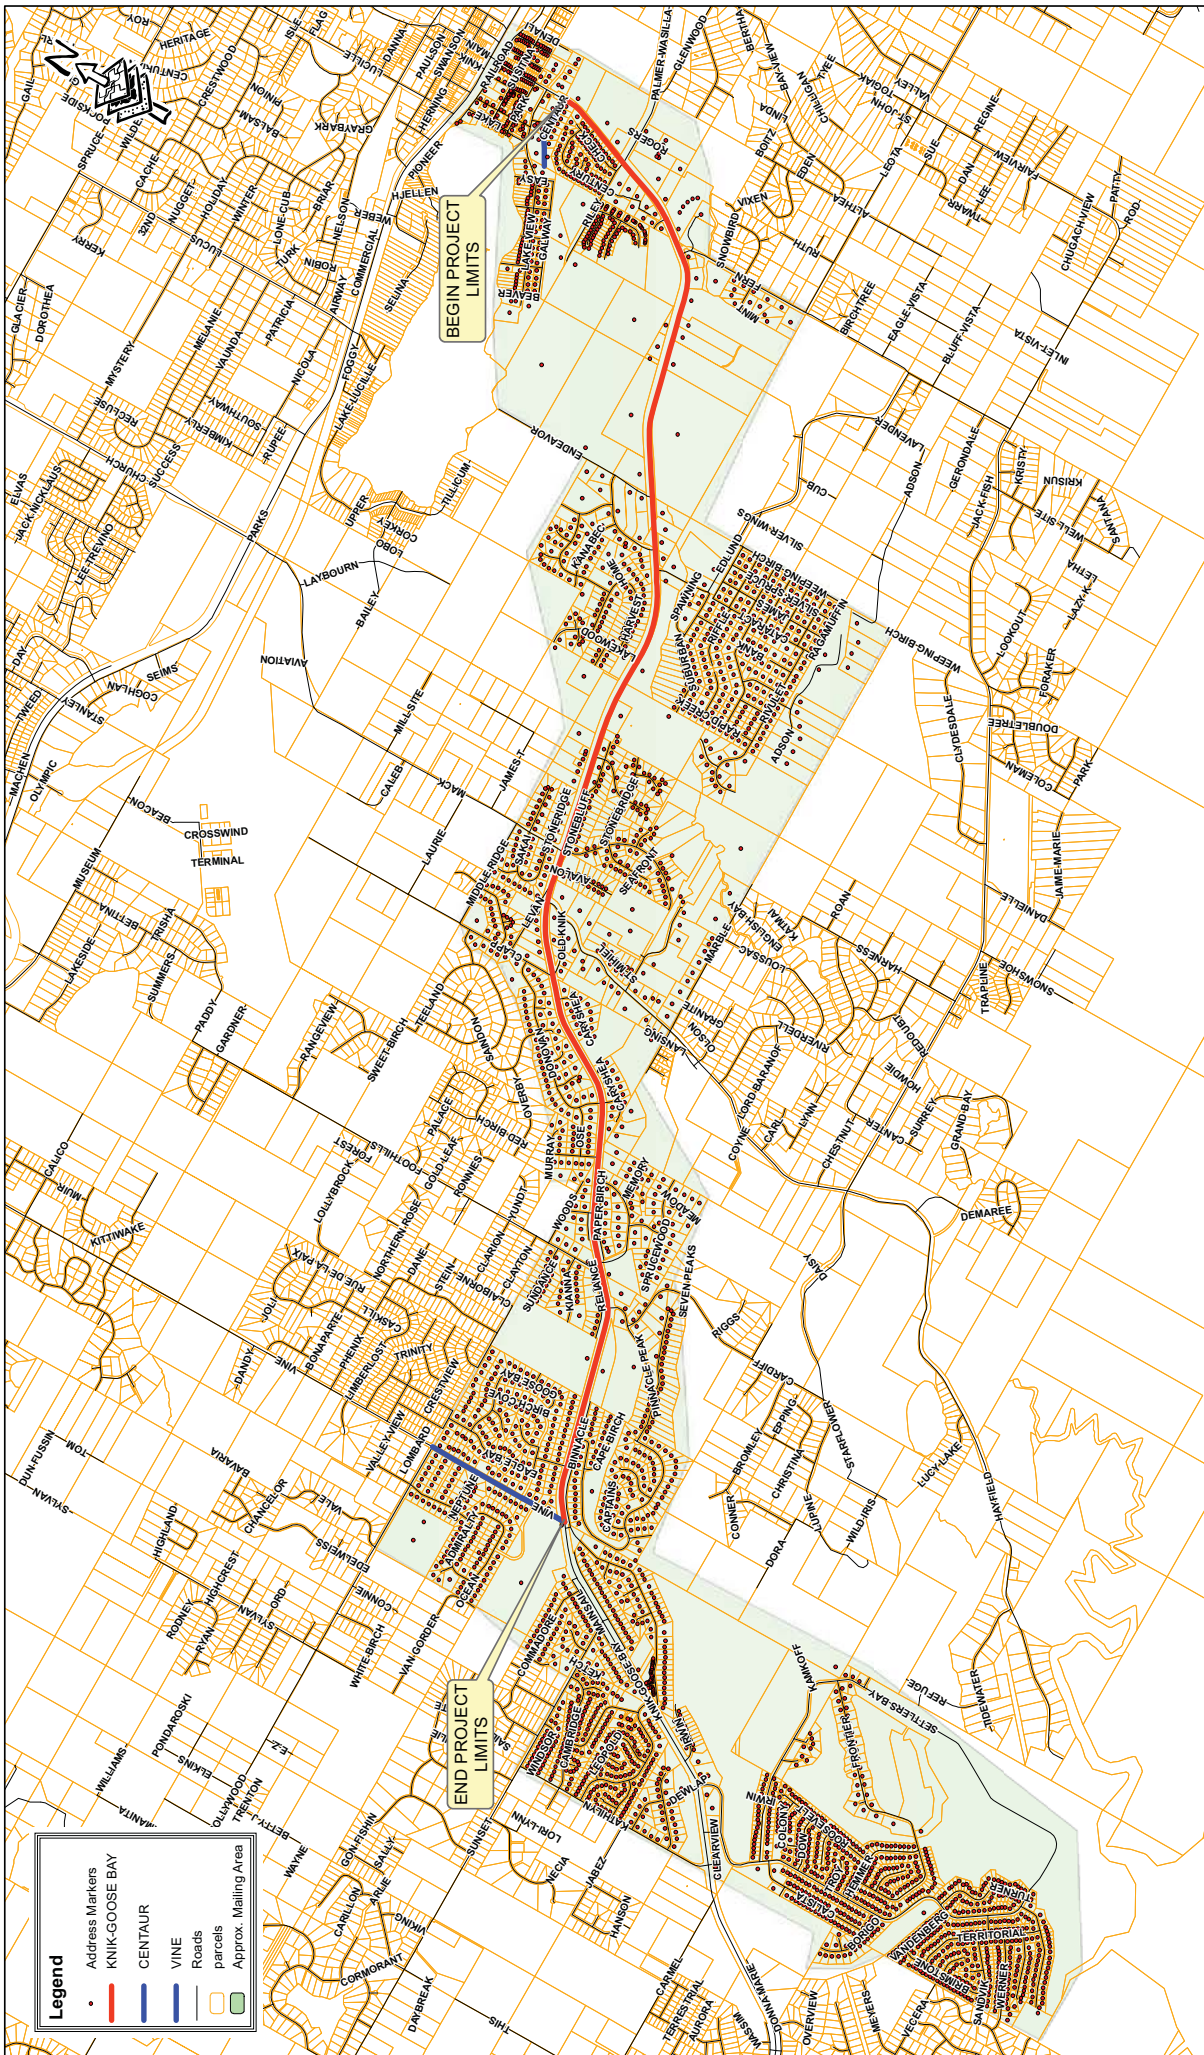

**CONCLUSION**

Following Open House #2, the Knik Goose Bay Road Reconstruction staff have reviewed all comments and continued to respond as appropriate. Responses include both written responses as needed, as well as consideration of concerns, suggestions, and ideas as appropriate within the scope of the project. A follow-up email after the conclusion of Open House #2 was sent to all attendees on the e-mailing list, with information regarding the website location and the Open House #2 materials uploaded for additional viewing. Attendees were encouraged to contact the project team with any additional input.

[www.KnikGooseBayRoad.com](http://www.KnikGooseBayRoad.com)

The Alaska Department of Transportation & Public Facilities (DOT&PF) is planning to reconstruct Knik Goose Bay Road from Centaur Avenue to Vine Road. The goal of the project is to improve safety, enhance mobility for people and freight, implement access management, and reduce congestion along this corridor.

The DOT&PF Preliminary Design Team has refined the preliminary concept and is preparing an Environmental Assessment to determine impacts.

### **You're Invited!**

Please drop by the **Wasilla Senior Center on Wednesday, April 16, 2014 from 4—7PM** to learn more about the project, refinements to the preliminary concept, and what the next steps are towards design and construction. The DOT&PF project team will have project graphics on display and be available to answer questions about this important project.

**Youth Counselors Full and Part Time**

Family Centered Services of Alaska has rewarding and challenging opportunities working with children. Youth Counselors provide a therapeutic family environment, for up to 5 children with mental health issues, while working in our Foster Homes in Wasilla, Alaska. If you are seeking a challenging position that can absolutely make a positive change in a kid's life, we want to talk with you! These are entry level positions that require an Associate's Degree or equivalent work and/or educational experience in a human service field. Two years of experience working with children who experience a mental health disability is strongly preferred. Full Time and Part Time opportunities are available but require a flexible schedule including evenings, weekends, & overnights as well as the use of your personal vehicle. FCSEA offers excellent starting pay. FCSEA is an EEO employer. Submit a resume to:

FCSA  
Attn: HR  
1825 Manka Rd.  
Fairbanks, AK 99709  
Fax: 907-451-8945  
ihovde@familycenteredservices.com

**NOW HIRING**

**Outside Sales Representative**

Come grow with the Mat-Su Valley Frontiersman! We are actively recruiting for an outside sales person to contact local businesses about print and online advertising opportunities.

The successful applicant will be a highly motivated self-starter who is goal oriented and has good time management skills. You also must have a professional demeanor and appearance, as well as good computer skills.

You'll be rewarded with guaranteed commissions to get you started, an auto allowance, and an excellent benefits package including health insurance, 401K and more.

This position requires dependable transportation, a valid Alaska driver's license, good DMV record and proof of auto insurance.

**TO APPLY:**  
Learn more today by sending a resume and cover letter to:

**Cheryl Metiva**  
Marketing and Sales Director  
Mat-Su Valley Frontiersman  
adirector@frontiersman.com

or drop them off at  
5751 E. Mayflower Court  
off the Palmer-Wasilla Hwy.

The Mat Su Valley Frontiersman is an Equal Opportunity Employer

DOT&PF 907-289-0550  
**www.KnikGooseBayRoad.com**

It is the policy of the Alaska Department of Transportation & Public Facilities (DOT&PF) that no person shall be excluded from participation in, or be denied benefits of any and all programs or activities we provide based on race, religion, color, gender, age, marital status, ability, or national origin, regardless of the funding source including Federal Transit Administration, Federal Aviation Administration, Federal Highway Administration and State of Alaska Funds. The DOT&PF complies with Title II of the Americans with Disabilities Act of 1990. Individuals with a hearing impairment can contact DOT&PF at our Telephone Device for the Deaf (TDD) at (907) 269-0473.

April 9, 15, & 16, 2014

and that such newspaper was  
regularly distributed to its  
subscribers during all of said  
period. That the full amount of  
the fee charged for the foregoing  
publication is not in excess of  
the rate charged private individuals.

Project Purpose:

The purpose of the Knik-Goose Bay Road Reconstruction project is to improve mobility for people and freight and to enhance access management along KGB Road between Centaur Avenue and Vine Road. The project's goal is to correct problems created by unconstrained access, thereby improving safety and reducing congestion for roadway users.

Project Description:

The project consists of widening KGB Road to a divided facility from Centaur to Vine (6.44 miles). Scope includes separated bicycle/pedestrian facilities, appropriate safety engineering strategies, and reducing/combining access points to most effectively reduce crashes. Project may be constructed in multiple phases to fit funding.

Project Details:

- o Posted Speed: 35-55 MPH
- o Average Daily Traffic (ADT):
  - 2010 – Varies between 5,500 & 18,200
  - 2039 – Varies between 29,500 & 52,500
- o Right-of-Way: Varies to 200'
- o Traffic Safety Corridor Designation
  - Palmer Wasilla Hwy to Pt. Mackenzie Rd
  - 33 fatal crashes (36 Deaths), 1977-2009

Growth

Traffic on KGB Road is being delayed now. This project must accommodate traffic in its design year, 2039. The traffic model developed for the Parks Highway Alternative Corridor, aka "Wasilla Bypass," now in early planning studies, was recently adopted by the Mat-Su Borough for use in developing their Long Range Transportation Plan. The model is the best predictive tool currently available to area projects, and it forecasts traffic on KGB Road to more than double current volumes by 2039.

OPEN HOUSE HANDOUT

**APRIL 16, 2014**

**2014**  
 Complete  
 Environmental Document

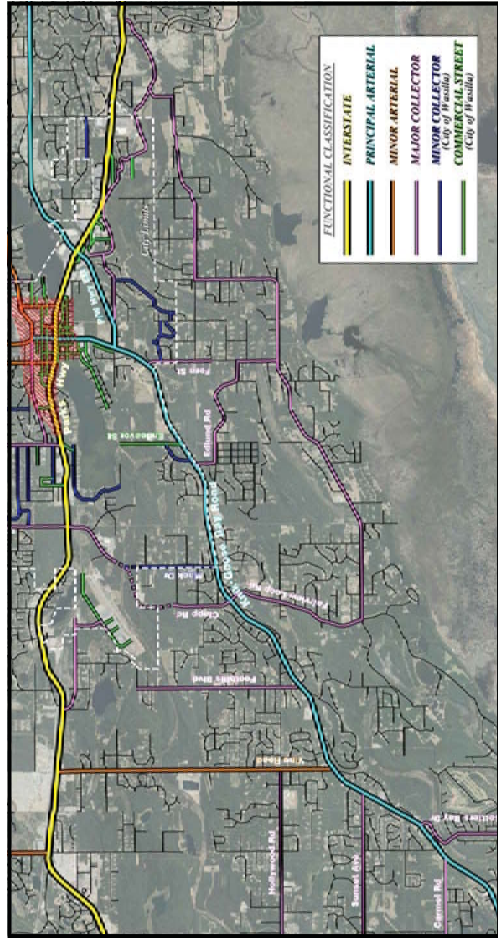

**2015 & 2016**  
 Design & Right-of-Way

**2017-2019**  
 Construction

### Unique Regional Role

KGB Road is the only existing arterial providing access from Wasilla and the central MatSu to Point Mackenzie, the developing lands south of the Parks Highway, and the proposed Knik Arm Crossing.

### Typical Section

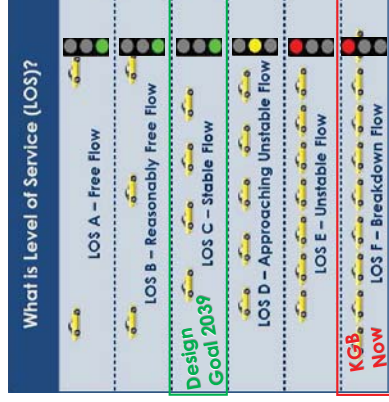

Current volumes necessitate a 4-lane facility today. With current growth rates, a 4-lane KGB Road is projected to reach capacity by 2028 and fail as early as 2034, ultimately requiring six lanes. DOT&PF is proposing to construct four lanes and delay construction of six, giving local and area roadway expansion/connectivity plans time to take shape and their effects on KGB Road analyzed.

### Roundabout Study

The City of Wasilla asked DOT&PF to consider an alternative to construct a 4-lane divided roadway with roundabouts at all KGB intersections within city limits, with the goal of improving safety by reducing speeds. Analysis concludes this configuration cannot carry forecast volumes and would result in:

- ♦ 25 minute increase in commute time during the design-year PM peak hours
- ♦ 15 minute increase in commute time during the design-year AM peak hours
- ♦ Wide fluctuations in travel speed in all off-peak hours
- ♦ Long traffic queues during peak hours
- ♦ Level-of-Service F near the project's midlife

Without changes in growth trends, the study recommends ultimate build-out to a six-lane divided roadway and keeping current intersection control until operational conditions warrant signalization.

### Level-of-Service (LOS)

Level-of-Service is a delay-based roadway and intersection operation rating. It uses "letter grades" ranging from A (best) to F (worst).

For areas outside central business districts (downtown areas), American Association of State Highway and Transportation Officials (AASHTO) encourages roadway designs target design-year LOS C for reconstruction projects: "For example, in heavily developed sections of metropolitan areas, conditions may make the use of LOS D appropriate for freeways and arterials; however, this level should be used sparingly and at least LOS C should be sought." LOS C is the design-year target for this project.

### Alternatives Analyzed

DOT&PF has analyzed the following alternatives for their ability to satisfy project purpose and need:

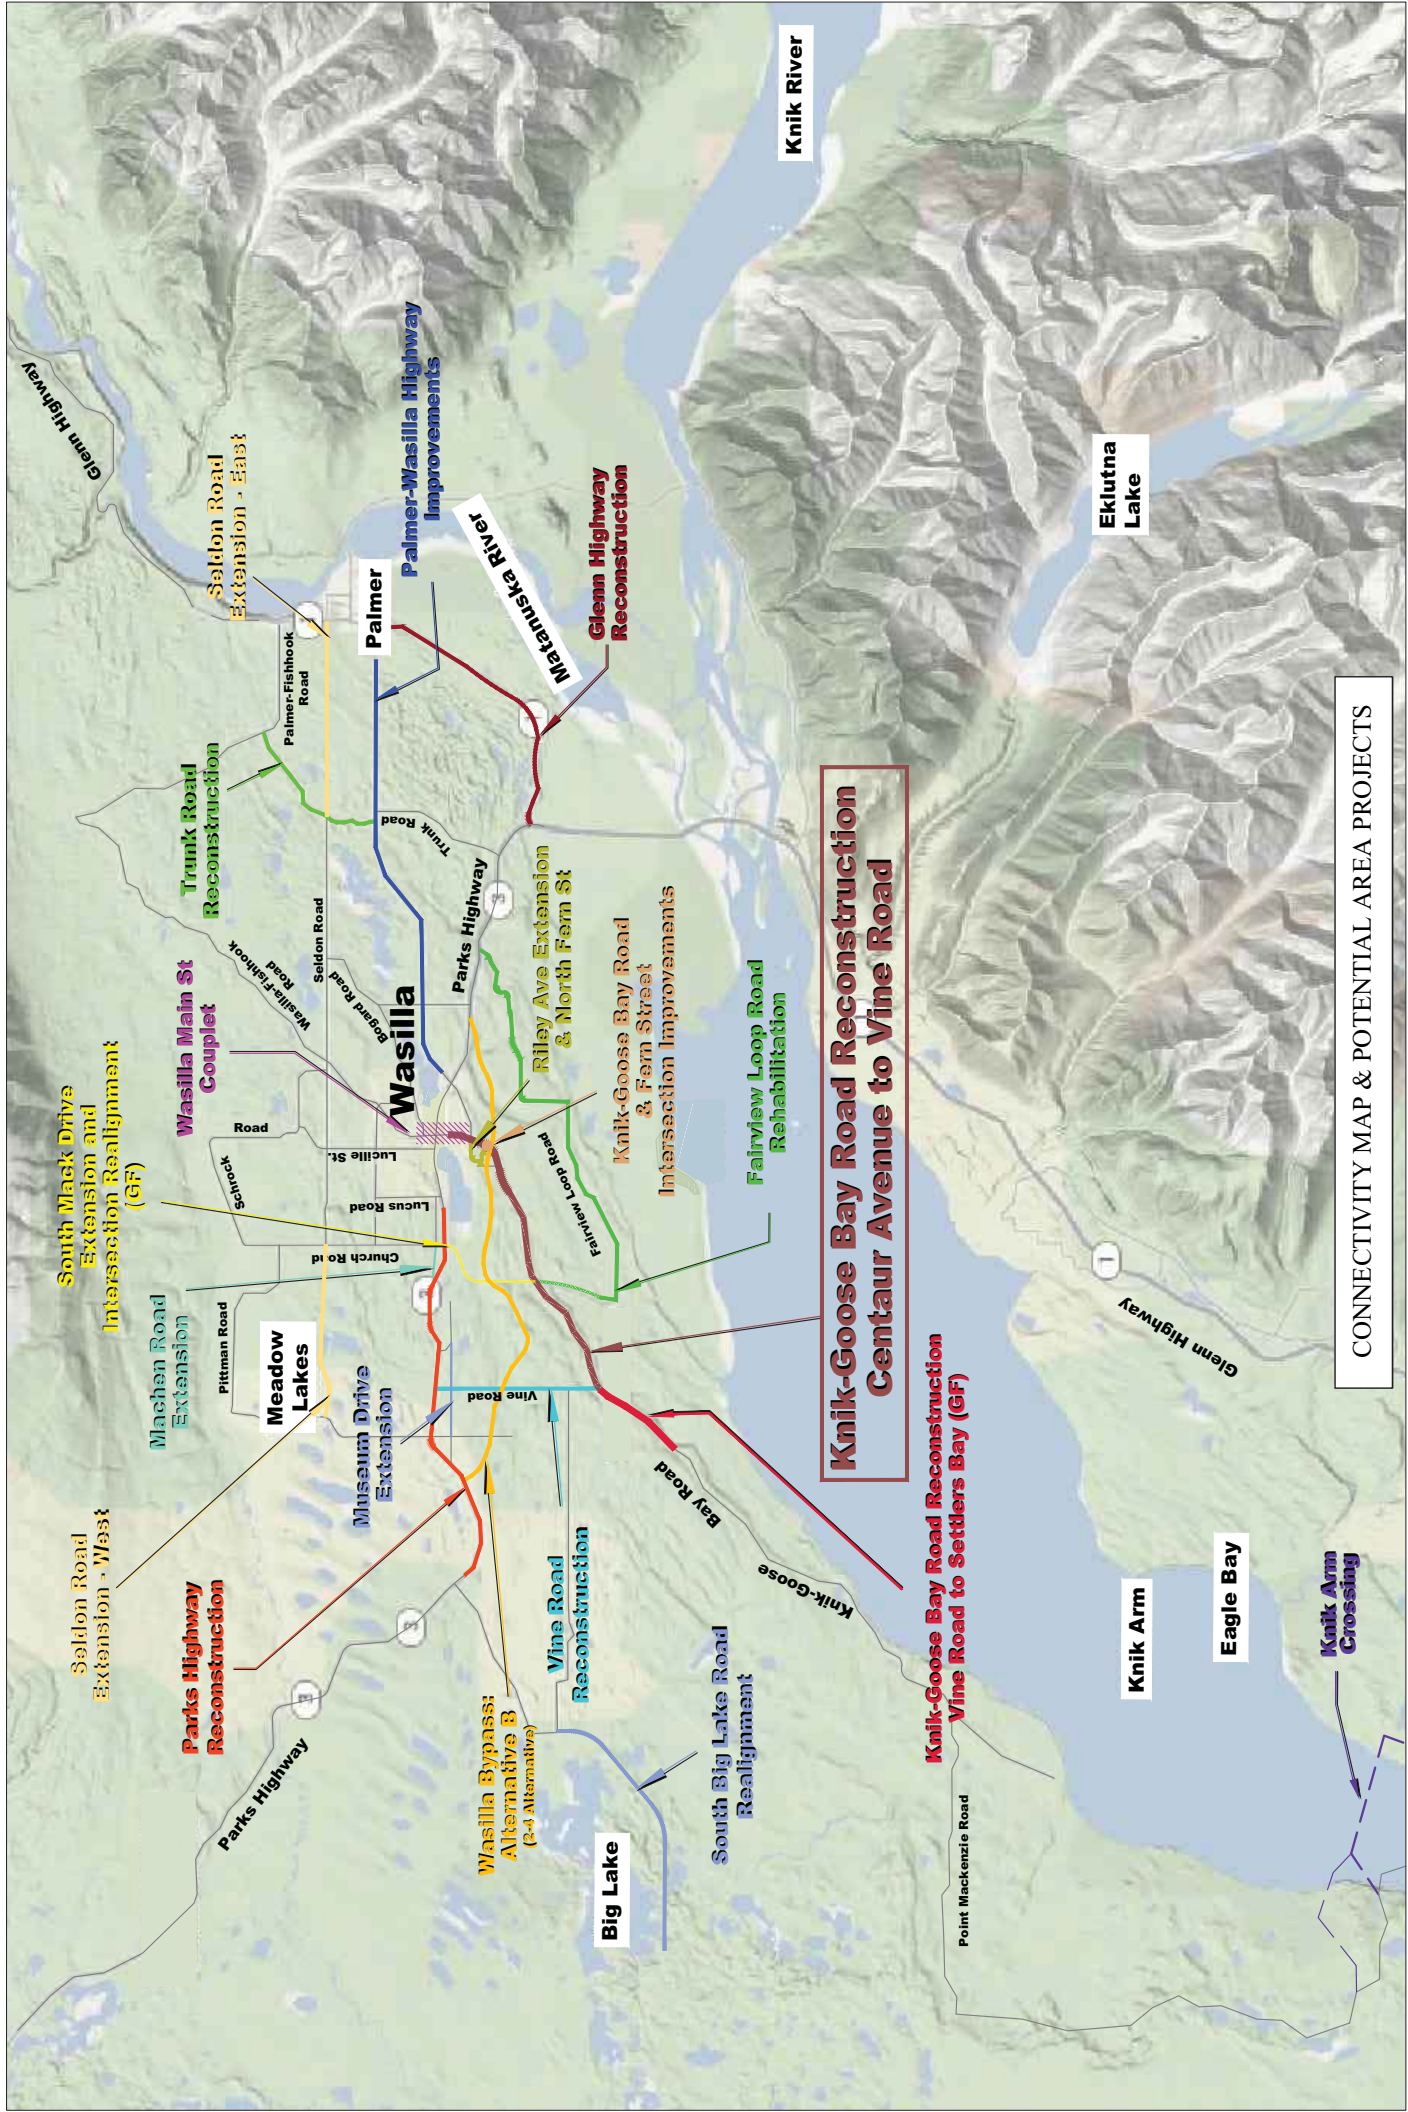

- ♦ 2-lane existing (No-Build)
- ♦ 4-lane with a Two-Way Center Left Turn Lane (5-Lane section)
- ♦ 4-Lane, median-divided roadway (existing intersection control unchanged)
- ♦ 4-Lane, median-divided roadway (roundabouts at intersections inside Wasilla limits)
- ♦ 6-Lane/4-Lane, median-divided roadway (existing intersection control unchanged)

Lane & Intersection Configuration	Design Year LOS C/D+ or Better	Expanses Opposing Traffic	Provides Safe Access	Vehicle Refuge	Pedestrian & Bicycle Refuge	Median Snow Storage

Name & Contact Info	Public Comments
<p>Mike &amp; Sandy Smith Wasilla Concrete 907 376-5331 P O Box 870183 Wasilla, AK 99687 SmithBro@mtaonline.net</p>	<p>We attended your April 16, 2014 Open House to see what impact the planned changes would affect our commercial driveway at Mile 1 KGB. (Just before Fern St. Intersection) We learned of plans of a divided highway in front of our driveway forcing us to U-Turn at Fern Street and go north 400'/500' to make a right turn into our driveway. This will be impossible for our commercial trucks to make this turn without causing delays at Fern Street intersection while the driver's start the U-turn, have to back up to change the truck angle to complete the U-Turn. This will create a major safety hazard. Our trucks vary in lengths of 45' to 70' long. As is it right now, with a sort of 5" lane, it works fine with minor delays while we wait for an opening. The other alternative would be a frontage road south of our driveway to Fern Street. Thanks for your time, Mike Smith, 376-5331.</p>
<p>Robert Jaujou Box 877311 Wasilla, AK 99687 jaujou@attglobal.net</p>	<p>I am most concerned with the intersection of Kathryn &amp; KGB Road. There needs to be a right turn lane from KGB onto Kathryn going south.  The problem is that people turning right on to Kathryn create a situation causing the people behind them to want to pass at the crest of the hill without being able to see oncoming traffic.</p>
<p>Barbara A. Schumacher 6520 West Compass Drive #21 Settler's Bay Village P O Box 873505 Wasilla, AK 99687 <a href="mailto:basonbeach@mtaonline.net">basonbeach@mtaonline.net</a></p>	<p>I most sincerely hope you do a comprehensive study at Settler's Bay Village Condominiums (West Compass Drive).  A 4 lane highway on this section of KGB would be disastrous. The end units already compromised at 2 XXXX, would be further so, by not only noise but vehicles going over the speed limit &amp; possibly slamming into the end units nearest the roadway. I doubt that you are including any sort of buffer or retaining walls. There are also the sub-stations &amp; utility poles to consider.</p>
<p>Jim Hoff Anonymous</p>	<p>Please extend this project to Settler's Bay Drive. That last bit is very dangerous &amp; accident-prone. Build all 6 lanes, controlled access and the frontage roads to provide local access. All as one project. Do it right the first time.</p>
<p>Dennis Leonard 355-3480 <a href="mailto:rleonard@mtaonline.net">rleonard@mtaonline.net</a></p>	<p>With no traffic light controls after Vine to Settler's Bay there will be major accidents. It is currently very difficult to get out of Commodore or Sunset onto KGB making a left hand turn onto KGB &amp; there are only two lanes. With this expansion to 4 lanes of traffic, it will be impossible without taking considerable chances.</p>
<p>Anonymous</p>	<p>Hope you don't use the contractor that was used from Palmer-Wasilla Down KGB last year. All they know is to stop traffic &amp; not work around rush hour on KGB!</p>
<p>Mike &amp; Tristan Frizzelle 841-2951</p>	<p>Please make sure the lanes are marked better to they don't wear off during the winter season. Contact them at 841-2951. Thank you.</p>
<p>Anonymous</p>	<p>We need access to KGB from West Binnacle at the light at Vine &amp; KGB</p>
<p>Klinton Hogan 7966 W Carmel Road Wasilla, AK 99623 <a href="mailto:k.hoganfamily@yahoo.com">k.hoganfamily@yahoo.com</a></p>	<ul style="list-style-type: none"> <li>Remove traffic signal at Fern &amp; Knick Goose Bay intersection to increase traffic flow</li> <li>Plan intersection with turn lanes that are long enough to merge onto safely at 55mph with traffic. To make traffic stay on speed.</li> <li>Work with Riley on extension &amp; North Fern Street as a bypass for Wasilla (New Parks Hwy)</li> <li>Use Vine &amp; Mack Road as routes to bypass traffic off of KGB road and onto Parks where it should be</li> </ul>
<p>Anonymous</p>	<p>There are more residents between Fairview Loop &amp; Vine Street than any other places near KGB than any other section. The majority of accidents occurred between Mack &amp; Vine. Because of the heavy school bus traffic in that area there needs to be a traffic light on Clapp Road &amp; KGB.</p>
<p>Anonymous</p>	<p>I feel that the roundabout would be a poor idea for KGB &amp; Riley. I see that your brochure is saying it does not appear to be a good idea, either. If they do decide to put one in, I hope the public will be notified beforehand for comments. Thank you.</p>
<p>Earl Lackey 3900 S English Bay Av Wasilla, AK 99654 <a href="mailto:elackey@mtaonline.net">elackey@mtaonline.net</a></p>	<p>When will a connection between Eddlund &amp; Fern be completed? This needs to be in place before the works begins on Fairview Loop.</p>

Anonymous	I believe that a center turn lane is a better option at this time with divided road coming when the upgrade to six lanes is due. I have concerns about the private driveways being connected. I did not see any frontage road or connections.
Dawn Webster 5271 S. Tennyson Court Wasilla, AK 99623 websta@gci.net	Vine to Settler's Bay Project: Please consider extending the KGB project beyond the new school being constructed near Knicknoc (?) Mud Shack Road, about milepost 10 or 11.
Anonymous	I like the divided highway plans. The 6 lanes to Fairview is a good idea. Please take into consideration the proposed Riley Street extension to Mack Road and the couplet for KGB proposed.
Anonymous	1) I'm disappointed that the design includes NO roundabouts at all. I have a hard time believing that there are no appropriate locations for a roundabout on this project. 2) Please design the intersection of KGB @ the Palmer-Wasilla Hwy Extension / Riley Road so that it won't need to be redone when the Wasilla Main Street couplet is built.
Paul Gamer Olympic Investments, LLC P O Box 873088 Wasilla, AK 99687 Avanti172@gmail.com	KGB: 0-6, 8 Reconstruct Mile 3- we have .18 acres (5 acres/13 acres) North side of KGB- connected E of Stans Appliance. We have commercial interests & need left turn access. Rather than put an intersection in the middle of Stans Appliance, move intersection east to middle of property lines for shared access. (Figure drawn on original comment sheet) *Commercial areas should be 5 lanes or Frontage road.
Kelley Griffin 8796 W Sunset Avenue Wasilla, AK 99623 kelleve@mtaonline.net	My concern is that there is no accommodation in the design for the current and historical use of the primitive surface trail by dog mushers and ATV users. This trail is on the north side of KGB and runs from Sunset to Pt Mac Road & beyond for the dog mushers, from Sunset to past Knick Lake is the Sled Dog Recreation District and trails are of utmost importance to our community. A paved pedestrian pathway is of no use to dogteams pulling ATVs! Many of these dogteams are preparing for the Iditarod.
Anonymous	This KGB project has been lingering way to long – the quicker the better. There has been way too many deaths on this present highway!! Let's get it done! Round-about would not be good for the new proposed 4 lane highway.
Anonymous	This should extend past Carmel Road which is a future East/West Arterial You need to accommodate near future growth in the SW side of Wasilla: *Undivided 5 lane past Fairview Loop/ Clapp Road *Plan for crossing of Parks Hwy by-pass *Slow traffic / more stop lights to provide safe access from side roads, eg. Endeavor & Edlund *No Roundabouts – why disrupt flow of ALL traffic.
Beth Fread 1981 S Jensen Road Palmer, AK 99645 Beth@Bethsvalleyviews.com	1. Go wider on ROW; acquire it now; use frontage 6 lanes reserve or become another Glenn Highway from MSB to ANC 2. MI 6 should be developed instead of Vine to connect to Hollywood to use existing East/West Arterial. Put Light at Vine & Hollywood
Anonymous	1)Need to widen KGB out to Pt McKenzie 2)Need to plan for road – 4 lane min from Port to Parks Hwy, start on right away , now.
Anonymous	KGB Vine to Settlers Bay – Road & Binnacle (Settler's Bay) does NOT connect to Binnacle at Birch Harbor—the connecting roads are, Compass (at Condominiums) to Outtrigger (Settler's Bay) to Binnacle (Birch Harbor)
Nancy Amundsen	Please put in the 6 lanes with frontage roads to make it safe. Also no roundabouts -too complicated! We live adjacent to KGB and it's a very challenging road, as it is.
Beth Fread (2 <sup>nd</sup> ) Bill Dau bdau@mtaonline.net	Vine past Settler's Bay NEEDS frontage roads I am concerned about the seemingly lack of coordination on road projects and added expenses because of it. In particular, the lack of a legitimate Parks Highway.By-Pass of Wasilla and the unneeded over build on some projects, ie: KGB & Park Hwy north of Wasilla, if such a project was in the plans.

	<p>Please put me on the email updates on the following projects: KGB, Fairview Loop &amp; Parks Hwy bypass or alternate route. My email address is <a href="mailto:bdau@mtaonline.net">bdau@mtaonline.net</a></p>
Anonymous	<p>Thank you for this great presentation. Seeing the goal ahead of time is a great resource for patience. In the end, it will be better, just the growing pains of construction. Can't wait for the finished product! Good Luck</p>
<p>Anonymous                  Anthony Bainech                  2660 W. Storebluff Drive                  Wasilla, AK 99654                  357-8838</p>	<p>Please include emergency phone boxes in case of bear/moose attacks, sexual assaults, and vehicle/motorcycle/bicycle injuries or death.                  I don't appreciate the lack of "Green Beit" sound suppression. Yet promoting a 3-fold increase in traffic.</p>
<p>Robert J. Miller                  3821 W Carl Drive                  Wasilla, AK 99654  <a href="mailto:rjimink@aim.com">rjimink@aim.com</a></p>	<p>My concern is with the proposed installation of roundabouts along KGB within city limits. I have heard that the speed limit would be brought down to 35 mph. With the speed limit on Fairview Loop being 50 mph. I'm sure that people would bypass KGB and take Fairview Loop on their commute. I don't think a higher traffic flow as taken into consideration with the Fairview Loop Rehab Project. Plus with so many people living so close to the road, I would worry about more accidents. More people=vehicle accidents.</p>
<p>Anonymous                  Lori Wilkins                  P O Box 873598                  Wasilla, AK 99687  <a href="mailto:loriw@mtaonline.net">loriw@mtaonline.net</a></p>	<p>Sooner the better. Too many tragic accidents. I personally knew someone who died. Just get it done!                  Access to Smith Ballfield is very dangerous. There is only one access and it is impossible to make a left turn into the fields from about 5-6:30PM. Most players have to be there by 5:30.                  With the proposed plan for Knik, access would be severely limited and even more dangerous. Someone needing to turn into the field would have to make a U-turn a quarter mile down the road.                  Until an entrance from Endeavor, I can see even more problems and accidents. A break in the divider may be a temporary fix, but won't solve the original problem.</p>
<p>Todd Stafford                  P O Box 874595                  Wasilla, AK 99687  <a href="mailto:mtrakstafford@gmail.com">mtrakstafford@gmail.com</a></p>	<p>I live at 2950 W. Stone Ridge Circle, off of Mack Road. I'm concerned about how much of my 40,000 sq a lot will need to be acquired for right-away. I'm also concerned about the noise levels.</p>
Anonymous	<p>I have a problem with any type of day time construction. I live a Mile 12.8 and I want to be able to get to work unobstructed. Because the traffic on Knik gets bottled up at the Iditarod Headquarters @7:00AM, I think that ALL construction should be done ONLY at night, midnight to 4:00 or 5:00am would be best. If you have to work 8 hours 10:00pm-6:00am for the longest. Another possibility is to shorten the amount of road you are tying up. A mile is definitely better than 2 or 3, because then the construction isn't going so far, or work on one side of the road at a time &amp; keep the traffic moving. Even if the traffic is moving slow on one lane at least it is moving. Also, flaggers need to use the same time limits that traffic lights do. A flagger holding up traffic for 2 minutes is much more acceptable than one who is holding up traffic for 10 or 15 minutes.</p>

## C6. Summary of Public Comments & Responses

Date	Type	Name & Contact	Public Comments	Responses
6/4/14	Email	<p>Mike Frizzell  <a href="mailto:frbshack4@hotmail.com">frbshack4@hotmail.com</a></p>	<p>Phone call received from Mike Frizzell to Gerry Welsh.</p>	<p>Mr. Frizzell:                      Thanks for your interest in this very important project. As we discussed on Monday, the project is still in its preliminary design and environmental documentation phase. While the project does propose to consolidate and realign skewed intersections like those at Foothills Blvd and Country Lane, the precise right-of-way requirements can't be described until the project moves into its design phase, hopefully later this year.                      I have added you to our email list so you will be updated with news and information about project progress electronically and through the mail. I've attached a copy of our latest newsletter, which you should have received in advance of our April open house at the Wasilla Senior Center. There will be additional outreach as the project progresses. Please visit the project website at <a href="http://www.knikgoosebaveroad.com">www.knikgoosebaveroad.com</a> for more information about the project, including a description of how real property acquisitions, when necessary, are handled for projects of this type <a href="#">here</a>.                      Feel free to comment on the project at the website or you can contact me directly.                      Best regards,                      Gerry Welsh                      269-0550</p>
4/21/2014	Email	<p>Craig Thorn                      775 East Parks Highway                      Wasilla, AK 99654  <a href="mailto:cthorn@fnbalaska.com">cthorn@fnbalaska.com</a>                      (907) 352-5930 (office)                      (907) 315-3712 (cell)</p>	<p>Dear Sirs:                      I am an Elder at Wasilla Christian Church (WCC) located at mile 2.3 KGB Road aka 2201 S. KGB Rd. I attended the public meeting held at the Wasilla Sr. Center on April 16<sup>th</sup>. I would like to add the following comments for your consideration:                      I understand the plan is to allow continued access to businesses (and churches and others) directly onto KGB Road. Most of this access will be Right-in/Right out - I understand this needing to be the case with a divided 4-lane highway. However, I would recommend a stop light at Edlund which will help "break-up" traffic flow to allow right in and right out. Also, please consider as part of your realignment of the Endeavor intersection the acquisition a small portion of the Knikatnu property (1/2 acre +/-) to enable a reconfiguration of the Endeavor intersection. This improved intersection would then allow access to both the Knikatnu and WCC properties. Perhaps we could then reconfigure the eastern church driveways and re-route traffic to this new Endeavor intersection. ??? I'm sure this would be a much safer alternative. Also, our westernmost driveway currently serves both the church and our neighbor to</p>	

		<p>the West (2301 S. KGB Rd). I'm uncertain as to the actual legal access to 2301, and would ask that consideration be given to improving this driveway to enhance safety and access to both parcels.</p> <p>FYI - yesterday, for Easter services, we had over 800 people attend church. In addition, it is not unusual to have folks attending various church activities virtually 7 days per week with the attendant traffic load. Along with the AK DOT&amp;PF, we are looking for the most effective solution to provide safe ingress and egress from our property and our contiguous neighbor properties.</p> <p>Please feel free to call with any questions, or I am happy to meet personally to discuss further.</p> <p>Sincerely, Craig A. Thorn</p>	
<p>4/21/2014</p>	<p>Chuck Bickley 7951 W Wanda K Circle Wasilla, AK 99623 <a href="mailto:sassy1@mtaonline.net">sassy1@mtaonline.net</a></p>	<p>Hi: My wife and I attended your April 16, 2014 open house regarding KGB Road Reconstruction and thought it was well attended and the presentations were informative.</p> <p>We live just past Carmel, off of KGB at Inlet Vista, and attend Wasilla Christian Church (WCC) at mile 2.3 KGB. The addition of more lanes will certainly be a good thing for the area and I believe the hardest design feature to get used too is the right off, right on feature. I understand this feature is needed to help speed traffic along the route but it does cause an inconvenience and may lead to more accidents in some instances. I foresee a possible problem for people attending WCC after Sunday services and at other instances where we have a large gathering. If we have 150 to 200 cars trying to leave, within a half hour after a service, and a large number desire to go out KGB I can foresee the left turn lane for the U-turn getting clogged with vehicles. This can lead to a pile up of cars trying to enter KGB and possible ensuing accidents with impatient drivers. There is probably no good answer except trying to educate drivers to the new traffic flow.</p> <p>I can also foresee a traffic problem at ABC rentals when a lowboy with a heavy load, coming from Wasilla, tries to cross into their yard. I may have missed something on the drawings that answers that question.</p> <p>I would appreciate a plan view of the Edlund Road to past the Iditarod entrance, if possible, to better review the WCC situation. I would like a little more time to study this area in depth, in particular the revised intersection with S. Endeavor St.</p> <p>Again, I appreciated the chance to review the presentations and would like the requested plan view, if possible. Thank you for your consideration of my comments.</p>	<p>Mr. Bickley: Thank you for your interest in this very important project and for taking time out to attend our meeting.</p> <p>The project team actually met with representatives of Wasilla Christian Church a little over a year ago to discuss access and other issues. You are correct that driver awareness is key to making the very important dividing median work for those entering the road from any property during a peak event. Fortunately the location of Wasilla Christian is such that sight distances are good for departing drivers' gauging availability of storage to the U-turn. As was discussed with Pastor Munday, Mr. Friedhoff and Mr. Thorn, the safety benefits of the median stem from not only the separation of opposing direction traffic, thus virtually eliminating head-on collisions, but from the separation of decisions required of drivers of entering vehicles as well, handling the left gaps separately from the right. We understand the Church is anticipating growth and expansion and have encouraged their continued attention to the project. We discussed several of their ideas including possible modifications to their driveway and an alternative alignment of Endeavor; however, terrain across from Endeavor is very restrictive, and displacement of homeowners or taking of property for realigning Endeavor to access the church is not permitted by project funding. The only modification currently proposed to Endeavor is to eliminate the skew of the intersection with KGB. Currently the project is in its preliminary design and environmental phase. As such, concepts are preliminary and subject to change; however, we present the best estimate of what we believe the footprint and alignment will look like so we can initiate these conversations in advance of final design, which has not yet begun.</p> <p>KGB Road, as the only arterial route providing access to areas southwest of Wasilla and the developing lands at Point Mackenzie, must provide mobility to freight and commerce as well as to access to local and more distant residents who depend upon the route for their commute. This project strives to balance the safety of KGB's users with the demands of regional economic growth. The terrible crash problem on KGB</p>

		Sincerely, Chuck Bickley	<p>can be attributed in large part to the very rapid growth of traffic volumes on KGB Road, which is currently over capacity. This project must accommodate traffic forecast out to 2039, and that growth we anticipate will more than double the current number of vehicles to more than 50,000 per day. In order to handle that level of traffic, the inconvenience and patience sometimes demanded of managed access (like the right-turn followed by the U-turn necessitated by the median) are a sacrifice we ask of users to ensure the safe movement of people and goods. Large vehicles of the type departing the tool rental business or any business along this arterial will be able to negotiate intersection U-turns. Designers work very closely with businesses, churches, and the agencies operating emergency and transit vehicles to ensure they fully understand the effects of newly constructed improvements, why they are necessary, and how they are intended function. We also seek and welcome input and ideas.</p> <p>This is a link to the <a href="#">document page</a> of the project website. The concept itself can be viewed <a href="#">here</a> (Endeavor and the Church appear on page 3).</p> <p>If you have any trouble viewing these documents or if have additional questions, please let me know.</p> <p>Thank you,</p> <p>Gerry Welsh, P.E. Project Manager (907)269-0550 <a href="#">Central Region Projects</a></p>

Follow up included an email on 5/12/2014 with the project website for additional information or project team contact information as needed.</p>
4/16/2014	Email	CJ Allison PO Box 879444 Wasilla, AK 99687 (907) 830-3075	<p>Hello,</p> <p>I just posted a lengthy comment on the KGB project site, but there is no feature that informed me of whether the comment was successfully received, so I have also copied it below to be sure. I apologize if this is duplication.</p> <p>Additionally, your website said I should contact you with my email address (<a href="mailto:Cjallison7@gmail.com">Cjallison7@gmail.com</a>) to sign up for email notifications about meetings. I would like to be signed up please.</p> <p>- CJ Allison</p>
4/16/2014	Email	CJ Allison PO Box 879444 Wasilla, AK 99687 (907) 830-3075	<p>I am leaving this comment after discussing the current proposed projects on KGB Rd. with the engineers present at the Wasilla Senior Center on 4/16/2014. I am very encouraged by the current designs of this project. I have been commuting every day on this road from Sunset Ave. to Dimond Blvd in</p>

	<p><a href="mailto:cjallison7@gmail.com">cjallison7@gmail.com</a></p>	<p>Anchorage 5 days a week. I have a minimum commute time of 1 hour and 15 minutes on a good day. The current road enhancements that have already occurred have been a decent response to most immediate traffic hazards. However, a 4 to 6 lane expansion is critical to keep my commute time at a reasonable level, while maintaining safety. I was in a nearly head-on collision on February 19th which resulted in over \$10,000 in damage to my vehicle, and only received my car back after repairs today - APRIL 16th. The cause of the accident was poor road conditions which caused someone coming from Wasilla to lose control of their vehicle. In rush hour traffic, in the snow, near Clapp Rd... I had nowhere to go to avoid being hit. I believe this construction project would help reduce the frequency of accidents like mine, while maintaining a reasonable commute time for those commuting into Wasilla, Palmer and Anchorage. I am pleased to see the information included in the handouts illustrating the request from Wasilla to place roundabouts on KGB, and the analysis of that request. This request is unacceptable to a commuter. Extending an already lengthy commute by 15 to 25 minutes, for those of us employed in livable-wage jobs only currently found in Anchorage, is not a reasonable request. In my opinion - after commuting this road 5 days a week - this would cause MORE road hazards, not less. It would increase driver frustration and fatigue, and ultimately lead to poor choices by drivers and more accidents. The 4 to 6 lane divided expansion is a much safer and more acceptable proposal. Additionally, I am concerned that additional lighting is not being considered in current expansion plans. There are two major segments of KGB in this area that have incredibly poor lighting conditions, especially in bad weather. I will note these on my commute home today and leave an additional comment on their location. These sections have had reflectors placed in recent years - which has helped considerably - but not eliminated the very real safety problem. In broad daylight, in good weather, you would never see these areas as concerning; however, in the dead of winter in heavy snow these areas become complete guess work for a driver trying to determine the true course of the road. Even worse, moose are thick in these areas, and the poor lighting makes it nearly impossible to see them until after they've run out in front of you. I appreciate the opportunity to provide you with feedback as a commuter with practical experience. I am available for further clarification and comment if needed as the project progresses. I believe it is critical that those of us benefiting from this project be involved to reinforce excellent ideas and alert engineers to potential problems before construction begins.</p>	
<p>4/16/14</p>	<p>Mike &amp; Sandy Smith Wasilla Concrete P O Box 870183 Wasilla, AK 99687 (907) 376-5331 <a href="mailto:SmithBro@mtaonline.net">SmithBro@mtaonline.net</a></p>	<p>We attended your April 16, 2014 Open House to see what impact the planned changes would affect our commercial driveway at Mile 1 KGB. (Just before Fern St. Intersection) We learned of plans of a divided highway in front of our driveway forcing us to U-Turn at Fern Street and go north 400'/500' to make a right turn into our driveway. This will be impossible for our commercial trucks to make this turn without causing delays at Fern Street intersection while the driver's start the U-turn, have to back up to change the truck angle to complete the U-Turn. This will create a major safety hazard. Our trucks vary in lengths of 45' to 70' long. As is it right now, with a sort of 5<sup>th</sup> lane, it works fine with minor delays while we wait for an opening. The other alternative would be a frontage road south of our driveway to Fern Street. Thanks for your time, Mike Smith,</p>	

4/16/14	<p>Comment Form</p> <p>Robert Jaujou Box 877311 Wasilla, AK 99687 <a href="mailto:rauou@attglobal.net">rauou@attglobal.net</a></p>	<p>376-5331.</p> <p>I am most concerned with the intersection of Kathryn &amp; KGB Road. There needs to be a right turn lane from KGB onto Kathryn going south.</p> <p>The problem is that people turning right on to Kathryn create a situation causing the people behind them to want to pass at the crest of the hill without being able to see oncoming traffic.</p>	
4/16/14	<p>Comment Form</p> <p>Barbara A. Schumacher 6520 West Compass Drive #21 Settler's Bay Village P O Box 873505 Wasilla, AK 99687 <a href="mailto:basonbeach@mtaonline.net">basonbeach@mtaonline.net</a></p>	<p>I most sincerely hope you do a comprehensive study at Settler's Bay Village Condominiums (West Compass Drive).</p> <p>A 4 lane highway on this section of KGB would be disastrous. The end units already compromised at 2 XXXX, would be further so, by not only noise but vehicles going over the speed limit &amp; possibly slamming into the end units nearest the roadway. I doubt that you are including any sort of buffer or retaining walls. There are also the sub-stations &amp; utility poles to consider.</p>	
4/16/14	<p>Comment Form</p> <p>Jim Hoff</p>	<p>Please extend this project to Settler's Bay Drive. That last bit is very dangerous &amp; accident-prone.</p>	
4/16/14	<p>Comment Form</p> <p>Anonymous</p>	<p>Build all 6 lanes, controlled access and the frontage roads to provide local access. All as one project. Do it right the first time.</p>	
4/16/14	<p>Comment Form</p> <p>Dennis Leonard (907) 355-3480 <a href="mailto:rleonard@mtaonline.net">rleonard@mtaonline.net</a></p>	<p>With no traffic light controls after Vine to Settler's Bay there will be major accidents. It is currently very difficult to get out of Commodore or Sunset onto KGB making a left hand turn onto KGB &amp; there are only two lanes. With this expansion to 4 lanes of traffic, it will be impossible without taking considerable chances.</p>	
	<p>Comment Form</p> <p>Anonymous</p>	<p>Hope you don't use the contractor that was used from Palmer-Wasilla Down KGB last year. All they know is to stop traffic &amp; not work around rush hour on KGB!!</p>

4/16/14	<p>Comment Form</p> <p>Klinton Hogan 7966 W Carmel Road Wasilla, AK 99623 <a href="mailto:k.hoganfamily@yahoo.com">k.hoganfamily@yahoo.com</a></p>	<p>We need access to KGB from West Binnacle at the light at Vine &amp; KGB</p> <ul style="list-style-type: none"> <li>Remove traffic signal at Fern &amp; Knick Goose Bay intersection to increase traffic flow</li> <li>Plan intersection with turn lanes that are long enough to merge onto safely at 55mph with traffic. To make traffic stay on speed.</li> <li>Work with Riley on extension &amp; North Fern Street as a bypass for Wasilla (New Parks Hwy)</li> <li>Use Vine &amp; Mack Road as routes to bypass traffic off of KGB road and onto Parks where it should be</li> </ul>	
4/16/14	<p>Comment Form</p> <p>Anonymous</p>	<p>There are more residents between Fairview Loop &amp; Vine Street than any other places near KGB than any other section. The majority of accidents occurred between Mack &amp; Vine. Because of the heavy school bus traffic in that area</p>	

4/16/14	Comment Form	Anonymous	there needs to be a traffic light on Clapp Road & KGB. I feel that the roundabout would be a poor idea for KGB & Riley. I see that your brochure is saying it does not appear to be a good idea, either. If they do decide to put one in, I hope the public will be notified beforehand for comments. Thank you.
4/16/14	Comment Form	Earl Lackey 3900 S English Bay Av Wasilla, AK 99654 <a href="mailto:elackey@mtaonline.net">elackey@mtaonline.net</a>	When will a connection between Edlund & Fern be completed? This needs to be in place before the works begins on Fairview Loop.
4/16/14	Comment Form	Anonymous	I believe that a center turn lane is a better option at this time with divided road coming when the upgrade to six lanes is due. I have concerns about the private driveways being connected. I did not see any frontage road or connections.
4/16/14	Comment Form	Dawn Webster 5271 S. Tennyson Court Wasilla, AK 99623 <a href="mailto:websta@gci.net">websta@gci.net</a>	Vine to Settler's Bay Project: Please consider extending the KGB project beyond the new school being constructed near Knicknoc (?) Mud Shack Road, about milepost 10 or 11.
4/16/14	Comment Form	Anonymous	I like the divided highway plans. The 6 lanes to Fairview is a good idea. Please take into consideration the proposed Riley Street extension to Mack Road and the couplet for KGB proposed.
4/16/14	Comment Form	Anonymous	1) I'm disappointed that the design includes NO roundabouts at all. I have a hard time believing that there are no appropriate locations for a roundabout on this project. 2) Please design the intersection of KGB @ the Palmer-Wasilla Hwy Extension / Riley Road so that it won't need to be redone when the Wasilla Main Street couplet is built.
4/16/14	Comment Form	Paul Garner Olympic Investments, LLC P O Box 873088 Wasilla, AK 99687 <a href="mailto:Avanti172@gmail.com">Avanti172@gmail.com</a>	KGB: 0-6; 8 Reconstruct Mile 3- we have 18 acres (5 acres/13 acres) North side of KGB- connected E of Stans Appliance. We have commercial interests & need left turn access. Rather than put an intersection in the middle of Stans Appliance, move intersection east to middle of property lines for shared access. (Figure drawn on original comment Form) * Commercial areas should be 5 lanes or Frontage road.
4/16/14	Comment Form	Kelley Griffin 8796 W Sunset Avenue Wasilla, AK 99623 <a href="mailto:kellyg@mtaonline.net">kellyg@mtaonline.net</a>	My concern is that there is no accommodation in the design for the current and historical use of the primitive surface trail by dog mushers and ATV users.  This trail is on the north side of KGB and runs from Sunset to Pt Mac Road & beyond for the dog mushers, from Sunset to past Knick Lake is the Sled Dog Recreation District and trails are of utmost importance to our community. A paved pedestrian pathway is of no use to dogteams pulling ATVs! Many of these dogteams are preparing for the Iditarod.
4/16/14	Comment Form	Anonymous	This KGB project has been lingering way to long – the quicker the better. There has been way too many deaths on this present highway!! Let's get it done!
4/16/14	Comment Form	Anonymous	Round-about would not be good for the new proposed 4 lane highway. This should extend past Carmel Road which is a future East/West Arterial
4/16/14	Comment Form	Anonymous	You need to accommodate near future growth in the SW side of Wasilla:

	Form		<p>* Undivided 5 lane past Fairview Loop/ Clapp Road                  * Plan for crossing of Parks Hwy by-pass                  * Slow traffic / more stop lights to provide safe access from side roads, eg. Endeavor &amp; Edlund                  * No Roundabouts – why disrupt flow of ALL traffic.</p>	
4/16/14	Comment Form	Beth Fread 1981 S Jensen Road Palmer, AK 99645 <a href="mailto:Beth@BethsValleyviews.com">Beth@BethsValleyviews.com</a>	<ol style="list-style-type: none"> <li>1. Go wider on ROW; acquire it now; use frontage 6 lanes reserve or become another Glenn Highway from MSB to ANC</li> <li>2. Mi 6 should be developed instead of Vine to connect to Hollywood to use existing East/West Arterial. Put Light at Vine &amp; Hollywood</li> </ol>	
4/16/14	Comment Form	Anonymous	<ol style="list-style-type: none"> <li>1) Need to widen KGB out to Pt McKenzie</li> <li>2) Need to plan for road – 4 lane min from Port to Parks Hwy, start on right away, now.</li> </ol>	
4/16/14	Comment Form	Anonymous	KGB Vine to Settlers Bay – Road & Binnacle (Settler's Bay) does NOT connect to Binnacle at Birch Harbor – the connecting roads are, Compass (at Condominiums) to Outrigger (Settler's Bay) to Binnacle (Birch Harbor)	
4/16/14	Comment Form	Nancy Amundsen	Please put in the 6 lanes with frontage roads to make it safe. Also no roundabouts – too complicated! We live adjacent to KGB and it's a very challenging road, as it is.	
4/16/14	Comment Form	Beth Fread (2 <sup>nd</sup> )	Vine past Settler's Bay NEEDS frontage roads	
4/16/14	Comment Form	Bill Dau <a href="mailto:bdau@mtaonline.net">bdau@mtaonline.net</a>	I am concerned about the seemingly lack of coordination on road projects and added expenses because of it. In particular, the lack of a legitimate Parks Highway By-Pass of Wasilla and the unneeded over build on some projects, ie: KGB & Park Hwy north of Wasilla, if such a project was in the plans. Please put me on the email updates on the following projects: KGB, Fairview Loop & Parks Hwy bypass or alternate route. My email address is <a href="mailto:bdau@mtaonline.net">bdau@mtaonline.net</a>	
4/16/14	Comment Form	Anonymous	Thank you for this great presentation. Seeing the goal ahead of time is a great resource for patience. In the end, it will be better, just the growing pains of construction. Can't wait for the finished product! Good Luck	
4/16/14	Comment Form	Anonymous	Please include emergency phone boxes in case of bear/moose attacks, sexual assaults, and vehicle/motorcycle/bicycle injuries or death.	
4/16/14	Comment Form	Anthony Bainech (?) 2660 W. Storebluff Drive Wasilla, AK 99654 (907) 357-8838	I don't appreciate the lack of "Green Belt" sound suppression. Yet promoting a 3-fold increase in traffic.	
4/16/14	Comment Form	Robert J. Miller 3821 W Carl Drive Wasilla, AK 99654 <a href="mailto:riminak@aim.com">riminak@aim.com</a>	My concern is with the proposed installation of roundabouts along KGB within city limits. I have heard that the speed limit would be brought down to 35 mph. With the speed limit on Fairview Loop being 50 mph. I'm sure that people would bypass KGB and take Fairview Loop on their commute. I don't think a higher traffic flow as taken into consideration with the Fairview Loop Rehab Project. Plus with so many people living so close to the road, I would worry about more accidents. More people=vehicle accidents.	
4/16/14	Comment Form	Anonymous	Sooner the better. Too many tragic accidents. I personally knew someone who	

4/16/14	Form Comment Form	Lori Wilkins P O Box 873598 Wasilla, AK 99687 <a href="mailto:loriw@mtaonline.net">loriw@mtaonline.net</a>	died. Just get it done! Access to Smith Ballfield is very dangerous. There is only one access and it is impossible to make a left turn into the fields from about 5-6:30PM. Most players have to be there by 5:30. With the proposed plan for Knik, access would be severely limited and even more dangerous. Someone needing to turn into the field would have to make a U-turn a quarter mile down the road. Until an entrance from Endeavor, I can see even more problems and accidents. A break in the divider may be a temporary fix, but won't solve the original problem.	
4/16/14	Comment Form	Todd Stafford P O Box 874595 Wasilla, AK 99687 <a href="mailto:mrakstafford@gmail.com">mrakstafford@gmail.com</a>	I live at 2950 W. Stone Ridge Circle, off of Mack Road. I'm concerned about how much of my 40,000 sq a lot will need to be acquired for right-away. I'm also concerned about the noise levels.	
4/16/14	Comment Form	Anonymous	I have a problem with any type of day time construction. I live a Mile 12.8 and I want to be able to get to work unobstructed. Because the traffic on Knik gets bottled up at the Iditarod Headquarters @7:00AM, I think that ALL construction should be done ONLY at night, midnight to 4:00 or 5:00am would be best. If you have to work 8 hours 10:00pm-6:00am for the longest. Another possibility is to shorten the amount of road you are tying up. A mile is definitely better than 2 or 3, because then the construction isn't going so far, or work on one side of the road at a time & keep the traffic moving. Even if the traffic is moving slow on one lane at least it is moving. Also, flaggers need to use the same time limits that traffic lights do. A flagger holding up traffic for 2 minutes is much more acceptable than one who is holding up traffic for 10 or 15 minutes. I am opposed to the roundabouts and on board with the current plan that DOT suggested. I think roundabouts will slow traffic down and cause more accidents.

<p>8/14/2013</p>	<p>Phone Call</p> <p>Jim White 3665 S. Shady Lane Wasilla, AK 99623 (719) 330-5383 <a href="mailto:prosafety@gmx.com">prosafety@gmx.com</a></p>	<p>Phone call from local resident regarding surveyor activity to Gerald Welsh (DOT). A phone call was returned and the accompanying written response was sent via e-mail on 8/14/2013.</p>	<p>Mr. White:</p> <p>I've attached a graphic showing a bit more information than the graphics on the project website. Specifically, you'll see solid green and red lines labeled preliminary fill and cut. As I explained, these are based on a concept level terrain survey and this particular conceptual alignment. At your property, Lot 82, you can see the limits of fill are coincident with, or on top of, the existing right-of-way for this preliminary alignment. This preliminary depiction is aimed at identifying worst-case impacts of this particular alignment. These early stage alignments can only be refined after environmental clearance is granted by the funding agency (Federal Highway Administration). When funding is available for those refinements, not only does the design team have information regarding the various actual locations of property lines (currently these are based on tax maps, which are not survey level accurate), utilities and geographic features, we have information that enables us to fine tune the alignment of possible improvements. It is our goal to eliminate to the extent possible impacts to utilities, to businesses, to the environment, and to private property owners like yourself, but it would be misleading not to engage those who</p>

				<p>are possibly affected by the project early in development to let them know of the possibility. You will note the solid green line at lot 84 is shown only slightly closer to KGB Road than that same line on your lot. The red line on your property is placed to allow for room for a nominal amount of room for construction and, if necessary, a worst-case temporary or permanent easement or right-of-way requirement. It really is too early in this process to be more specific than that, but we will get there over time. And you will be involved and your input sought.</p> <p>Your name and address do appear in our mailing list, but it is possible mailings have not been delivered. To verify again, you are at:</p> <p>3665 S. Shady Lane Wasilla, AK 99623</p> <p>We've added your email to the mailing list also, so you should receive our mailings for this project by both methods.</p> <p>I have asked our surveyors to redouble their efforts to notifying property owners when they need to be on or near private property when collecting the data we need to advance the best project necessary. I apologize for any oversights in this area.</p> <p>If you have questions or comments, please don't hesitate to contact me via phone or email. As I said, we are performing analysis on other alternatives now. When we are set to bring new information to the public, we will do so as soon as possible, and you will be notified.</p> <p>Thanks for your interest in this project.</p>
8/8/2013	Email Fred Rostorfer Wasilla, AK (907) 373-6480 akgriz@mtaonline.net	Mr. Campbell,  I attended the Transportation Fair in Wasilla last night (7 Aug 2013) and wanted to comment on the Knik-Goosebay Road design and timeframe. However, I can't find a link under Central Projects on the DOT website. Could you provide the link please?  Just in case there is no link, I will make some comments on the Knik-Goosebay (KGB) Road project.  1. I love DOT's design plan for Knik-Goosebay Road WITHOUT the roundabouts! The divided highway is the way to go.  2. The timeframe for completion is unacceptable. One of the most dangerous roads in the Valley which is also experiencing dynamic population increases and commercial development. Needs priority upgrade.  3. In case KGB construction can't be done until 2019, how about some temporary measures like adding some left and right turn lanes at all the	<p>Mr. Rostorfer,  The link is <a href="http://www.knikgoosebayroad.com/">http://www.knikgoosebayroad.com/</a>. We will add it to our Central Region project site.  I appreciate your comments, and am forwarding a copy of this email to the project manager for his consideration and inclusion in the project record. We are striving to deliver the project as soon as possible, while allowing for dialog between the users, property owners, and the local governments in the process.</p> <p>Thanks for taking the time to be involved. Rob Campbell</p>	<p>Gerry Welsh, PE  Response from Robert Campbell (DOT) on August 8, 2013 at 10:38AM</p>

			intersections on KGB from Wasilla to Settles Bay Road. Palmer-Wasilla Highway seems to get all the temp upgrades.... how about us?  Thanks for having the fair. No roundabouts. Have experiences with Anchorage's roundabouts and they would not work on DGB. 6-lane KGB would be much better.	
8/7/2013	Comment Form 2013 Mat-Su Transportation Fair	Edward Decker PO Box 879704 Wasilla, AK 99687		
8/7/2013	Comment Form 2013 Mat-Su Transportation Fair	Anonymous	I live at Mile 5 KGB Road. I am very hopeful this reconstruction will occur, the sooner the better. Knik GB is currently dangerous with the number of vehicles and the number of places where drivers turn. Thank you.	
8/7/2013	Comment Form 2013 Mat-Su Transportation Fair	Jennifer Burkmiere <a href="mailto:burkmiere@mtaonline.net">burkmiere@mtaonline.net</a>	I vote against eh round-about design- it does not fit the character of KGB road.	
8/7/2013	Comment Form 2013 Mat-Su Transportation Fair	Mike Kelly (907) 232-7737	Please do the 4-lane/6-lane model. The most important factor is through put per hour. The alternative will slow rush hour to 20 MPH or less for the entire rush hour(s). Please do the 4-lane/6-lane model. The most important factor is through put per hour. The alternative will slow rush hour to 20 MPH or less for the entire rush hour(s). Have the pro's design this - i.e. no roundabouts - slowing traffic is inefficient.	
8/7/2013	Comment Form	Barbara Perkins PO Box 877632 Wasilla, AK 99687	NO ROUNDABOUTS	
8/7/2013	Comment Form	Kathy Lunning Wasilla, AK	No roundabouts on KGB Road in City or Borough Sections. Like the 6-lane concept.	
8/7/2013	Comment Form	Loretta Wilkins PO Box 873598 Wasilla, AK 99687	Re: Knik-Goose Bay Reconstruction to Pine. I really like the idea of the 4-lane with roundabouts. I can see that traffic would be slowed way down during peak commute times when most of the traffic is in one direction. Maybe they can put half as many roundabouts, only at the busier intersections. The speed limit really needs to be slowed down from the Parks to about Fairview Loop. A 4-lane with medians is my preference.	
8/6/2013	Email	T. Kelly PO Box 299075 Wasilla, AK 99629	Reducing the level of service too EF is unacceptable minimum service should be BC project would be best if it looked like trunk road divided four lane Travel is Swift and limited access keeps it safe the area will do nothing but grow being able to rapidly move from one part of the valley to the other is essential.	
7/26/2014	Email	Eileen Ransom Email: <a href="mailto:eransom3791@gmail.com">eransom3791@gmail.com</a>	Good Evening, I got one of your flyers from the guys doing the survey on Commodore rd the	Ms. Ransom: There are two KGB Road reconstruction projects scheduled near the Vine Road

		<p>other day. We're glad that KGB will finally be widened, not looking forward to the mess, though.</p> <p>Anyway...At Vine and KGB there is a 3-way light. There is a little side road that lazy, impatient folks use to turn that into a 4 way intersection. For a couple weeks a barrier was put up, but it's gone now. I've watched folks zip across Knik from Vine at an angle to get on that frontage road. It is very dangerous and there have been many accidents there. I hope that offset dirt road can be blocked again.</p> <p>You certainly can contact me for clarification or any other comments. I am glad to help.</p> <p>Sincerely, Eileen Ransom</p>	<p>intersection. A federally funded project to improve KGB Road from Wasilla to Vine Road will likely be preceded in schedule by a state funded project that proposes to widen KGB Road to a divided 4-Lane from Vine Road to just past Settler's Bay. Either project could reconstruct the Vine Road intersection.</p> <p>A preliminary concept (Page 7 of the Attached PDF) shows a realigned Vine Road intersection with KGB Road. Currently, Vine Road intersects KGB Road at a skew, which is not ideal. As you can see in the attached, The DOT currently proposes a reconfigured 4-way intersection with appropriate traffic control to manage traffic flow and access at this location. We have received comments from others who live across from Vine Road (On Binnacle Drive) about this intersection with similar concerns, and improvements are proposed.</p> <p>I have forwarded your concerns to our Maintenance &amp; Operations Section for more timely, temporary measures.</p> <p>If you are interested in other project specifics, that information is located on the project website @ <a href="http://www.knikgoosebayroad.com/view/soa/documents">http://www.knikgoosebayroad.com/view/soa/documents</a>.</p> <p>Thank you for your interest in this important project. If I can be of any more help, don't hesitate to contact me.</p> <p>Garrett Paul</p>

8/22/2013	Email	Eileen Ransom <a href="mailto:eransom3791@gmail.com">eransom3791@gmail.com</a>	Hello again Paul, I was checking on the status of that odd little intersection at the Vine light. The other day a truck "jumped out" on KGB right in front of us. Very scary. Thanks for your attention to this issue.	
7/23/2013	Email	Nancy McGuigan <a href="mailto:nmcguigan@gci.com">nmcguigan@gci.com</a> PO Box 872663 Wasilla, AK 99654	Eileen Ransom Hi, I'm on the DOT&PF; KGB page and I'm not sure what I should be looking at as the current/approved plan and schedule for the road. Can you direct me to the right document? thx	
3/20/2013	Email	Loyd Reese <a href="mailto:loydreese@yahoo.com">loydreese@yahoo.com</a>		Mr. Reese, Follow this link to the documents page at the project website. In the first section you will see "Knik-Goose Bay Road Reconstruction Preliminary Concept (large scroll of entire project: 6 MB PDF)" and "Knik-Goose Bay Road Reconstruction Preliminary Concept (project broken down into segments)" listed. The first is an overall document showing the project in one piece, six miles long. I recommend the second link, as it is easier to navigate/zoom/pan than the first. Both show the current concept. Note the "preliminary concept" stamp throughout these documents. As it says, this is all subject to change. If you have any questions, don't hesitate to call.
3/19/2013	Phone	Carrie Butler Certified Distressed Property Expert Alaska Premier Real Estate Cell (907) 841.1814 <a href="http://www.alaskapremierrealestate.com">www.alaskapremierrealestate.com</a> <a href="mailto:carrie.butler15@gmail.com">carrie.butler15@gmail.com</a>	Wende Wilber (Planner, CRW) received a call from Carrie Butler, a real estate agent in Wasilla, who is representing Knik Tire and Auto at 1800 KGB Road. Butler has a potential buyer that "just learned the ADOT project will be taking half of the gas station." Carrie called to see what was really going on since she is trying to sell the property. Wilber provided her with a general project overview and walked her through the web page so she could read up on the background information and look at the proposed road concept in front of the gas station. Wilber also explained that many property owners don't realize where the right-of-way line is actually located and that what they think is their property may not be.	Thanks, Gerry
3/6/2013	Phone	Bruce Friedhoff Wasilla Christian Church <a href="mailto:bruce@civilresourcelc.com">bruce@civilresourcelc.com</a>	Butler would like more information on "how much of the Knik Tire property will be impacted by the roadway." She understands there may not be a definitive answer at this time but any clarification would be very helpful. We've been looking at the proposed widening (January 2013) and have some concerns ...	This gentleman called this morning. He and the church's congregation are concerned about access impacts by project. We will meet with them to discuss their concerns sometime soon. In the interim we will prepare a response to their ideas for access at Endeavor and at Edlund.

3/4/2013	Email	Stephanie <a href="mailto:stephunnvok@netscape.net">stephunnvok@netscape.net</a>	I have been driving KGB for 10 years now and over time I have noticed that most traffic drops off at Settler's Bay, always thought it would be better to continue the extension on to Settler's Bay and not Vine. Just a thought.	
3/4/2013	Email	Thor Ryan PO Box 877409 Wasilla AK 99867 <a href="mailto:thorman@mac.com">thorman@mac.com</a>	Please do not add more lights to the road. I find that when it is foggy or in heavy snow, they hurt visibility more than help, creating glowing globes that blind you to what is just beyond them. What is helpful instead is the reflective poles on the side of the road - you can see them in fog and in heavy snow. I commute every day to Anchorage, so know the road pretty well. Additional lanes (4 lanes) would be very helpful. Respectfully, Thor Ryan	
2/1/2013	Email	Jack Zerpel 1720 W. Harvest Loop Wasilla, AK 99654 <a href="mailto:jackzerpel@yahoo.com">jackzerpel@yahoo.com</a>	I am concerned about the impact of the project on the hydrology of North Country Estates, just East of Lakewood Drive. The preliminary design suggests that retaining walls are to be constructed to minimize the need for "taking" of private property. The Jurisdictional Determination Report prepared by HDR Alaska, Inc. states that "One wetland complex containing several hydrophytic vegetation communities was observed just west of Lakewood Drive. The majority of this wetland contained open black spruce scrub. An open alder low shrub community was observed near the eastern edge of the wetland and sedge dominated meadows were intermixed in small openings. The vegetation within the wetland showed moderate disturbance. Standing dead paper birch (Betula papyrifera) and black spruce (Picea mariana) trees were common and a pipeline/power line corridor was present near the wetland's eastern boundary." The entire area has a very high water table, requiring many of the homes to have engineered lift stations. With the heavy rainfall last summer, several homes in the area had flooded basements and septic system failures. My concern is that a retaining wall could retain even more water in this already high water table area. Please take a closer look at the hydrology of the area to ascertain the impact on the water table and also the engineering required to construct the retaining wall so that it doesn't fail. Thank you for your consideration. I'm looking forward to some relief in the congestion on this dangerous roadway. Thank you.	
2/4/2013	Email	Anne Kilkenny 1131 S. Century Dr Wasilla, AK 99687 (907) 376-6225 <a href="mailto:annekilkenny@hotmail.com">annekilkenny@hotmail.com</a>	Mr. Welsh,  Re: KGB  I travel the segment of KGB Rd between Centaur & the Palmer-Wasilla Hwy several times a day because I live off Riley Ave.	
1/31/2013	Email	Randi Perlman Co-Owner Steve's Toyo Stove Repair M 3.4 Knik Goose Bay Road Wasilla, AK	I've noticed that there is beginning to be significant left-turn activity off KGB when headed out from downtown Wasilla into Benteh Nutah (Southcentral Foundation). Provision needs to be made for this activity. Because the building is so new, accident history is probably non-existent.  Hi Anne – Nice to see you again at last night's Open House at Houston High School. I appreciate the knowledgeable answers and information I was able to take away from there, as well as the refreshments!	Randi -- It was nice to see you at last night's meeting as well. We appreciate your patience as we navigate the project development process.  Thanks for your comments.

		<p>My comments would be:                  I would hate to see the project delayed in any way for a re-design on Phase 1 and/or Phase 2. Citizen safety is of the utmost importance, of course, and each night when I drive that long, dark stretch of the Parks from the Museum Road to the light at Pittman and beyond, I wonder how long it will actually be before illuminating lights and other safety improvements are in place. I'm always grateful to arrive home on the Big Lake/Houston line safely and in one piece, because I see and experience myself so many close calls.</p> <p>I was thankful to hear from Jim Amundsen that requests included in the recently passed City of Wasilla Resolution have already been performed and do not need to be repeated by Wasilla's Traffic Analyst Specialist before the project can move forward. If the construction project timeline is delayed, it could possibly put the project over budget again, and more needless and potentially deadly accidents will occur.</p> <p>I am firmly in favor of the 4-lane, depressed median design and STRONGLY OPPOSED to the 5-lane (suicide lane) design.</p> <p>I hope like hell that I miss-read your finish construction time at 2019---please tell me that is not correct!!</p> <p>That cannot happen, it is much too long. It should be four lane now---and possibly going to six lane. And you are telling me that your not even going to have it four lane for another SIX YEARS?</p> <p>Wow---why will it take so long? I asked the same question about the Parks Highway Project also.</p> <p>Is there any possible way that one person can speed this process up?</p> <p>I would like some of these project engineers to see how fast they built the Alcan Highway during the war, and what kind of machinery they were using. Using that formula, you guys will be taking almost ONE THOUSAND, FOUR HUNDRED AND FIFTY TIMES AS MUCH TIME TO BUILD A MILE THAN THEY DID. Can I ask why?</p> <p>Regards,</p> <p>I've just spent a chunk of time clicking through your website. WHERE IS A READABLE DIAGRAM of the project as it is currently proposed? Every diagram I've seen is so teeny-weensy nothing is discernible. Where will frontage roads be? Where will they access KGB Rd?</p> <p>I am particularly interested to see what is being proposed for the segment Centaur-Palmer/Wasilla Hwy.</p> <p>Thanks,</p>	<p>(907) 376-WARM [9276]  <a href="http://www.stevestolive.com">www.stevestolive.com</a></p>

The Wasilla Main Street project currently proposes to establish a couplet with Yenlo carrying northbound traffic and KGB carrying southbound. That project would require a split somewhere near Palmer Wasilla Highway as shown in yellow/orange. Ultimately, KGB at Centaur would consist of two southbound lanes, but there final design details are something that</p>

			<p>will depend upon how each project develops during this phase. Both the KGB and Wasilla Main Street projects are in preliminary design. The level of detail we show in early design is that which you see here (when zoomed in). Detailed design cannot begin until environmental clearance is received for an identified preferred alternative – we are not there yet. The KGB project is not proposing frontage roads, as you will see.</p> <p>Please let me know if this helps, and do not hesitate to contact me with any more questions you might have.</p> <p>Thank you,</p> <p>I spoke to Ms. Webster. She's headed out of town and asked that I call again on 2/13. The church has had extensive contact with the Fairview Loop project team. I'm ferreting out what all's been said there. Will keep you posted.</p> <p>Gw</p>
<p>Email</p>	<p>Dawn U. Webster, Chair Trustee Committee Christ First United Methodist Church (907)376-3073 <a href="mailto:Websta@acli.net">Websta@acli.net</a></p>	<p>In response to your email today, I have the following comments:</p> <p>The Christ First United Methodist Church is located on the southeast corner of the current intersection of Fairview Loop Road and KGB. We have a very active membership consisting of over 200 members. We have concerns regarding the negative impact at this intersection once the signal is relocated west to the new Clapp/Fairview Road intersection. We have also been advised that a median strip has been proposed along our section of KGB. Please be advised, many of our church members turn left onto KGB to head towards Vine Road or try to access Fairview Loop following service or other meetings at the church. I read the attached information you published today regarding median strips and "U" turns. I wish to point out that we are talking about a lot of cars being sent right in order to turn left. How long will your stacking lane be? Will it accommodate twenty cars waiting to make a "U" turn?</p> <p>Our Trustee Committee would like to see the latest design drawings indicating the redesign at our intersection. Currently, we have concerns that the proposed design will mean a serious reduction in attendance due to the inconvenience of accessing KGB and Fairview Loop. Some members feel it will result in the closure of our church due to lack of attendance.</p> <p>Would someone at your firm be willing to meet with the Trustees to discuss the proposed design and help us to help you understand the consequences of the design? I will be out of state from January 31st through February 13th.</p> <p>I live at Mile 6.5 KGB road (off foothills), and strongly support this project. I am concerned by comments made by the Wasilla Mayor in opposition to this project. I see great need for it. While I support this project I am concerned by additional stoplights being constructed at every road intersection. I would much rather see merge lanes or overpasses. Stop lights seem counter productive to upgrading a road for traffic flow and safety. I am interested in being involved, please contact me if I can be of any assistance in advocating for the project.</p> <p>Mr. Gerry Welsh, P.E.</p> <p>RE: Kink Goose Bay Road Reconstruction; MP 0.3-6.8 Centaur Avenue to Vine Road</p>	
<p>Email</p>	<p>John Gardner PO Box 4401 Palmer, AK 99645 <a href="mailto:kilomaniaro63@hotmail.com">kilomaniaro63@hotmail.com</a></p>		
<p>Email</p>	<p>Archie Giddings 250 E. Herming Ave Wasilla, AK 99654</p>		

	<p>The information you provided shows the project goal is to meet a design Level of Service C for traffic congestion over the 20 year design life. Level of Service C does not lend itself to the City's goals as stated above. Designing with a Level of Service D (approaching unstable flow) seems more appropriate to meet the needs of the City, as it will result in the Department of Transportation developing a less aggressive project to move traffic at the expense of access. You stated the design is based on a 2.7 percent growth rate of traffic over 20 years. Has this been modeled using the Borough's traffic modeling program? If not, the City is requesting this project be modeled to include transportation links planned for the next 20 years and the results be incorporated into the design effort.</p> <p>Specifically, the City believes that there are a number of transportation projects that need to be considered as helping the traffic projections on Knik-Goose Bay Road as viewed in the 20 year design life. The City believes that these future transportation links will allow the Department of Transportation to consider a more modest design for Knik-Goose Bay Road. The first is the Mack Drive-Clapp Road extension project to be completed in the next 2-3 years. This project will provide a transportation link between Knik-Goose Bay Road and the Parks Highway west of downtown Wasilla. The City's traffic modeling for this project shows it will help reduce trips on both the Parks Highway and Knik-Goose Bay Road.</p> <p>Another project is the Fern Street Extension to Edlund Road that is scheduled to be completed in the next 2-3 years. Once completed, how will this transportation link affect the Knik-Goose Bay Road project? The presented concept design also shows Fern Street as a 3-way intersection at Knik-Goose Bay Road. This should be shown as a 4-way intersection as there is an existing right-of-way across from Fern Street in the form of a public use easement. This public use easement will connect to the City's planned Riley Avenue Extension. Riley Avenue Extension will be a minor arterial parallel to the Knik-Goose Bay Road project as shown on the Future Transportation Map in the City's 2011 Comprehensive Plan. Riley Avenue Extension should be part of any 20 year traffic modeling for planned Knik-Goose Bay Road improvements.</p> <p>Traffic modeling should also include Phase I of the Parks Highway Alternative Corridor Project. Phase I of this project will provide a freeway link between Knik-Goose Bay Road and the Parks Highway east of downtown Wasilla. This transportation link will be the initial phase of a freeway around Wasilla. There is a good chance Phase I will be constructed by the end of the design life of the Knik-Goose Bay Road project. This would easily eliminate the need for a 6-lane roadway design on the Knik-Goose Bay Road project.</p> <p>As we also discussed, Smith Ballfields is a significant traffic generator within the project area. Currently, its only access is a single driveway on a curve of Knik-Goose Bay Road just north of Endeavor Street. There are four baseball fields at this location with room to double in size. These fields often have games</p>
--	---

		<p>occurring at the same time during the summer with significant peak hourly traffic counts. There is undeveloped state property between the ballfields and Endeavor Street that could be used for a new access road to the ballfields. Right-of-way 60 feet wide could be dedicated as part of the Knik-Goose Bay Road project along the south boundary of the state property. This could be used to construct a new access road approximately 660 feet in length that would allow ballfield traffic to enter and exit Knik-Goose Bay Road from the Endeavor Street intersection.</p> <p>The City requests that once the draft Environmental Assessment is prepared and a preferred alternative and design is selected, that it be presented to the City's Planning Commission for approval in accordance with AS 35.30.010. Thank you for considering these comments.</p> <p>Sincerely,                  Archie Giddings, P.E.                  Public Works Director                  City of Wasilla</p>	<p>Divided roadway refers to separating on-coming traffic by using a barrier such a concrete median or a non-drivable vegetative median in the center of the roadway.</p> <p>Please let me know if this helps.</p> <p>Van</p>
12/19/2012	<p>Korey Packer  <a href="mailto:Korey.Packer@matsuk12.us">Korey.Packer@matsuk12.us</a></p>	<p>Does "divided roadway" mean it will have some type of Vegetation Island separating the two sides or is this just a turning lane?                  Thank you,</p>	<p>Thank you for your email. I have forwarded your question regarding the interim traffic signals/stop lights to the ADOT project team. Signalized intersections are part of this project and Alaska Department of Transportation is studying which locations the signals would be best located to solve the safety and traffic congestion issues of KGB Road.</p> <p>The project website has the proposed conceptual alternatives under the Documents page. The map shows the locations where a future signal may be warranted.  <a href="http://www.knikgoosebayroad.com/view/soa/documents">http://www.knikgoosebayroad.com/view/soa/documents</a></p> <p>Van</p>
12/18/12	<p>Jennifer Burkmire  <a href="mailto:jenwms@mtaonline.net">jenwms@mtaonline.net</a></p>	<p>I am glad to see that there is a plan in the works, but 5 years is a long time to wait, especially for this dangerous road. How about some stop lights put up in the interim?                  Respectfully,</p>	<p>Thank you for your question regarding the interim traffic signals/stop lights to the ADOT project team. 12/18/12	Email	Michelle Brazfield 6892 S Hallie Dive Wasilla, AK 99623 <a href="mailto:Brazfield@mtaonline.net">Brazfield@mtaonline.net</a>	<p>Please consider only the plans with a division between the in and out bound lanes. A turn lane is helpful when roads are clear and visibility is good, but at other times can actually be more dangerous. The road frequently has deep snow, is icy, and has oversize vehicles using it and at these times the turn lanes become very dangerous. Please also take into account how the increased traffic of the new schools at mile 10 of Knik will impact the design and safety of the road. Thank you! Please sign us up for the Knik goose bay road construction e newsletter.</p>	<p>Thank you for your e-mail. I have added you to the Knik-Goose Bay Road e-newsletter updates list.</p> <p>Van</p>

<p>12/18/12</p>	<p>Anne Kilkenny P. O. Box 870163 Wasilla, AK 99687-0163 (907) 376-6225 <a href="mailto:annekilkenny@hotmail.com">annekilkenny@hotmail.com</a></p>	<p>To: Welsh, Gerald F (DOT) Subject: Knik-Goosebay Rd project</p> <p>Mr. Welsh,</p> <p>Talking with you yesterday afternoon on the phone was fun, interesting and informative.</p> <p>I've had a couple of thoughts since our conversation. . . .</p> <p>It seems that when it comes to road construction, it's definitely true: build it and they will come. The more you increase the capacity of KGB road, the faster that area will develop. Thinking about that led me to thinking about where all the new traffic on KGB road will be coming from. If past and current patterns hold, about 30% will be commuting from Anchorage, which means that they'll be accessing KGB Rd from the Palmer-Wasilla Highway extension.</p> <p>Have you studied the left-turn movement at rush hour from the Palmer-Wasilla Highway extension onto KGB Rd lately? It appears to me that traffic nearly fills the entire 2-lane left turn pocket. NOW, which means that the proposed 2-lane left turn pocket onto KGB from the P-W Hwy Ext will be grossly inadequate when KGB is expanded. <b>I suggest that you look at the left-turn pockets off the P-W Hwy and the right-turn capacity from KGB onto the P-W Hwy Ext.</b></p> <p>Also, I noticed that the plan calls for many signalized intersections along KGB Rd. Haven't engineers long ago proven that properly designed roundabouts* have lower accident rates and higher capacity than signalized intersections? If so, why then is DOT continuing to propose signalized intersections? <b>Why aren't you proposing roundabouts?</b> It would seem to me that the ideal place for introducing roundabouts is along a route in which there will be many in a row.</p> <p>Yes, you will get public pushback. The public will always pushback against the unfamiliar. Sooner or later, DOT will need to face this. If not now, when? And, why not now?</p> <p>* In my opinion, the roundabout near Mat-Su Regional Hospital was very poorly designed: the radius is too tight for the volume of traffic, the amount of friction, and the number of exits off of it.</p> <p>I'd be very interested in hearing your response to these suggestions.</p>	<p>Tue 12/18/2012 9:53 AM Cc: Thomas, Scott E (DOT) &lt;scott.thomas@alaska.gov&gt;; Van Le &lt;VLe@crweng.com&gt;</p> <p>Thank you for your note.</p> <p>Accurate predictions of growth patterns and rates for the areas served by KGB Road are of course important to our getting this project right. Currently, project analysis assumes future growth at a rate equal to historic (that of the past 20 years), about 2.7% per year. Ongoing modeling could adjust that up or down.</p> <p>AM and PM peak hour turning movement counts at KGB intersections, including the PWH intersection, are part of our analysis. The growth rate is applied to current numbers to predict design year (20 years past construction) levels. Projections indicate a future need for three dedicated left-turn lanes from PWH onto KGB and three southbound departures for those same turning volumes. You'll see that configuration on the updated concept <a href="#">here</a>. Other appropriate turn lanes are indicated at other intersections based on the same analysis. Please note: analyses we currently show on the website are being updated to more closely reflect a design year consistent with the project schedule (2039).</p> <p>Roundabouts, like signals, are established where analysis indicates both need and suitability. While increasingly recognized as an intersection control strategy that can fulfill multiple performance goals related to traffic operation and safety, roundabout use is very specific to particular traffic demands and types. Our Traffic and Safety section lists several intersections along KGB Road as "Long-term Signal/Roundabout <i>Candidates</i>," so some roundabouts may well be in KGB Road's future. Details of how, ultimately, intersections are managed depends upon future circumstances and the state of research and practice in Alaska. Roundabouts require considerably more right-of-way for their construction; acquisition of that right-of-way is not justifiable without determining need and suitability, and it's not yet possible to make that determination.</p> <p>I am copying our Regional Traffic and Safety Engineer on this so he is aware of your thoughts on roundabouts on KGB (others have asked) and with the roundabout near the hospital.</p> <p>Thank you for your interest in this project. If you have any other thoughts or questions, please don't hesitate to call or write.</p>
<p>12/17/12</p>	<p>Andy Wellner</p>	<p>Live Simply. Love Generously. Care Deeply. Speak Kindly. Leave the rest to God. Inquiring about the KGB project. He indicated he'd missed the open house. I informed him we'd mailed about 2700 postcards and had a nice turnout with 86 people signing in. I directed him to the website for details, but described generally the goals of the project - to address capacity and related safety problems. Told him of projected traffic volumes and our analysis of various lane configurations to accommodate and that our initial concept consists of a</p>	

		<p>four-six-lane divided concept. I explained we're early in the process and anxious for public and agency input during this scoping portion of the environmental phase, which is as far as we are authorized. I offered our cooperation with any graphics he might need for his piece, and I indicated I was hoping to get out to another open house as early as late January '13. I verified the tentative schedule, which shows construction not starting earlier than 2017, explaining that the process we follow is strict in how we proceed with follow on phases.</p> <p>gw</p>	
<p>12/13/12</p>	<p>Comment Form?</p> <p>Terry &amp; Joanie Nininger 6420 West Commodore Lane 907-357-1606 <a href="mailto:nininger@alaska.net">nininger@alaska.net</a></p>	<p>KGB Road Open House</p> <p>Hi,</p> <p>Thanks for the informative open house for the KGB Road expansion. It not only provided a lot of info but the DOT staff there where well informed and easy to talk to.</p> <p>One serious suggestion: we believe the road expansion should be extended to the Settlers Bay Road. We live on Commodore Lane, just around the corner from the fire station on KGB. We built here 8 years ago and in that time we are amazed at how much the traffic has increased; and not just up to Vine, but beyond. It sometimes takes 5-8 minutes waiting at the Commodore/KGB intersection to get onto the road. There is a tremendous amount of traffic entering the road not only from Commodore but also from the Victoria Estates subdivision and beyond. We really believe that the road extension project needs to be extended to Settlers Bay. We would willing to publically testify or send additional correspondence if it would help.</p> <p>Thanks again for the great open house.</p>	
<p>12/13/12</p>	<p>Darcie Salmon MSB Assembly Member <a href="mailto:darkonia@gmail.com">darkonia@gmail.com</a></p>	<p>Thank you Van. It was nice meeting you at the Knik School. I appreciate the update and will look forward to more as the project continues in its development. Hopefully we will bump into each other again somewhere down the line.</p> <p>Regards,</p>	
<p>12/13/12</p>	<p>Shawn Flanagan <a href="mailto:shawnflanagan1@hotmail.com">shawnflanagan1@hotmail.com</a></p>	<p>After attending the open house, I would like to voice my concern over the lighting on KGB. I absolutely believe that lighting is necessary for safety along KGB. This not only allows drivers to see oncoming Moose, but also other vehicles. I have almost hit several moose due to poor visibility at night. KGB is very dark and hard to see objects near the road at night. I am aware some people do not want lights because of the "rural" feel, but the truth is, the lights will not even be noticed off the main road. This should be a priority to promote safety along KGB until the road expansion project begins.</p>	

<p>12/12/12</p>	<p>Rick James PO Box 870524 Wasilla, AK 99487</p>	<p>Thank you Mr. Le, I was wondering where the project ended. From the environmental report and other documents it looks like it ends just past vine road. The reason i am wondering is that my mom owns property on outrigger drive just past the electrical substation on KGB. Her home sits just behind the condos there. If i am understanding this right the new construction will have no effect on her property. Her home address is 5261 outrigger drive.</p>	<p>The project starts at Centaur Avenue (MP 0.3) and ends at MP 6.8 which is at Vine Road. Outrigger Drive is beyond the project limits for this first phase of the project. It is unlikely that your mother's property will be impacted at all during this phase of the project. The earliest construction date is estimated for 2017 and construction detours may occur for drivers of the roadway during that time.</p> <p>The project website has been updated with new information under the Documents page including the alternatives concept the Alaska Department of Transportation is proposing: <a href="http://www.knikgoosebayroad.com/">http://www.knikgoosebayroad.com/</a></p> <p>Please let me know if you have additional questions, Van</p>
<p>12/12/12</p>	<p>Scott Nations 1690 W. Harvest Loop Wasilla, AK</p>	<p>Comments re: Proposed reconstruction of Knik Goose Bay Road I want to thank you for allowing me to comment on this important project. I also would like to express my appreciation for the Open House at Goose Bay Elementary held on December 6. The Project Team did a good job of answering questions and explaining the various diagrams and charts. I have been a resident of the area for more than 20 years and have lived at Harvest Loop, off Lakewood Drive for nearly two years. My view of the Conceptual Plan presented at the open house is shaped by my observations of other transportation projects which have occurred in the Palmer-Wasilla area over this 20 year time period.</p> <p>Comments</p> <ol style="list-style-type: none"> <li>1. I support the divided highway concept over the 4 lane/two-way left turn lane concept. I believe the divided highway will provide a greater degree of safety than the use of the two-way left turn lane.</li> <li>2. The Conceptual Plan shows signal locations at approximately 1/2 mile intervals along the route. Given the current traffic loads during peak periods, these signals would add to congestion which seems to defeat the purpose of the proposed improvements. I asked a representative at the open house about the possibility of roundabouts. His response was that it would slow traffic. Wouldn't signals slow traffic as well? I suggest that signals be used as sparingly as possible, confined to four-way intersections and intersections with major arterials such as Vine Road. Then allow right-in right-out access for three-way intersections with provisions for U-turns at signals.</li> <li>3. The Bike Path / Pedestrian Walkway is located on the northerly side of the highway. As this highway bisects an area of residential subdivisions, a divided highway would cut off access to the pathway for those who reside on the southerly side of the road. The only safe access to the pathway for these residents would be at the signal locations. If all proposed signals were installed, this could mean 1/4 mile walks along the roadway shoulders to the signal location for these residents. Thus I'd recommend the consideration of partial pathways on the southerly side of the road, at appropriate locations, with</li> </ol>	<p>Thank you for your comments and for attending the Open House. I have forwarded your comments below to the ADOT Project Management Team. I also added you to our e-newsletter project update list (you may have received an update yesterday). Please stay in touch as the project progresses.</p>

		<p>pedestrian overpasses or underpasses constructed to provide access to the northerly pathway.</p> <p>Again, I thank you for the opportunity to comment.</p>	
12/26/12	<p>Greg Johnson</p>	<p>The bicycle paths should never come out to the road unless there is a cross intersection not a tee. The reason for this is safely not running children out next to the high speed traffic and also the snow machines, four wheelers &amp; dirt bikes don't have to cross the bicycle path twice at each intersection. When there is a cross intersection it would be better to turn the path parallel to side street not the main highway. Currently the bicycle paths are used as deceleration lane by some drivers because no lane is available where they parallel Knik Road. The current lack of left turn lanes at every turn is the main reason for accidents not the speed. The speed makes them more severe.</p>	
12/13/2012	<p>Kim Elgee 2150 S. Endeavor Street (907) 373-5772 <a href="mailto:kimniwl@mtaonline.net">kimniwl@mtaonline.net</a></p>	<p>I see your preliminary plans and also see the red lines drawn in front of my tracts and other tracts going down Knik Goose Bay road. The Chart at the top saying these red lines are right of way. They look hand drawn and not symmetric. Will it be the new right of way? It does show the now one in green. They are Tracts G1 and G2 Talerico where the new Intersection is to go is on Endeavor Street. So will our two tracts and the other land going down Knik Goose Bay road be taken for the right of way? The church across the street from us has been contacted they say already and given some kind of notice and they are building a new addition on in spite of this. My opinion is the church will get more federal money for when they have to relocate when their new addition is appraised. Craig Thorn of First National Bank is a church member and elder of that church as well. Will we receive notice and be privy to information on our property's information as they state they have been. The red lines do have me concerned.</p>	
12/11/12	<p>Read Dunn PO Box 871246 Wasilla, AK 99687 <a href="mailto:readdunn@gmail.com">readdunn@gmail.com</a></p>	<p>We have lived off KGB for approx. 5 years, just south of Settlers Bay. Dramatic increase in traffic in that time. Worst is from Palmer Wasilla to Fairview loop. Traffic pattern around new 3 Bears store is excellent. In the last two years there is dramatic increase in traffic to the South of Settlers Bay. I assume from the prison and the port, this needs to also be considered. Currently there is very little commercial which means extra turn offs, but that is clearly changing. Need to take all of that into consideration. Look ahead, not just behind.</p>	
12/7/12	<p>John McKiernan (907) 376-9796 <a href="mailto:reconstructimck@mtaonline.net">reconstructimck@mtaonline.net</a></p>	<p>1. Thank you for the opportunity to participate, and thank you for last night's open house. I am a homeowner in Cheryl subdivision, Sakai Rd, off Mack drive at mile 4. I have lived on Sakai rd. since 1982.</p> <p>2. Please consider including the traffic signals indicated on the concept/ aerial photos as "future "with this project. This is a dangerous road. It's one of the 3(?) roads statewide that are classified traffic safety corridors. Please don't wait for the statistics to justify the obvious.</p> <p>3. A modified cross section of the recently constructed palmer Wasilla highway extension should be the template for this road. Medians make roads safer. It's a</p>	<p>Thank you for your interest in this project and for your questions about our process.</p> <p>For an explanation of how project timelines evolve, I ask that you contact our MatSu Area Planner, Allen Kemplen, who is well-versed in our overall process – how the Department's program is developed and how projects are nominated, scored, prioritized and funded. Alan can also address questions about the history of projects on KGB and other MatSu Valley transportation facilities. He can explain the requirements for public input and the constraints on our plan development process you find so frustrating.</p> <p>I have discussed your message with Allen; he is happy to discuss these and other</p>

		<p>no brainer. The palmer Wasilla Hwy extension speed limit is 45 mph, the speed limit for the reconstructed KGB should be 50, not 55. Given the long term history of accidents on this road, I am surprised that KGB is still at 55 MPH. since the opening of the palmer Wasilla highway extension, I have been amused that the speed limit on this obviously safer road is 10 MPH lower than the current KGB road. Go figure.....</p> <p>4. I think I remember that the road cross section included 3 thru lanes, one occasional, discontinuous left hand turning lane, and one occasional discontinuous right hand turning lane. Please consider 2 thru lanes, and the turning lanes mentioned above. if the traffic volume (projected or current) indicates a drop in the level of service, it would be my preference to take the \$\$ saved by constructing only 2 thru lanes (instead of 3) and install synchronized traffic signals NOW with this project in the interest of safety. Traffic signals are really important to me; and I know they are very expensive. My preference would be to construct only 2 thru lanes each way, add the signals, and widen the median strip for future expansion for 3 thru lanes each way.</p> <p>5. Depending on the time of day, and the time of year, a driver making a left turn out of Mack drive onto KGB towards Wasilla is looking directly into the sun. Please be aware of this situation. Signals are important to me. There may be other intersections along KGB where the sun is an issue. Sadly, we lost one of our neighborhood children about 10 plus/ years ago.</p> <p>6. If the budget allows, "prepare to stop" electrically powered signs (Glenn highway@ airport heights) could be added if traffic signals are installed now.</p> <p>7. I understand the lack of collector roads along KGB road complicates this project. Local roads like MACK dump directly into one of the busiest roads in the state.</p> <p>8. Its long past the time for KGB to be a divided road. However, some business owners along the road may object to a divided highway prohibiting easy access to businesses "on the other side of the road". Traffic signals would help. Thanks for the opportunity. ....</p>	<p>matters with you. I have cc'd Allen this reply, so you have his email address. Allen's phone number is 269-0513.</p> <p>I hope you can attend our project open house December 6th at Goose Bay Elementary School's gymnasium from 4:30 to 7:30 PM.</p>

		<p>The road they build near the hospital--the one that cost over 50 million dollars that nobody uses--why was that built first? Do you realize that the traffic count for Knik Road at Mile 2 is 25 times that of the road they build near the hospital?</p> <p>Makes me wonder who owns property down there.</p> <p>I guess my whole rant here is to ask "WHY THE HELL DOES IT TAKE SO LONG TO BUILD A ROAD? AND, "WHY DO YOU WAIT SO LONG TO BUILD IT"? I would suggest you drive down Knik Goose Bay Road ANY day between 2 PM and 8 PM and tell me if it is going to make it 5 more years before it is almost to the point of gridlock.</p> <p>Incredible. So wasteful, and so inept--that is the DOT. And do not you dare blame it on the senate and house----they have asked that this be built over 10 years ago.</p> <p>I haven't seen any plans to add street lights along KGB in the road construction planning. Are street lights going to be added? They are so badly needed.</p>	<p>phone number is 269-0513.</p> <p>I hope you can attend our project open house December 6th at Goose Bay Elementary School's gymnasium from 4:30 to 7:30 PM.</p> <p>S</p>
<p>11/24/12</p>	<p>Tammy Jarriel 2813 S. Avalon Circle #1 Wasilla, AK <a href="mailto:tjarriel@aol.com">tjarriel@aol.com</a></p>		
<p>9/12/12</p>	<p>Email Kevin Munson (907) 232-1125 kevindmunson@gmail.com</p>	<p>Gerry, Jim Amundsen gave me your name and contact information. He identified you as the project manager for the KGB project. I am on the Leadership Team of the Wasilla Christian Church which is located at mile 2.2 KGB. We have heard all kind of interesting rumors about what, how and when KGB will be expanded to four lanes (we have been hearing "in two years" for close to twenty). We are a growing congregation that is beginning to split the seams of the building we are in. We are contemplating expanding the building so we are intensely curious about DOT plans. So several questions:</p> <p>Is there a reasonably firm plan for what DOT is contemplating for KGB say between Fern and Edlund?</p> <p>What are the phases of the plan?</p> <p>What is the timeline for the plan and its phases?</p> <p>What portion(s) have been funded, and which phases are encumbered?</p> <p>Specific to the church property, do you know yet how much right of way does DOT plan to take? and when?</p> <p>Does DOT contemplate needing more than its current easement, and if so how much?</p> <p>I realize that for these kind of projects the answers to the above questions may be moving targets and may change over time, but we would certainly appreciate a snapshot of what the thinking is at this point and what options/alternatives may be currently on the table. You can either contact me by email, or by telephone whichever is more convenient for you. Thank you.</p>	<p>Thank you for contacting me with your questions; you are correct to label their answers as moving targets. The project team has published a website that should answer, as best they currently can be, most of your questions – please take a look. We show a rough schedule with phasing and anticipated timing and there is a listing of the questions we're hearing and answering as well as a comment applet on the "contact us" page.</p> <p>The project's pre-design/environmental document phase is fully funded; with federally funded projects, funding for subsequent phases is obligated only after each phase is complete. This is an important project with no foreseeable obstacles to funding, but I always caution that all projects are funding dependent.</p> <p>We are currently in studies to determine the ultimate type and size of roadway necessary to address the safety and capacity needs on KGB Road. The results of engineering and environmental studies lead to alternatives, which when ready, we bring to the public for input and discussion. It is our hope to have something for you, your neighbors and the many users of KGB Road to take a look at this winter. Invitations will be mailed to you and many others well in advance of a public meeting, and advertisements and signs indicating the time and place will also be posted.</p> <p>It warrants mentioning that all concepts until the next (final design) phase will be preliminary and subject to change; however, it is our goal to carefully develop accurate scenarios for any alternative. And we hope to soon be able to let concerned property owners know of possible impacts.</p>

9/2/12	<p>Kim Elgee (907) 373-5772 <a href="mailto:kimnwil@mtaonline.net">kimnwil@mtaonline.net</a> <a href="http://www.knikland.com">www.knikland.com</a></p>	<p>Hello,  We missed the fair, someone said you were starting on KGB road work next year and that was talked and shown at the fair. Do you have published information on this.  Thank you,</p>	<p>I will ensure you are included in our mailing list so you will receive updates on our status. Keep an eye on the website for information. And thank you for your interest.  I responded that we are following the schedule that is published on the project website and that the earliest construction could occur is 2017.  We are still in the environmental document phase of the project so no road work can even start until we have that completed and get sign off from the federal government that the project is ok to proceed. We are still on target with the schedule that is on the project website. The earliest construction can occur is still 2017, 5 years away. The schedule can be found at:  <a href="http://www.knikgoosebayroad.com/view/soa/schedule">http://www.knikgoosebayroad.com/view/soa/schedule</a>  please let me know if you have additional questions.</p>
7/24/12	<p>Bill Buser Wasilla Christian Church <a href="mailto:wchurch@mtaonline.net">wchurch@mtaonline.net</a></p>	<p>Gerry:  We just realized that you have the wrong e-mail address for Wasilla Christian Church.  It is <a href="mailto:wchurch@mtaonline.net">wchurch@mtaonline.net</a>. Our contact information had too many c's in it. We were wondering about any updates on the project; such as when will the physical construction begin? What kind of access to the church driveway and parking lot, especially on sundays? Is there a diagram/blueprint showing how the new road affects us that we can view?  Thank you for your help in this  Bill Buser</p>	<p>Bill,  Gerry is out of the office and wanted me to touch bases with you. Thanks for double checking your contact information. Will update your email address in our database to <a href="mailto:wchurch@mtaonline.net">wchurch@mtaonline.net</a>.  The Knik-Goose Bay Road Reconstruction project is in the early stages of development. We are gathering data, conducting field studies, developing alternatives and preparing for public involvement. Each task plays a crucial role in development of the environmental document and the NEPA process. There is a project website (<a href="http://knikgoosebayroad.com/">http://knikgoosebayroad.com/</a>) which will keep the public informed about project progress, show project related information, and a tentative schedule is available there. The schedule currently shows the earliest construction date being mid-2017.  There is not yet a preferred alternative, so exact property impacts are unknown. Beginning the public involvement process will allow us to gather input from the public, agencies, and local governments to begin alternative screening.</p>
4/24/12	<p>Kim Elgee 2150 S. Endeavor Street Wasilla, AK 99654 (907) 373-5772 <a href="mailto:kimnwil@mtaonline.net">kimnwil@mtaonline.net</a> <a href="http://www.knikland.com">www.knikland.com</a></p>	<p>Gerry Welsh returned the call:  She indicated she's trying to sell her property and wants to know how the project will impact her property. I informed her we're in the preliminary phase of the project but expect to have a meeting soon to get public input. I told her it is our hope to minimize impacts to the degree possible, but it's still too early to provide specific information about impacts. She mentioned the gas main is in front of her house and asked if that could cause problems. I responded the utilities could very well affect impacts to adjacent properties and location of roadway improvements. I explained that we will do everything we can to avoid or minimize impacts. She asked if there was a way to get something in writing.</p>	<p>Thank you for contacting me about the project. I've attached an informative pamphlet that explains property owner rights and benefits if their property, in whole or in part, should be acquired as part of this or any DOT project.  As I indicated, it is still too early in this project to know yet which, if any, properties will be affected by improvements to KGB Road. We intend to hold public meetings seeking input from property owners and users as soon as possible. Your name and contact information are part of our contact list, and you will be receiving information about meetings when they are scheduled. If you have questions, feel free to contact me. Thank you again,</p>

			<p>I told her she should ensure prospective buyers understand they have the same rights and protections as the current owners of property, that the Department follows a body of law that is there to protect the rights and interests of property owners affected by government-funded projects. I told her I would provide her a pamphlet our right-of-way section uses to educate property owners and that I would also link this document on the project website. Please link the attached on the website.</p>	
10/24/11	Phone Call	Andy Western Enterprises	<p>Andy wanted to verify the traffic count numbers posted on the project website and whether the numbers came from ADOT. I confirmed to him that those traffic count numbers for Knik Goose Bay Road did come from ADOT. He was not concerned about the actual numbers but wanted to verify the source of those numbers for his own work purposes. His main concern was coordinating his company's projects with any proposed road upgrades. Gerry Welsh's contact information was provided for follow up questions. He also asked about the Wasilla Couplet project and asked whether I was involved and I answered in the negative.</p> <p>Staff let Andy know we were just starting the Knik Goose Bay Road, assisting ADOT with the public involvement coordination and that more information will be posted on the website at a later date. He thanked me for calling him back and said he had no further questions.</p>	

## D1. Project Website

Home

## Project Overview

The Alaska Department of Transportation and Public Facilities (ADOT&PF) is proposing to reconstruct Knik Goose Bay (KGB) Road in Wasilla from MP 0.3 (Centaur Avenue near the Palmer-Wasilla Highway intersection) to Vine Road at Mile 6.8. The goal of the project is to improve mobility for people and freight and to enhance access management along this segment of the road, thereby improving safety and reducing congestion for roadway users.

Preliminary studies are underway to determine the scale, location, and type of improvements, which could include realignment, adding lanes, new signalization, and other associated safety and capacity enhancement measures. All analyses are being updated to reflect growth projected by the traffic model developed for the Parks Highway Alternative Corridor (Wasilla Bypass) project.

### FAQs

#### Frequently Asked Questions (FAQs)

##### **How will my access be affected?**

- The vast majority of KGB Road users access via collector roads. The current concept shows parcels with direct access being restricted to Right-In, Right-Out access; this is a common method to manage access on arterial roadways. It requires traffic desiring to turn left to instead turn right and then perform a U-turn – it requires some sacrifice during off-peak hours (considerably less so during peak hours) but provides a much safer facility. Direct left turns demand that drivers negotiate many more potential conflicts all at once. Read here for more information.

##### **What is the best way to reduce the severe crashes on KGB Road?**

- KGB Road is over capacity and is experiencing high numbers of capacity-related crashes. The majority of major-injury and fatal crashes on KGB Road have been head-on/cross centerline crashes. To reduce these crashes, DOT&PF is proposing additional through lanes and a grass median to separate opposing lanes. “Non-traversable” medians drastically reduce head-on collision rates.

##### **What is the design life of this facility?**

- The design life of a reconstruction project is 20 years from the year construction is completed. The project’s current schedule shows construction completion in 2019, so 2039 is the design year. A requirement of the project is to accommodate design-year traffic at an appropriate level-of-service. All analysis is based on project year 2039 traffic.

##### **When is construction anticipated?**

- The current schedule shows construction beginning in 2017, and it could be completed in 2019. The project is currently funded through the preliminary design and environmental document phase. Start of design, right-of-way, and construction phases depend upon the completion of the current “environmental” phase.

##### **How will this project affect future development in the area?**

- This project would improve transportation system functionality along the KGB Road corridor to just beyond Vine Road. Safe access, reduced congestion, improved safety, and upgraded intersections will help ease movement in the area. KGB is the only north-south route, existing or planned, providing access the undeveloped lands southwest of Wasilla and at Point Mackenzie. DOT and local plans recognize the importance of preserving KGB Road as a high functioning arterial route.

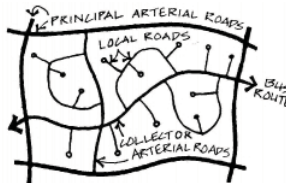

##### **How does DOT&PF predict future traffic volumes?**

- A new traffic model is being developed but is not yet complete. The only approved model available for the project area comes from the Boroughs 2007 Long Range Transportation Plan (LRTP). The LRTP forecasts traffic volumes up to 2025 (14 years short of project design year). The Department is operating on the assumption that the historic rate of traffic growth of 2.7% (average traffic growth rate over the past two decades) will continue. This rate is consistent with the LRTP’s model. As adjusted data becomes available, analysis will also be adjusted. Ongoing modeling for other projects suggest the concepts under consideration to reduce the Parks Highway congestion, including the Wasilla Bypass and the Knik Arm Crossing, would not sufficiently address the capacity problems associated with the Main Street/KGB Corridor.

##### **What is functional classification?**

- Functional classification is “the process by which streets and highways are grouped into classes, or systems, according to the character of service they are intended to provide.” In basic terms, a road can be functionally classified as:

- Arterial: These roads provide mobility so traffic can move from one place to another quickly and safely.
- Collector: These roads link arterials and local roads and perform some duties of each.
- Local: These roads provide access to homes, businesses, and other property.

##### **What is the functional classification of KGB Road?**

- KGB is classified as a principal arterial. The Highway Capacity Manual states: “A Principal arterial serves major through movements between important centers of activity in a metropolitan area and a substantial portion of trips entering and leaving the area. It also connects freeways with major traffic generators. In smaller cities (population under 50,000), its importance is derived from the service provided to traffic passing through the urban area. Service to abutting land is subordinate to the function of moving through traffic” (Highway Capacity Manual 2000, pages 10-6 – 10-7).

##### **What does “Level of Service” describe and how is it applicable to the project?**

- Congestion is measured by the amount of delay experienced by vehicles and is evaluated using a scale referred to as Level-of-Service or “LOS.” LOS is a qualitative rating of the highway’s effectiveness in moving traffic, described using letters A (best) through F (worst). Roadway operating conditions may range from free flow (LOS A) to stop-and-go/gridlocked traffic (LOS F). Arterials are typically designed to operate at LOS C or D, consistent with both the AASHTO “Green

Book” and the City of Wasilla Official Streets and Highways Plan. A roadway with LOS C/D means that motorists are somewhat restricted in their freedom to select their own speed or change lanes at will, but operating speeds are maintained with only minor delays.

Above  
State of Alaska © 2014 Webmaster

**How is the STIP developed?**

- The Statewide Transportation Improvement Program (STIP) is a four (4) year, fiscally constrained program for federally funded transportation projects. The projects are compiled from local and regional plans that are selected through an annual development process. The STIP becomes available for review months prior to final FHWA approval. FHWA grants approval of the program, but throughout its four year lifespan, STIP amendments are made frequently.

**How long will the Environmental Assessment (EA) take to complete?**

- Typically, Environmental Assessments (EAs) take three (3) years to complete, and result in either a Finding of No Significant Impact (FONSI) or, if significant impacts are found possible or likely, an Environmental Impact Statement (EIS). EIS's can take substantially longer.

**Will access to the baseball fields be accommodated?**

- Access to the baseball fields will be maintained.

**Will ATVs still be able to ride alongside the roadway?**

- DOT&PF does not specifically accommodate ATVs within state owned rights-of-way. A multi-use pathway for bicyclists and pedestrians is included in this projects scope.

**Can the project be extended past Settler's Bay?**

- DOT&PF is in early studies for a project to improvements to Settlers Bay.

**Why not a five-Lane Section?**

- A five-lane section will not provide adequate level of service in the design year 2039. It should be noted that a median is indicated for this functional classification of roadway and for any roadway carrying more than 24,000 vehicles per day. The City of Wasilla Official Streets and Highways Plan also recommends major arterial roadways have a median and operate at a level of service C or better.

**Why not just lower the speed limit to 45 mph?**

- Speed studies conducted on KGB indicated that the 85th percentile operating speed (used to determine design speed) exceeds 60 mph within the project limits. As the facility is upgraded to include more lanes and improved geometry, it seems highly unlikely that drivers would lower their operating speeds, even if the posted speed limit is lowered.

**Will the presence of a median hurt my business?**

- Medians preserve capacity. When traffic volumes exceed capacity on a section of roadway, drivers typically begin to seek alternative routes, change the time of their travel, or simply choose not to make a trip. Studies have shown that when access management techniques (such as a non-traversable median) are implemented, there is typically little or no negative impact on sales; in fact, businesses often report an increase in sales, as customers feel safer accessing the property. Furthermore, reducing travel time (by increasing capacity) increases the market area of businesses served by a particular facility. Capacity of divided highways is markedly higher than that of 5-lane roads (Access Management Manual). The Federal Highway Administration has more information on these studies here.

**Can emergency vehicles make U-turns under the current concept?**

- During final design, the Department coordinates with local emergency services to ensure roadway geometry accommodates their current and planned fleets of response vehicles.

### Related Projects

#### Parks Highway Alternatives Corridor Study

Project Manager: Allen Kemplen, AICP, ADOT&PF

ADOT&PF, in partnership with the City of Wasilla and the MSB, is currently conducting the Parks Highway Alternative Corridor Study. The land use based transportation model will provide information which will be used to update all KGB Road traffic forecasts and analyses. For more information, please visit the project website at [www.parkshwyalternative.com](http://www.parkshwyalternative.com).

#### Wasilla Main Street Project

Project Manager: Kelly Petersen, PE, ADOT&PF

ADOT&PF conducted a federally required Environmental Assessment to determine the best means to improve travel efficiency, reduce congestion and improve safety within downtown Wasilla. This process requires ADOT&PF to consider all reasonable alternatives and assess environmental consequences. FHWA approved the Final Environmental Assessment and signed a Finding of No Significant Impact (FONSI) on December 24, 2013. The project will now move forward into engineering design. For more information, please visit the project website at [www.wasillamainstreetproject.com](http://www.wasillamainstreetproject.com).

#### Parks Highway MP 44 - 52

Project Manager: Eric Miyashiro, PE, ADOT&PF

In September 2010, the State of Alaska Department of Transportation and Public Facilities (ADOT&PF) finalized the environmental assessment (EA) for the project and received a Finding of No Significant Impact (FONSI) for the Parks Highway MP 44-52 Lucas Road to Big Lake Road project from the Federal Highway Administration (FHWA). The FONSI clears the way for the detailed design to begin. Design funding is in hand for two phases. Phase 1 consists of the section from Lucas Road to Church Road; Phase 2 is from Church Road to Pittman Road. Design for Phase 3, Pittman Road to Big Lake Road has yet to be funded. ADOT&PF has retained the services of a team led by Hattenburg Dilley & Linnell. Improvements may include safety and capacity features, road surface and sub-base improvements, drainage, pedestrian and bicycle facilities. For more information, please visit the project website at [www.parkshighway44-52.info](http://www.parkshighway44-52.info).

**Project Map & Information**

**April 3, 2014**

Project Number	AKSAS: 52464 / Federal: STP-0520(16)
Length	6.5 Miles
Posted Speed	Ranges from 35 MPH - 55 MPH
Functional Class	Principal Arterial

**Project History**

In 2010, the Alaska Department of Transportation (DOT&PF) completed a Statewide Functional Classification update of State roads to more accurately reflect the role each plays in Alaska's transportation network. Following agency coordination, the functional class of many roads changed. Knik-Goose Bay (KGB) Road was reclassified a *Principal Arterial*, a road that provides mobility so traffic can move from one place to another quickly and safely. It also became part of the National Highway System, a system of roadways important to the nation's economy, defense, and mobility. The 2010-2013 Statewide Transportation Improvement Program (STIP) introduced this reconstruction project to address safety and mobility problems on this critical regional route. KGB Road was designated a Safety Corridor in 2009 due to high fatality and major injury crash rates. STIP-recommended improvements include widening to a divided 4-lane with access management and safety engineering strategies.

DOT&PF has analyzed a range of solutions to balance the competing goals of *mobility*, *access* and *safety* to identify the best solution and to gain environmental clearance. Environmental clearance will allow DOT&PF to begin final design in advance of construction.

**Growth**

Traffic on KGB Road is being delayed now. This project must accommodate traffic in its design year, 2039. The traffic model developed for the Parks Highway Alternative Corridor, aka "Wasilla Bypass," now in early planning studies, was recently adopted by the Mat-Su Borough for use in developing their Long Range Transportation Plan. The model is the best predictive tool currently available to area projects, and it forecasts traffic on KGB Road to *more than double current volumes* by 2039.

Traffic growth depends upon many assumptions. The Bypass model assumes current trends in land-use, development patterns, and reliance on existing arterials will continue. DOT&PF has been asked to consider the effects a robust secondary road system might have on growth along KGB Road. A well-planned collector and local road system could ease traffic growth rates on KGB; DOT&PF is proposing phased construction. Current volumes necessitate a 4-lane facility today. With current growth rates, a 4-lane KGB Road is projected to reach capacity by 2028 and fail as early as 2034, ultimately requiring six lanes. DOT&PF is proposing to construct four lanes and delay construction of six, giving local and area roadway expansion/connectivity plans time to take shape and their effects on KGB Road analyzed.

Current Project Schedule

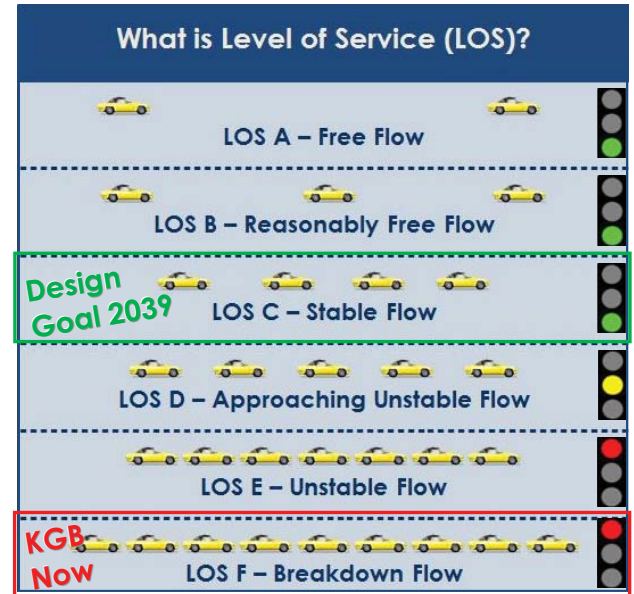

### Unique Regional Role

KGB Road is the only existing arterial providing access from Wasilla and the central MatSu to Point Mackenzie, the developing lands south of the Parks Highway, and the proposed Knik Arm Crossing.

### Level-of-Service (LOS)

Level-of-Service is a delay-based roadway and intersection operation rating. It uses "letter grades" ranging from A (best) to F (worst).

For areas outside central business districts (downtown areas), American Association of State Highway and Transportation Officials (AASHTO) encourages roadway designs target design-year LOS C for reconstruction projects: "For example, in heavily developed sections of metropolitan areas, conditions may make the use of LOS D appropriate for freeways and arterials; however, this level should be used sparingly and at least LOS C should be sought." LOS C is the design-year target for this project.

### Alternatives Analyzed

DOT&PF has analyzed the following alternatives for their ability to satisfy project purpose and need:

- ◆ **2-lane existing (No-Build)**
- ◆ **4-lane with a Two-Way Center Left Turn Lane** (5-Lane section)
- ◆ **4-Lane, median-divided roadway** (existing intersection control unchanged)
- ◆ **4-Lane, median-divided roadway** (roundabouts at intersections inside Wasilla limits)
- ◆ **6-Lane/4-Lane, median-divided roadway** (existing intersection control unchanged)

Lane & Intersection Configuration	Design Year LOS "C/D" or Better	Separates Opposing Traffic	Provides Safe Access	Vehicle Refuge	Pedestrian & Bicycle Refuge	Median Snow Storage
2-Lane Existing	✗	✗	✗	✗	✗	✗
4-Lane with Two-Way Center Left Turn Lane	✗	✗	✗	✓	✗	✗
4-Lane Divided	✗	✓	✓	✓	✓	✓
6-Lane / 4-Lane Divided	✓	✓	✓	✓	✓	✓
4-Lane Divided w/Roundabouts Inside City Limits	✗	✓	✓	✓	✓	✓

### Roundabouts

The City of Wasilla asked DOT&PF to consider an alternative to construct a 4-lane divided roadway with roundabouts at all KGB intersections within city limits, with the goal of improving safety by reducing speeds. Analysis concludes this configuration cannot carry forecast volumes and would result in:

- ◆ 25 minute increase in commute time during the design-year PM peak hours
- ◆ 15 minute increase in commute time during the design-year AM peak hours
- ◆ Wide fluctuations in travel speed in all off-peak hours
- ◆ Long traffic queues during peak hours
- ◆ Level-of-Service F near the project's midlife

Without changes in growth trends, the study recommends ultimate build-out to a six-lane divided roadway and keeping current intersection control until operational conditions warrant signalization.

# 20 YEARS

Reconstruction projects are to accommodate traffic projected 20 years from construction date.

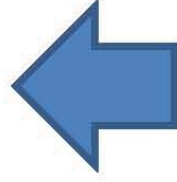

## Project Parameters:

- 4R Reconstruction
- **Functional Class**
- Consistency with Adopted Plans
- Retain Pathway
- Describe Problem
- Develop Appropriate Solution(s)

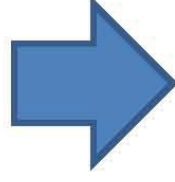

# Roadway Functional Classification

## What is Functional Classification?

**Local Roads** provide access to homes, businesses, and other property.

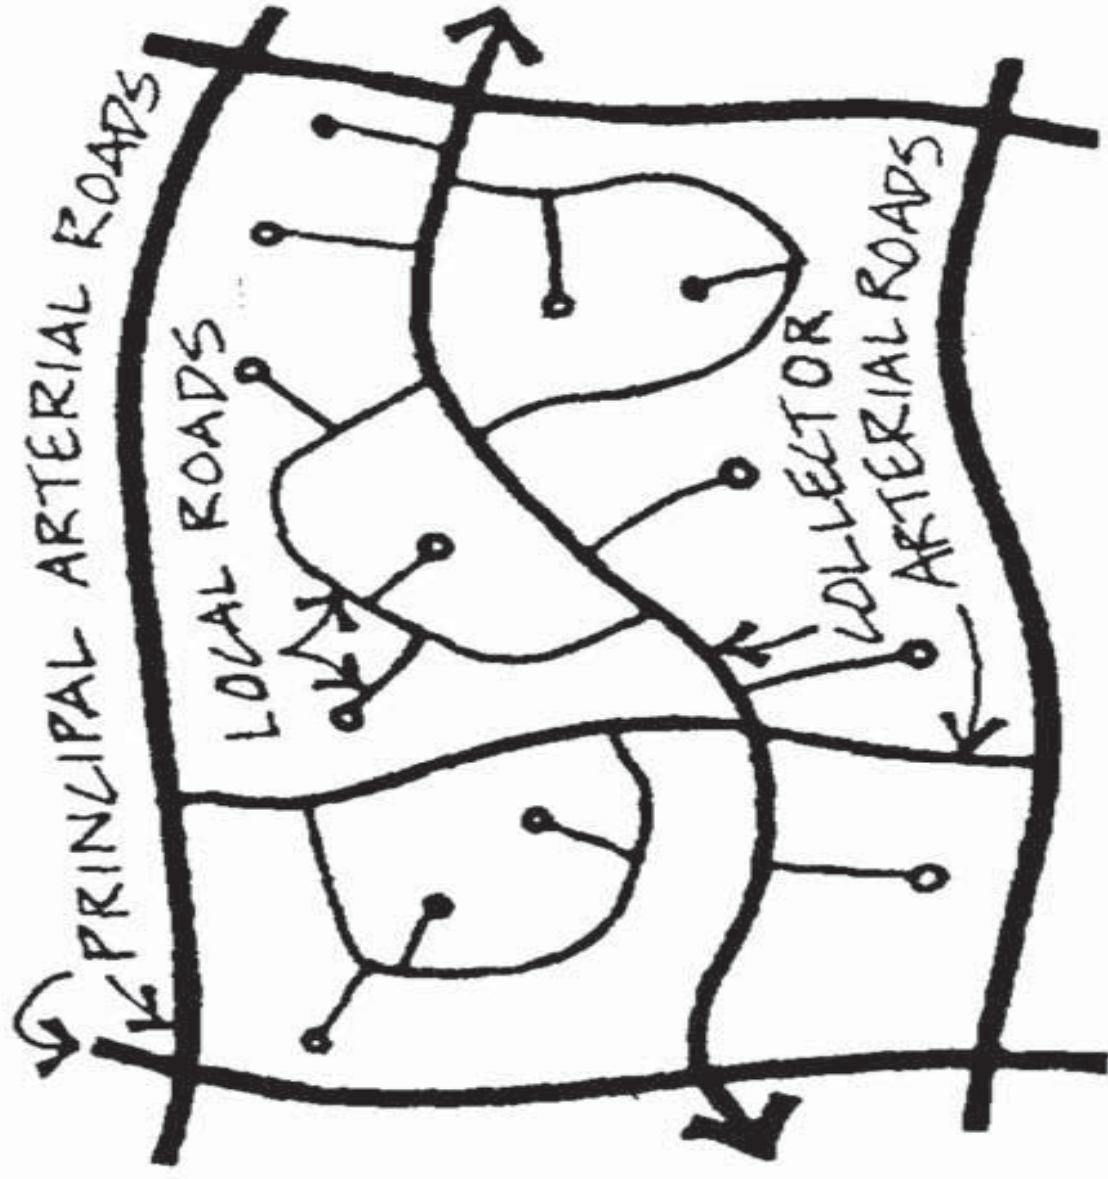

**Collectors** link arterials and local roads and perform some duties of each.

**Arterials** provide mobility so traffic can move from one place to another quickly and safely.

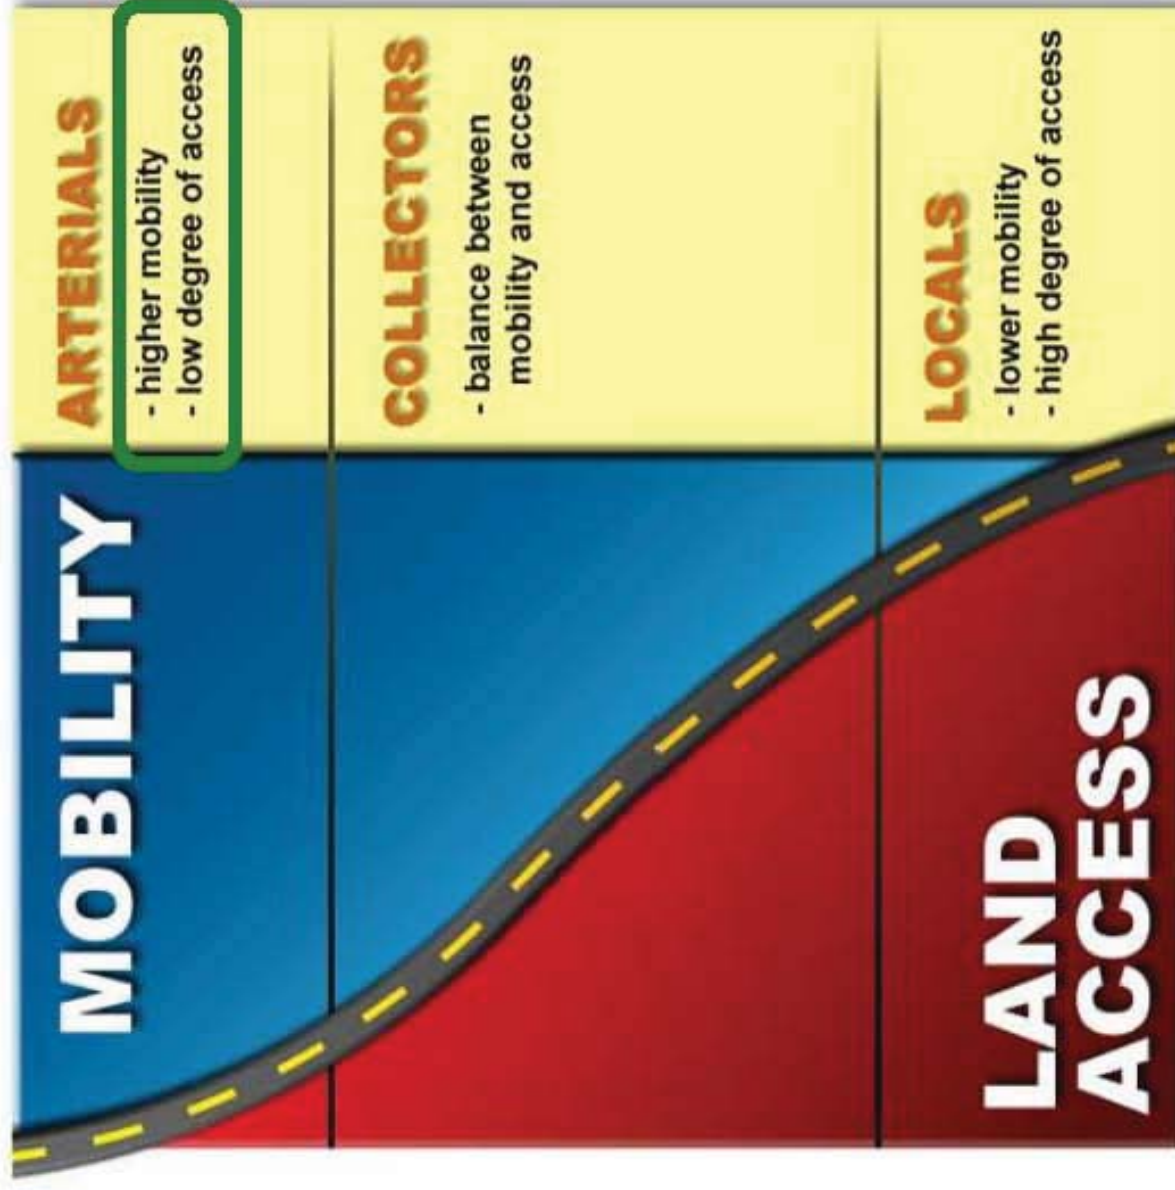

# Roadway Functional Classification

- KGB is a *Principal Arterial*. It is intended to carry most of the traffic entering and leaving the area – to provide higher mobility and lower access.

# Roadway Functional Classification

- KGB is a *Principal Arterial*. It is intended to carry most of the traffic entering and leaving the area – to provide higher mobility and lower access.

## Project Parameters:

- 4R Reconstruction
- Functional Classification
- **Consistency with Adopted Plans**
- Retain Pathway
- Describe Problem
- Develop Appropriate Solution(s)

# **Consistency with Adopted Plans**

- MSB Long Range Transportation Plan (LRTP)
- MSB Comprehensive Plan
- MSB Strategic Plan
- MSB Official Streets and Highways Plan (OSHP)
- Knik-Fairview Comprehensive Plan
- Statewide Transportation Improvement Plan
- Comprehensive Plan, City of Wasilla
- Wasilla Official Streets and Highways Plan (OSHP)

# Consistency with Adopted Plans

## Alaska Statewide Transportation Plan

- Plan states “access management, corridor management, and coordination with land use ... can make our highway system more productive”

## Mat-Su Borough Long-Range Transportation Plan

- Plan objectives include:
  - “maintain an acceptable level of service on roads,”
  - “minimize the number of access points on collector and arterial roads to maximize safety and capacity,”
  - “develop access control program with ADOT&PF.”

# Consistency with Adopted Plans

## Wasilla Comprehensive Plan

- Plan seeks to “improve traffic flows on highways and arterials”
- Plan promotes “access management along collector and arterial roadways”

## Knik-Fairview Comprehensive Plan

- Plan recognizes KGB Road as “one of the few long and scenic stretches of highway within the valley which has not had extensive commercial strip development
- Plan states residents do “not want to see commercial strip development.”

## Project Parameters:

- 4R Reconstruction
- Functional Classification
- Consistency with Adopted Plans
- **Retain Pathway**
- Describe Problem Develop Appropriate Solution(s)

# Retain Separated Pathway

- Separated Pathway from Parks Highway to Settlers Bay Drive KGB Road Retained
- Reconstruction Probable
- Constructed to Comply with Americans with Disabilities Act

## Project Parameters:

- 4R Reconstruction
- Functional Classification
- Consistency with Adopted Plans
- Retain Pathway
- **Describe Problem**
- Develop Appropriate Solution(s)

# Identify and Solve Problems

KGB is to be brought into conformance with current new construction standards.

Remainder of this discussion focuses on CAPACITY AND SAFETY, which are closely linked, as these are the drivers of the stated purpose and need for the project.

## • What is the problem now?

**Capacity**

**Drainage**

**Safety**

**Moose/Vehicle**

**Maintainability**

**Clear Zone Safety**

**Geometry**

**Signage**

**Right-of-Way**

# KNIK GOOSE BAY ROAD

Designated Traffic Safety Corridor from **in 2009**  
Palmer-Wasilla Highway to Pt Mackenzie Road

Here's why...

- 33 fatal collisions resulting in 36 fatalities  
**80% between Parks Hwy and Settlers Bay**
- Fatal accident rate of 5.1 crashes per million vehicle miles  
**Rate is 5.4 between Parks Hwy and Settlers Bay  
(3.8 times the national average)**

## This Project Represents 1/3 of KGB Road

*In the last 10 years...*

- 828 total crashes on KGB Road
  - **2/3 within this project**
- 12 Fatal Crashes on KGB Road
  - **2/3 within this project**

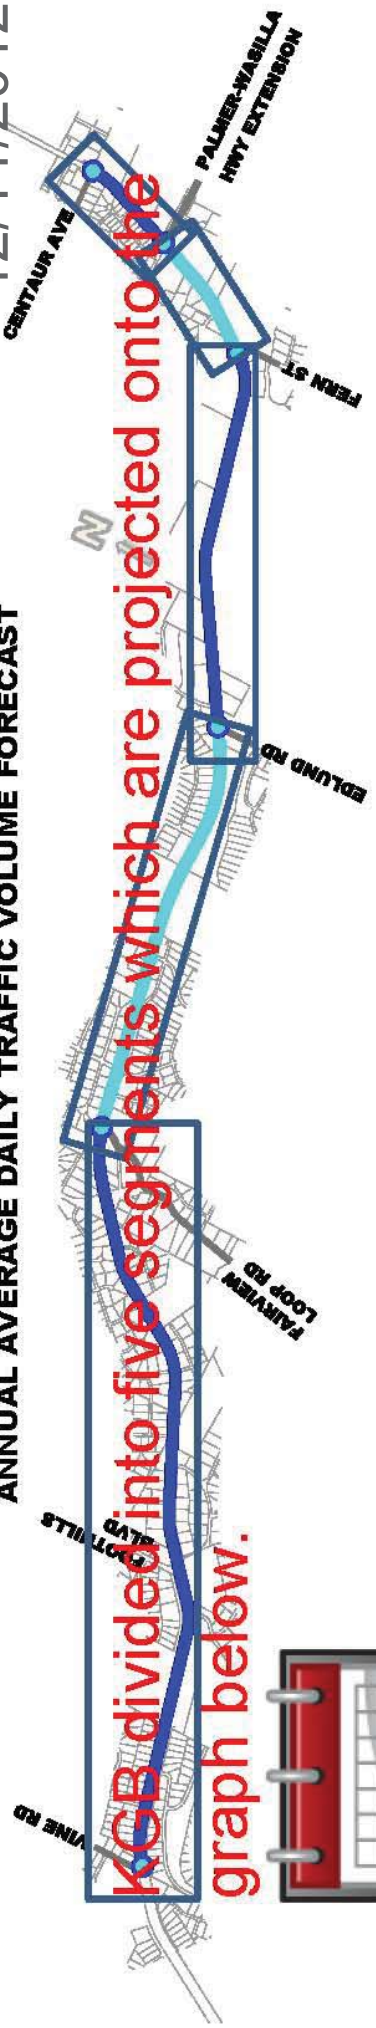

# Identify and Solve Problems

Design year is 20 years from construction year. As data become available, the 2035 year will be updated per the project schedule. Anticipate DY of 2039.

- What will the problem be in the design year 2035?

**KNIK GOOSE BAY ROAD: CENTAUR AVE TO VINE RD**  
**ANNUAL AVERAGE DAILY TRAFFIC VOLUME FORECAST**

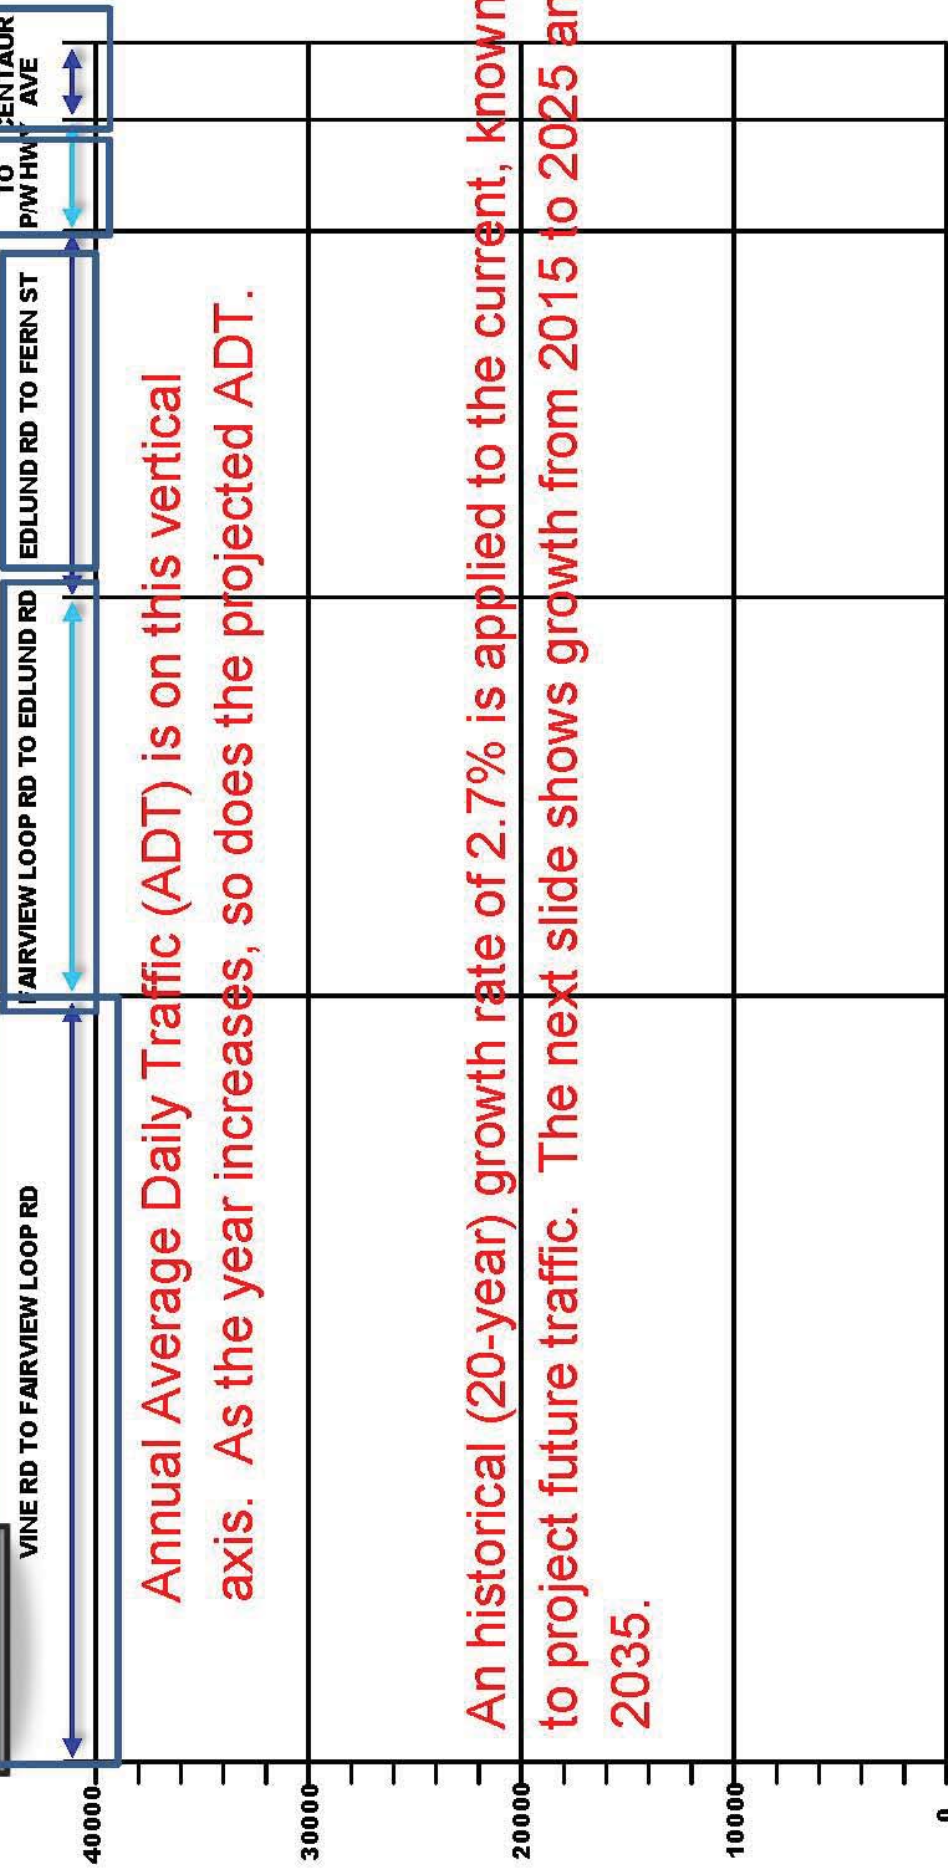

12/11/2012

KGB divided into five segments which are projected onto the graph below.

Calendar Indicates Year

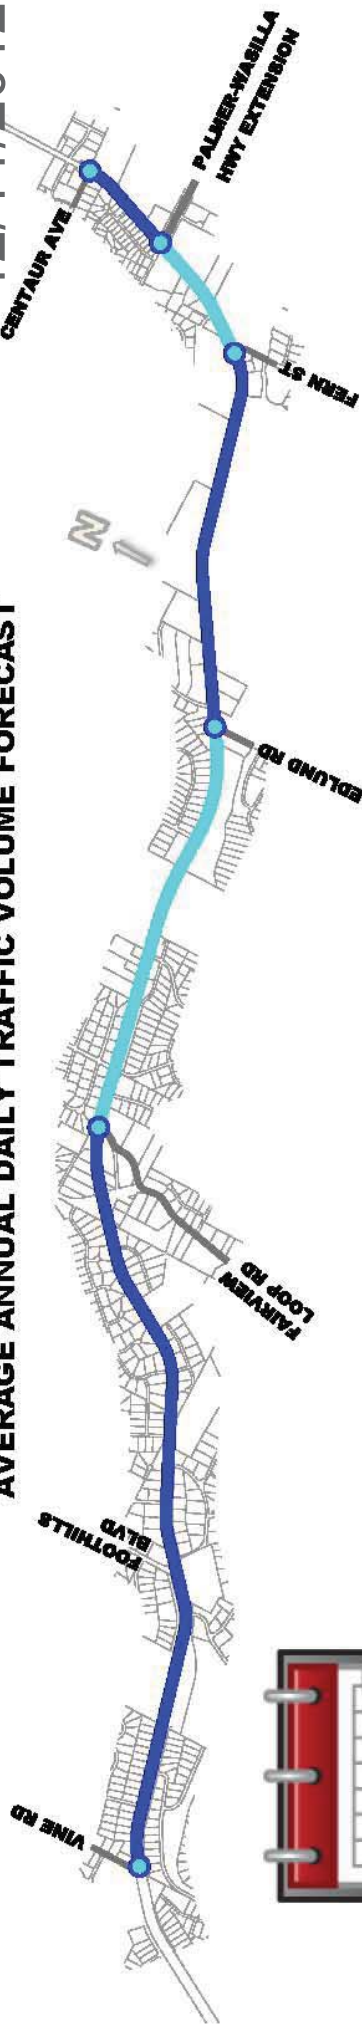

Annual Average Daily Traffic (AADT) is on this vertical axis. As the year increases, so does the projected AADT.

An historical (20-year) growth rate of 2.7% is applied to the current, known AADT to project future traffic. The next slide shows growth from 2015 to 2025 and 2035.

# KNIK GOOSE BAY ROAD: CENTAUR AVE TO VINE RD AVERAGE ANNUAL DAILY TRAFFIC VOLUME FORECAST

12/11/2012

Segment	Distance (Miles)	ADT
VINE RD TO FAIRVIEW LOOP RD	2.73 MILES	40000
FAIRVIEW LOOP RD TO EDLUND RD	1.51 MILES	
EDLUND RD TO FERN ST	1.38 MILES	
FERN ST TO CENTAUR P/W HWY AVE	0.47 MILES	
P/W HWY TO CENTAUR P/W HWY AVE	0.37 MI	

HOW WILL TRAFFIC GROW BETWEEN NOW AND 2035?

The DOT Traffic Data Section monitors traffic flow and publishes Annual Average Daily Traffic volumes. The observed prior 20-year growth rate on KGB Road is 2.7% annually. This rate is the basis for traffic dependent analysis. Standard formula for future traffic is  $FT = PT(1 + 0.027)^n$ , where FT is Future Traffic, PT is Present Traffic, 0.027 is the growth rate, and n is the period (in this case years).

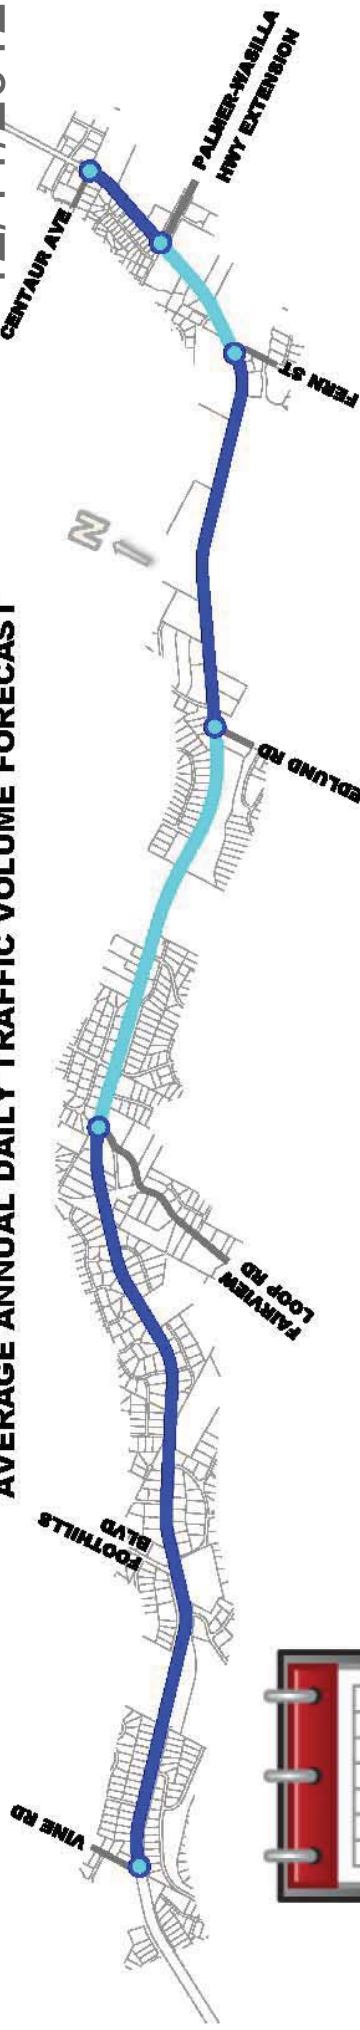

ANNUAL AVERAGE DAILY TRAFFIC (AADT)

Level of Service Discussion

**LEVEL OF SERVICE  
ANALYSIS FOR  
KNIK GOOSE BAY ROAD**

# LEVEL-OF-SERVICE (LOS)

- Level-of-service (LOS) - term used to qualitatively describe roadway and intersection traffic operations using “letter grades” ranging from A (best) to F (worst).

# LEVEL OF SERVICE (LOS)

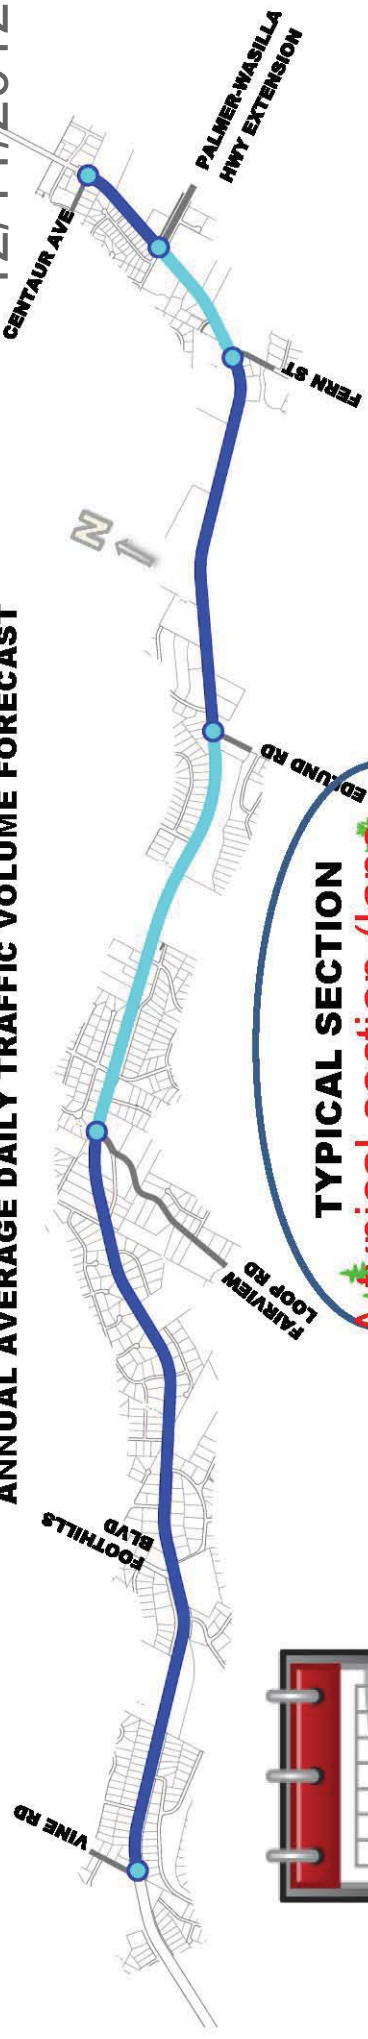

LOS C, with constant flow below the speed limit and lower levels of driver convenience, is the minimum recommended by the American Association of State Highway and Transportation Officials (AASHTO) for this type of facility. For purposes of analysis, LOS D and worse are seen as not meeting this goal.

*Level-of-Service is performance, is vehicle delay.*

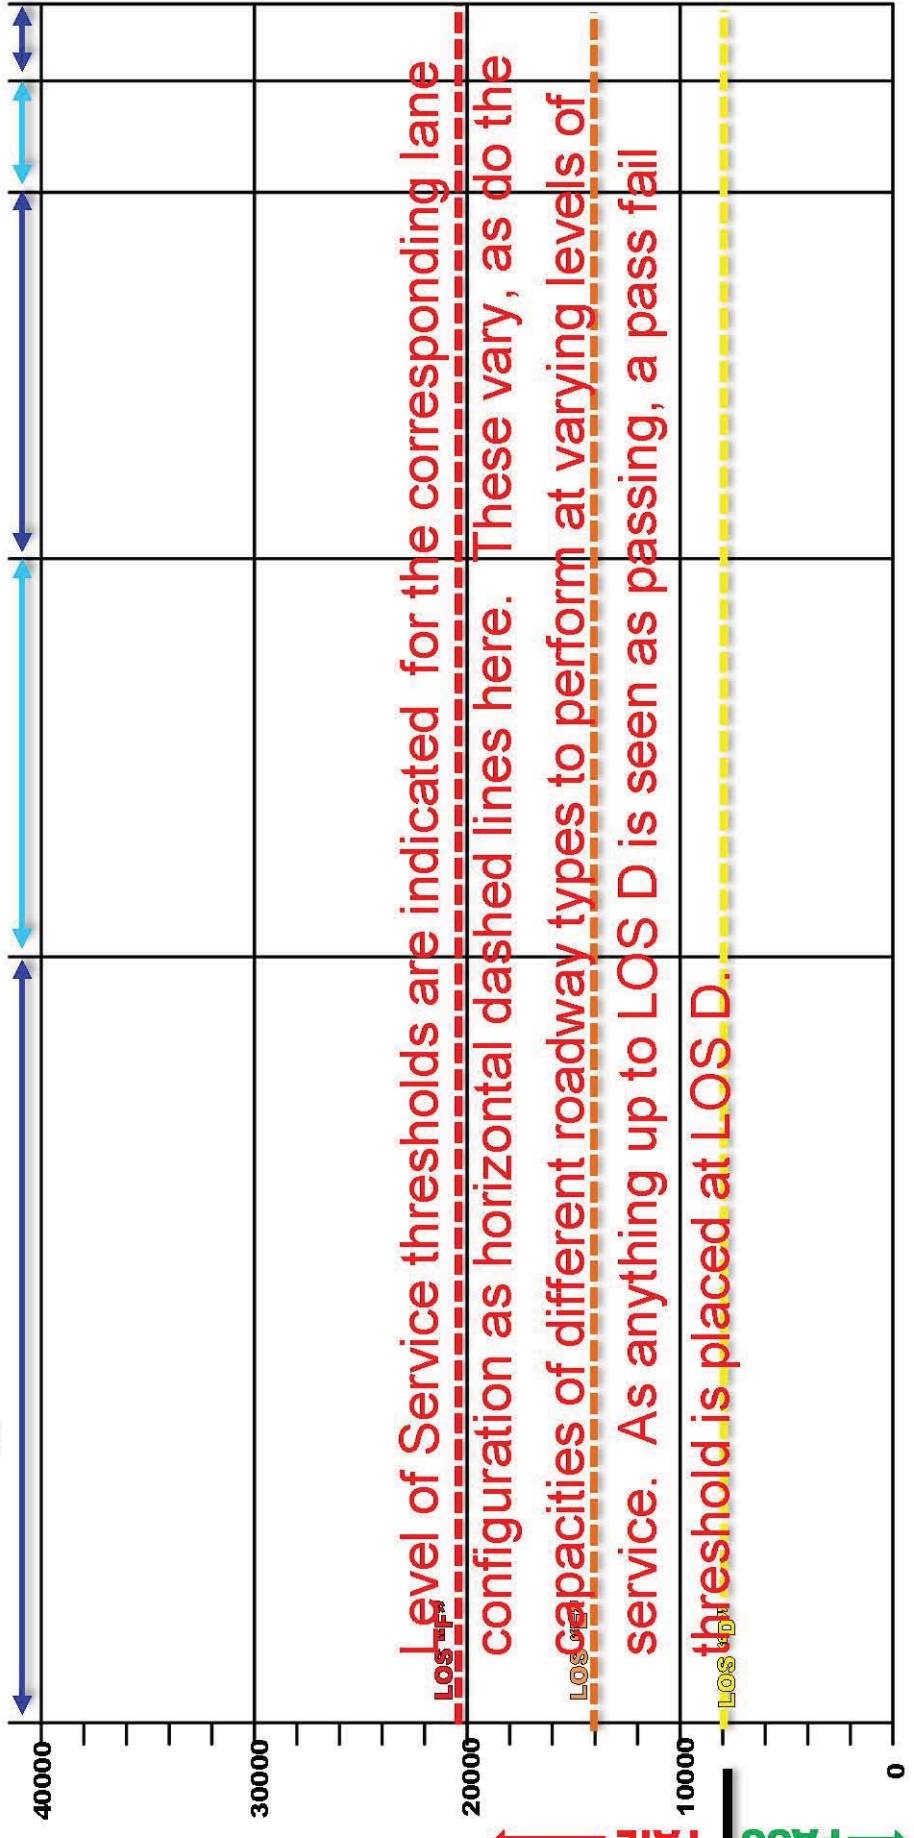

# KNIK GOOSE BAY ROAD: CENTAUR AVE TO VINE RD ANNUAL AVERAGE DAILY TRAFFIC VOLUME FORECAST

12/11/2012

**TYPICAL SECTION**  
A typical section (lane configuration) is added to the graph here

VINE RD TO FAIRVIEW LOOP RD  
FAIRVIEW LOOP RD TO EDLUND RD  
EDLUND RD TO FERN ST  
FERN ST TO P/W HWY  
P/W HWY TO CENTAUR  
P/W HWY AVE

Level of Service thresholds are indicated for the corresponding lane configuration as horizontal dashed lines here. These vary, as do the capacities of different roadway types to perform at varying levels of service. As anything up to LOS D is seen as passing, a pass fail threshold is placed at LOS D.

# 20-year AM/PM peak hour delay cost per vehicle

**\$16,100**

The typical two-way commuter using KGB Road as currently configured during both the AM and PM peak hours over the next twenty years would spend an additional \$16k over 20 years in commuting costs due to the delay. Vehicle delay is assigned costs of motorist's time value, additional fuel usage, and lost productivity. These costs of congestion are a large part of what drives projects of this type. Costs to society related to safety are discussed a little later.

## KNIK-GOOSE BAY ROAD, CENTAUR AVE TO VINE RD

2015-2035

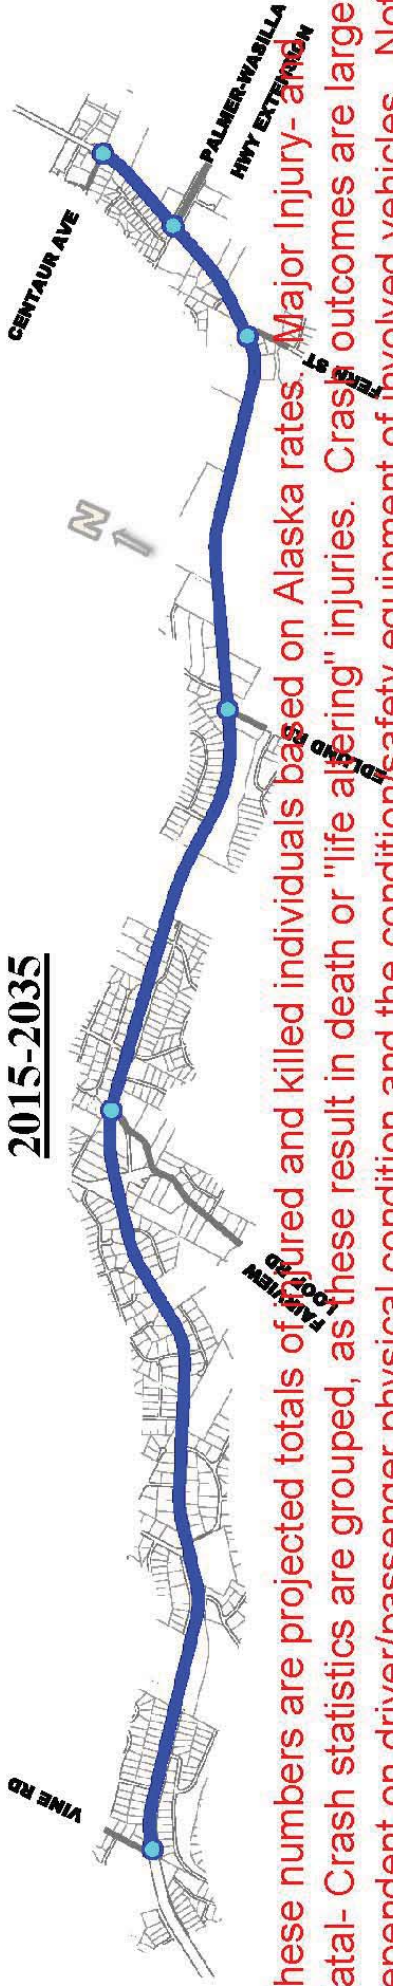

These **TOTAL CRASHES** include property damage, minor injury, major injury, and fatal crashes. Rates are based on observed crash data on comparable Alaska facilities.

# PREDICTED TOTAL FATALITIES & MAJOR INJURIES 1/2012

## KNIK-GOOSE BAY ROAD, CENTAUR AVE TO VINE RD

2015-2035

These numbers are projected totals of injured and killed individuals based on Alaska rates. Major Injury- and Fatal- Crash statistics are grouped, as these result in death or "life altering" injuries. Crash outcomes are largely dependent on driver/passenger physical condition and the condition/safety equipment of involved vehicles. Note divided sections virtually eliminate head-on crashes, thereby reducing the proportion of fatalities in those type sections.
